Group Internet Based Program-Reviewer Comment Summary

CRITERION

1. Program participants must be able to interact with this instructor simultaneously while the course is in progress.

   Comments:

2. Determine whether the program employs some type of monitoring device to verify that ALL participants are actively participating during the course.

   Comments:

3. Determine whether the program was developed in a manner consistent with its learning objectives. The program's content and audience level should correspond with the backgrounds of intended participants.

   Comments:

4. Determine whether the program appears to be well written, current, technically accurate, and free of grammatical errors.

   Comments:

5. The reviewer should determine whether the CPE credit to be awarded is reasonable.
