Expensify

You weren't born to do expenses.

Automate receipt tracking and expense management for your whole team so you can focus on what really matters.

Admins and Accountants

Streamline your preaccounting with features like corporate card reconciliation, multi-layer approval workflows, policy enforcement, and automatic reimbursement.

Employees

Simply snap a photo of each receipt with the Expensify app, and SmartScan transcribes all relevant information to create an expense. Expensify automatically categorizes, submits, and approves compliant expenses for next-day reimbursement.

Businesses that adopt Expensify see an average ROI of 598%.
