

THE FLEXMORT AIRCOOL MOBILE MORTUARY SOLUTION

TRUSTED MOBILE MORTUARY COOLING OF MILITARY
AND DISASTER PLANNING TEAMS WORLDWIDE

Internationally utilised by emergency planners, disaster teams, hospitals and funeral directors, the Flexmort AirCool has transformed portable mortuary storage.

The AirCool offers a practical and efficient way to manage deceased individuals in emergency situations, ensuring their proper care and handling without the need for large mortuary refrigerators.

Fast to set up and easy to deploy during emergency situations, providing essential storage capacity during mass casualty incidents. With its efficient cooling capabilities, it helps preserve the deceased while awaiting further arrangements or processing.

Flexible Design

Customisable options available in 4, 8, 9, 12 and bariatric. Designed on wheels the system can be quickly erected and dismantled.

Reliable Support

UK based support team with fully trained service team. We offer rental and purchase options to suit your requirements.

Quality Materials

Scientifically proven to be the lightest and most thermally efficient of its type.
