

# The Ascot days thrill with you all year?

Do you have clients that live and breathe equestrian art and horse races all year, not only during Ascot season?

Or maybe you're creating a period-inspired interior, yet look for a unique, modern touch?

OneWallDesign have launched newest collection dedicated to Equestrian riding and horses - Equus

## The concept behind each design

Along with a new dedicated structure, priced at £126 inc vat per square meter, Equus collection opens with a Marengo graphic. The inspiration for its creation were engravings presenting figures of the Spanish Court Riding School. The world's oldest institution cultivating the tradition of classical equestrian art is located in Vienna and will soon celebrate 460 years of existence.

The skills taught and demonstrated there constitute the highest form of equestrian art.

In the Equus collection, we have hidden many historical tidbits in the paintings. The Touch of the Past category contains a note of nostalgia and longing, combining the past and the present.

The Malgrat wallpaper refers to the classics of decoration. Check is an iconic pattern associated with British style and elegance and one of the most desirable motifs in the world of fashion and interior design.

This absolutely immortal trend is available in 3 basic colour versions – **and on request, we can create a bespoke adjustments to all of the designs.**

## Upcoming events

**04-06.02.2025 – SURFACE DESIGN SHOW @ Islington Desing Centre London STAND 548**

## Our new customisable catalogues

You can purchase catalogs for individual collections, as well as purchase a general catalog presenting a cross-section of OneWallDesign's product range.

In the general catalog you will find selected designs and bestsellers, as well as samples of all available materials. Patterns are marked with a QR code leading to a particular collection.

Collection catalogs are an essential tool for working with customers in your showroom. Each catalog contains all the graphics of a particular collection and samples of materials dedicated to that collection.

## Samplers

A set of samples presenting all materials dedicated to OneWallDesign (DigiBasic and DigiWet)

## Free Resources

At any time you can sign up for a trade account at [onewalldesign.com](https://onewalldesign.com) and access our full library, edition and customisation tool as well as technical documents and price lists. Apply today
