MoreSteam's Yellow Belt training provides a working knowledge of process improvement methodology and basic Lean Six Sigma tools to help you isolate problems, identify root causes, and perform fact-based analysis to develop solutions.

Course Overview

Lean Six Sigma Yellow Belt for CPAs is a comprehensive course presented in the DMAIC format (Define, Measure, Analyze, Improve, Control). Extensive practice opportunities are provided in a variety of methods, including simulations, interactive exercises and skill checks. In addition, videos are utilized to walk you through challenging concepts. The course is easy to access from your computer so you have flexibility to work at your own pace. The course is available for one year and you can start whenever you are ready.

If you are a CPA and would like to earn CPE credit hours, you can earn 14.5 CPE credit hours in the Production field of study. You must successfully complete a qualified assessment with a cumulative minimum passing grade of 75 percent and complete the course/assessment within one year of purchase. You will receive a certificate of completion when these requirements are met.

What is the value of a Lean Six Sigma Yellow Belt as a CPA?

A Yellow Belt Certification demonstrates your ability to enhance business operations and processes.

"The Yellow Belt experience is a logical supplement to a CPA license. While the CPA content is very technical in nature, the Yellow Belt content enables you to deploy that knowledge in a transformational and differentiating way." - Kyle S., Ernst & Young

Why Choose MoreSteam's Yellow Belt?

1. Process Improvement Makes a Difference

CPAs work in an ever-changing and challenging environment. But with a strong foundation built on the Lean Six Sigma problem-solving methodology, CPAs can become better equipped to solve the many process problems that they encounter, enabling the timely delivery of high-quality work to clients.

2. An Emphasis on Practice

Over 50% of this course consists of interactive exercises, and simulations that prepare you to complete real projects. Our training is not online Power Point slides or pre-recorded Webcasts, but a multimedia blend geared towards adult learning.

3. The Flexibility of On-demand Content

In eLearning, you control the pace of action. eLearning brings the knowledge directly to you, no matter where you are or when you need it. You have complete freedom to explore and revisit lessons.

*Actual interactive exercise
