

MASTER OAK.

**BETTER THAN
ORIGINAL OAK.**

 **UNILIN**

LOOKING FOR A BEAUTIFUL AND PERFORMANT SURFACE FOR YOUR NEXT PROJECT? MASTER OAK IS THE ANSWER.

Master Oak is better than the real thing. Why? The look and feel is inseparable from real oak and made from more than 90% recycled wood. That is not only an affordable alternative to oak and oak veneer, but also more sustainable. Icing on the cake? Your surface will stay unaffected in the face of sunlight, it is 3 times more scratch-resistant than the real deal and easy to keep clean.

A wide range of commercial projects, demonstrate Master Oak's ability to deliver high function under different applications. From cabinets and partition walls to built-in cupboards, Clicwall walls and tabletops: it all looks impressive and exactly like Oak.

- Scratch-resistant
- Colourfast
- Easy to clean
- More than 90% recycled wood

Master Oak is available in 6 designs.
