Subject: (External) Comments on Updates

Hi,

I wanted to provide comments on the proposed updates. For group internet trainings, I think there should be some mechanism for breakout groups in lieu of polling questions. I was told by NASBA that you would need 3 breakout groups per hour. However, if you did one 20-minute breakout group with a learning activity per an hour long course, I almost think this is better than just polling questions. I think there should be some sort of mechanism for breakouts for X minutes to count and not needing 3 per hour.

Thanks,

Jen
