Ways to learn from Webucator

Private Onsite Classes

Webucator offers onsite training throughout the United States and Canada. We send the instructor to your location to deliver the class in-person. Our classes can be customized to meet your specific needs. Although there is no minimum class size, an organization will generally need to have at least five students in a class for it to be cost effective to bring a Webucator trainer onsite.

Public Live Online Classes

Webucator's public instructor-led online classes provide the opportunity to learn the latest technologies from top experts without leaving the home or office. Most of our public instructor-led online classes are delivered from 10:00AM to 5:00PM Eastern Time via a live Web conference. All class materials, including a course manual and headset, are sent by mail.

Classes are hands-on. For each lesson, the instructor explains new concepts, shows a demo and answers questions. Then, students do an exercise with the instructor available for help. During the exercises, the instructor can (with your permission) see your computer, so he or she can provide one-on-one assistance as needed. After students complete the exercise, the instructor reviews the solution and answers questions. The process is repeated for each lesson.

Our public classes are personalized. Class is typically 3-6 students, and the instructor tailors class based on the needs of the participants.

Benefits

Webucator training stands out from the competition.

- **All Classes are Guaranteed-To-Run.** Classes never cancel. Classes run with one student.
- **Small Class Size.** We keep classes small. Public classes typically have 3-6 students.
- **Free Retake Options**. Students can come back to retake their class again at no charge. There's no time limit. Come back anytime and review!
- **Trainer Support.** Email questions to a trainer after class at no charge. There is no time limit on post-class support. Email your trainer anytime!
- **Customization Options.** Our instructors tailor the class to meet students' needs. In public classes, instructors often discuss extra topics or stay after class to offer one-on-one help. For private classes, you may create your own custom outline from our class listings at no charge.
- **Post-Class Training**. We include free self-paced courses with many of our classes, enabling students to continue their learning after class.
- **Microsoft Certified Partner (CPLS).** We offer hundreds of Official Curriculum and Microsoft-approved courses. We accept SATVs and offer free long-term Microsoft lab access.
- **Registered Education Provider (R.E.P.) with PMI.** PMI certification prep classes are available and PDUs can be earned by taking Webucator classes.
- **Competitive pricing.** Webucator offers high-quality training within your budget.

"The venue was outstanding, as was the instructor. The materials were very usable and serve as a great reference."
- Michael S., US Air Force

"Webucator was willing to go the extra distance in meeting and exceeding my expectations both on price and content of the class."
- Adib A., American Airlines

"Webucator was willing to work closely with us to identify our needs. They gave us the hands-on coding time that helped us walk away with a new level of competence."
-Ned S., Hamilton

"The teacher was willing to help with specific problems we were having. The class was just what we needed to take our code to the next level.
- Brad L., Seagate

"The customization of our class helped us accomplish more than I thought was possible in just two days. Thanks!"
- Mark W., Washington Post

"I loved the instructor. She was absolutely wonderful and extremely knowledgeable, friendly and patient. I loved the interaction and the hands-on way this class is taught."
- Sophie K., Red Cross

"Even though the class was done on the Web, it seemed like the instructor was onsite with us. The hands on-training with a live instructor to answer questions was priceless."
- Tonya Z., Raytheon

"This class was great, and the ability to take it from home was the cherry on the sundae. It was intensive with lots of practice, rather than just reading and taking notes."
- Walter H., Boeing

"I liked everything about this class! Great tool, great teacher, the convenience of the online instructor-led format, and the fantastic student/teacher ratio."
- Susan C., Hewlett Packard

"The instructor was very knowledgeable. I liked that she was willing to answer ALL of my questions that weren't even part of the curriculum."
- Lorrie S., USAA
