Residential

"We would totally recommend it over and over to everyone we know."

– Yi Dai | Residential Client

Home is where the heart is

We work with interior spaces to turn your house into a home. Our floors are attractive and feel comfortable underfoot. They are seamless, for a clean, modern aesthetic, and are available in any colour, from earthy tones, or something fresher, to a stylishly dark look. Choose from two finishes – a simple and even flat colour, or a smooth concrete effect.

Happy feet

We pride ourselves on our comprehensive service, from initial advice and help with selecting the right flooring for your home, to the development and production, and the final installation by our professional fitters. What sets us apart is the fact that we care. About your room, your home your needs and your results.

Our resin flooring for the home is entirely seamless, durable, 100% UV resistant, sound attenuating, heat-conducting, water tight, easy to clean and requires little maintenance. The floor retains its comfortable elasticity and is compatible with under-floor heating. The polyurethane is plant-based with a life expectancy of at least 10 years.

525 or FiftyFifty for the home

The Bolidtop 525 is available in earthy tones, and is ideal for the home. The resin floor is poured in one full, even colour with a beautifully stylish matt finish, offering your room a sleek, modern aesthetic with a comfortable feel and is available with anti-slip finishing.

FiftyFifty blends two warm natural base colours, poured together giving a touch of flow and playfulness for a completely unique floor. It has the appearance of concrete, with a matt seamless finish and no cracking and is available with anti-slip finishing.

Luxurious, comfortable and contemporary outdoor decking. This terrace system enhances spaces with its functionality and sense of luxury. Endless design solutions are available with a range of colours, for a modern, clean look. Durable and low maintenance, Esthec is made of natural ingredients. The non-slip and high comfort surface is ideal for wet areas.
