

MWC MWC Group

Established for over 55 years, the group manufactures, world leading, innovative, sustainable products and surfaces within 65,000 sq. ft of production facilities, at our manufacturing base in Swindon.

The MWC Group provides a complete design and manufacturing solution, which includes products containing timber, bamboo, metal, glass, specialist paint finishes, solid surface and stone fabrication.

m_os_o bamboo

MWC
Group

Moso Bamboo is a UK market leader and distributor for Moso International, a world leader in manufactured bamboo. We pride ourselves on extensive technical knowledge, and customer care working with you, from inception to completion of any size project.

Our Bamboo is available as part of a large sustainable range of manufactured bamboo products including panels, worktops, decorative cladding, flooring, outdoor cladding, veneers, and beams.

Natural Stone Veneers

With our latest innovative range of thin stone, we are providing solutions to interior and architectural designers by removing the need for more traditional slabs of thick heavy stone, and offering our thin lightweight, easier to transport and more flexible range of stone, without losing any of the natural beauty.

Stone has been used as a renowned building product for thousands of years due to its durability, low rate of water absorption and fireproof qualities, making it the perfect surface material.

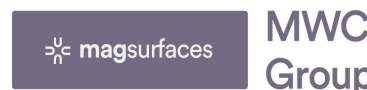

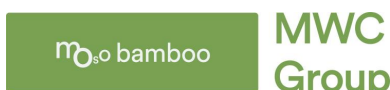

MWC Group

On A Roll

British made by hand, from 95% quarry waste stone material, this versatile product gives the creative mind the ability to interpret concrete in a completely new way.

Bending and curving up to 90 degrees, you can apply it to any surface, within those tricky to reach places. Each flexible sheet is 2mm thick and can be used internally and externally and is ideal for commercial and domestic vertical or horizontal applications.

Marble

Our lightweight, thin marble, available in a range of colours and larger sizes is perfect for luxurious interior fit outs, with its beautiful intricate veins and swirls.

Earth Anatomy marble veneer, utilises the stone's natural malleability, allowing application of this durable material to places you've never thought marble could be applied, adding opulence and classic style to your project.

Acoustic Walling

A quick and easy to install global patent applied solution allowing maximum acoustic, visual and sensory comfort for the user, with minimal installation time.

The non-woven felt is applied onto a range of our innovative sustainable products including slate, stone and bamboo; with a magnetised back it is a complete system enabling your space to be transformed overnight, making the creative possibility endless, whilst helping to reduce noise within any space.

Pavoni

Luxurious stylish Italian leather. Pavoni leather can be found in some of the most prestigious known luxury brands. Among them Aston Martin to Amouage, Louis Vuitton showrooms to Four Seasons Hotels, also for many Royal Households around the world.

Our patented solution works with our magnetic system, offering quick, easy installation of a variety of different leather finishes, including wall slats, uplifting and creating distinctive walls.

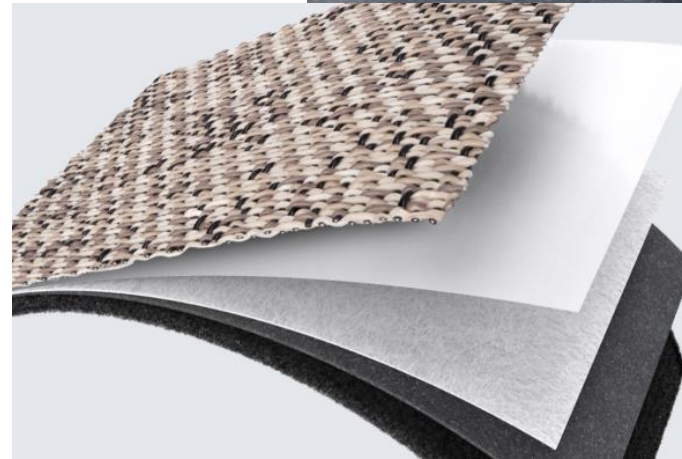

MWC Group

2Tec2

Created by experienced designers, we are proud to offer you a beautiful collection of seamless, high-tech woven vinyl flooring.

2tec2 strives to deliver a durable, superior product, while also preserving and protecting the world beneath our feet.

Our flooring comes standard with acoustic comfort backing to reduce the noise of footsteps and absorb sound.

Our magnetic system, allows walls and surfaces to be refreshed and updated with new styles, colours and textures quickly and cleanly. Once installed the system allows spaces to be transformed – often overnight – to create brand or seasonal impact with minimal disruption to business and can often be managed by in house teams.

This patented system is the result of years of research and has been extensively tested on interior and exterior surfaces.

wineo

MWC Group

wineo PURLINE organic flooring is arguably the most ecological flexible flooring available. Without chlorine, plasticisers, or solvents, the range delivers not only with its unparalleled sustainability, but also with its impressive hardwearing features and beautiful designs. The non-slip feature makes this flooring suitable for use in bathrooms and kitchens as well as large commercial floors in high traffic areas and can be applied over under floor heating.

The cradle to cradle® certification confirms the utilisation of environmentally safe, healthy and reusable materials.

duzst

MWC
Group

A whole new brand of patented wall coverings available in a wide variety of patterns, colour finishes and sustainable options. What's more, it's suitable for residential properties and commercial enterprises alike.

Our global patented process allows us to design and make materials out of almost anything, including waste products.

We have an abundance of ideas and want to share and inspire with like minds. Imagine re-using your waste coffee to make wall coverings, for the ultimate recycled product.
