**Subject:** (External) Comments for Proposed Revised Standards 2022

Hello,  
I'm the Main Contact for CrossCountry Consulting's NASBA sponsorship (#132746). Below are my comments on the proposed revised standards 2022.

**S16-05**

We use Zoom meetings for several of our CPE programs. When doing so, participants come into the meeting with their video on. Under new guidelines, this would now be considered a Group Live event, not Group Internet. Currently, we utilize polls and the Zoom attendance report to monitor attendance and award CPE credit. Under this new guideline, it seems we must have the instructor verify attendance in these sessions and the session should be limited to 25 attendees for every 1 instructor. It's unclear if the same attendance monitoring required for Group-internet programs also applies to Zoom meetings.

**S23**

The name of CPE Program sponsor representative is to be added to the CPE certificate. The application includes a Main Contact and Supervisory Contact. Who is to be listed on the CPE certificate? Please add a definition of this role.

Thank you for the opportunity to provide feedback on the proposed changes.

Best regards,

 **Sue Sujansky** (she/her/hers)  
Learning and Development Manager  
**CrossCountry Consulting**
