Amazing Metal  
Surfaces Designs

# Patina

is a natural oxidize process of metals, based on changes in humidity, temperature and climate. Overtime metals shows signs of age with characteristic textures in diverse color palettes. Lost Cowboys developed a technique to accelerate and control this process. In nature, time will change continuously coloring of these patina reaction, we capture color design by sealing the surface with a durable coating.

## Patina Wall Art

This collection contains inspiring wall fashion in trendy themes like skylines, nudes, citymaps and sports.

Customize your wall art with personalized text or company logo for distinctive interiors!

# Metal Stair Risers

We offer 4 standard sizes on Etsy in all our patinas.!  
If you need a custom size, just let us know.  
Minimum quantity is 10 pieces and all prices are  
including free shipping!

Easy cutting by tin snips and easy installation by  
adhesive.

Mixed aged metals as above picture is a  
combination of copper and brass risers which  
are pre-aged and not coated.  
The antique finish become more characteristic  
overtime!  
These risers are satinated/polished for a smooth  
surface.
