Office

*"We are very happy with the appearance of the resin flooring, which achieves precisely the clean, simple, high quality aesthetic we were seeking."*

– Michael McCollum | Associate Director | KSS Group

# Work healthy, work happy

A pleasant working environment improves efficiency, performance and positive mindset. Our user-friendly synthetic floors for office buildings combine advantages in durability, noise reduction, heat insulation, hygiene and maintenance. From the entrance and down the corridors to the offices, our impact and wear-resistance floors withstand heavy pedestrian traffic. Our floors are ESD safe in rooms with computers and other tech equipment; combat chair-sliding and spill marks in cafeterias and are safe and hygienic in sanitary areas.

Design is at the core of turning your office floor into an inspiring working environment. We bring creativity and colour to your workspace, with unlimited design possibilities. Seamless, fungi-resistant and hygienic, our floors are designed to improve wellbeing and performance.

Bolidtop 525 and FiftyFifty work well in the main areas of office buildings and are available with a textured or textureless anti-slip coating. For back of house or delivery areas we recommend the highly durable and wear resistant Bolidtop 700, 500 RF and 200 RF.

Some images have been supplied by Bolidt for commercial use. For further details please contact [info@stratum.uk.com](mailto:info@stratum.uk.com)
