

FUTURE FORCE CAPABILITIES CONFERENCE & EXHIBITION

Harnessing 21st Century Technology to Redefine Modern Warfare

September 30 – October 3, 2025 | Fort Worth, TX

NDIA is currently in discussions with a range that offers flexibility in its capabilities. We are gathering information on the types of weapon systems and ammunition your company would like to demonstrate at the 2025 Future Force Conference. The range day will take place on Friday, October 3, immediately following the conclusion of the conference at the Fort Worth Convention Center.

As we present the submitted weapon systems and ammunition to our potential range partner, we may have additional questions and may reach out to you for direct coordination with the property to ensure your requirements can be met.

Please submit your application by June 13, 2025. If the application is received after this date, we may not be able to accommodate your request.
