

Building Web Apps with Excel: Sheetcast Workshop

Join Microsoft MVP Celia Alves for an in-depth, hands-on learning experience where participants discover how to transform Excel workbooks into functioning web applications using Sheetcast.

In this three-session workshop, participants will learn to:

- Design and deploy a fully functioning web app using only Excel
- Understand the architecture and logic behind Sheetcast applications
- Integrate real-time user input, automate workflows, and how to share your new applications through the web

To register for this session, visit:

www.sheetcast.com/workshops

To earn full credit, participants must actively participate by building along with the instructor and responding to questions either verbally or in through live chat during each session.

Participants will earn: 9.0 CPE credits

Field of Study: Computer Software & Applications

Additional Information

Prerequisites: Basic proficiency and knowledge of Microsoft Excel.

Who Should Attend: This session is for Excel professionals seeking to enhance their skills by building live web applications directly from their workbooks.

Advanced Preparation: None

Program Level: Intermediate

Delivery Method: Group Internet Based

Refunds and Cancellations:

This workshop is currently offered free of charge. As such, there are no fees to refund. If you are unable to attend, we kindly ask that you notify us in advance so we may offer your spot to another participant.

In the rare event that we need to cancel or reschedule a session, we will notify all registered participants by email and provide the option to attend a future workshop.

For more information about refunds, complaints, or program cancellation policies, please contact:
