APPS

Our specialised apps allow you to have access to up-to-date guidance on medical conditions and drug dosages at all times, to use during incidents or as CPD between shifts.

iCPG

The one-stop app for UK national clinical guidelines

JRCALC Plus

Your local and national guidelines in one app

ParaPass

Supporting your learning and CPD on the move

Responder Plus

The app for community first responders

NO SIGNAL? NO PROBLEM!

All of our apps work offline so that they can be accessed even when in remote areas.

St John Ambulance First Aid FAST

First Aid FAST is an exclusive app available for anyone attending St John Ambulance's First Aid at Work and Paediatric First Aid courses.

Whether you're an office worker with a colleague who has suffered a cardiac arrest or a scout leader assessing an unresponsive casualty, with First Aid FAST you have reference and reassurance at your fingertips.

ParaFolio

The ParaFolio app is a new CPD management tool for organising your portfolio for audit.

Every Trust member with a ParaPass CPD app licence receives access to ParaFolio as a complementary component of their subscription. Individuals can also subscribe to ParaFolio using in app purchasing.

ParaPass

A host of CPD resources all at your fingertips.

The ParaPass app is a vast, user-friendly digital platform that includes tools to support paramedic learning and development.

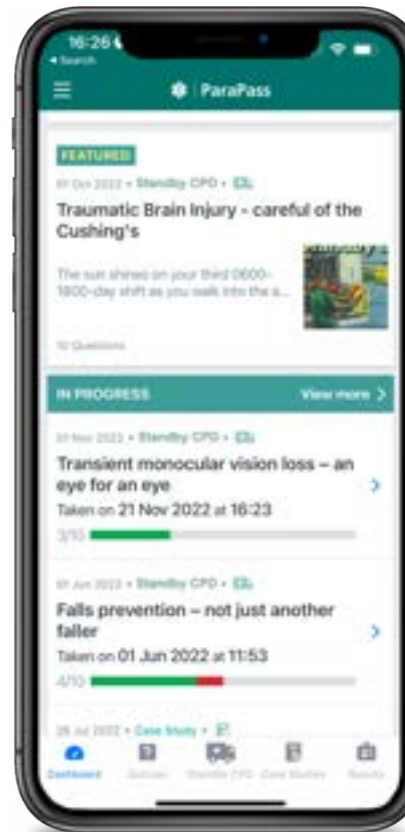

If you work for an Ambulance Trust, you may have free access. Contact apps@class.co.uk to find out more.

Scan here for a ParaPass overview

KEY FEATURES

- ParaPass has over **2,000 multiple choice questions** on the JRCALC Guidelines.
- ParaPass includes **Standby CPD**. Evidence-based discussions on a wealth of anatomy, physiology, pathology and pharmacology topics. A new issue is published every month.
- **Case scenarios on pre-hospital practice**, covering a range of topics including overdose, pediatrics, pain management, head injury and sepsis.
- **Quizzes**, arranged in multiple ways to facilitate specialised learning.
- **Self-assessment questions**, to support reflective practice.
- **CPD certificates**, so you can evidence your learning.
- The contributors provide a **breadth of experience and perspectives**, working on the road, in primary care and healthcare education.
- **Works offline** so no signal is no problem.
- Also **available as a web version** so you can learn at home or on the go.
- **Access all available content** during your subscription period. New content will continue to be released and made available to anyone who has a current subscription.

Emergency Birth in the Community

Amanda Mansfield, Association of Ambulance Chief Executives (AACE), Joint Royal Colleges Ambulance Liaison Committee (JRCALC)

ISBN: 9781859596814

Emergency Birth in the Community is the essential resource for ambulance clinicians, midwives, GPs and all healthcare professionals who come into contact with emergency birth. The book has been specifically adapted from the official JRCALC Guidelines, the established standard for pre-hospital care. For this unique publication, many topics have been expanded upon, including Maternal Resuscitation, Umbilical Cord Prolapse, Shoulder Dystocia and Post-partum Haemorrhage.

ParaPass Study Cards

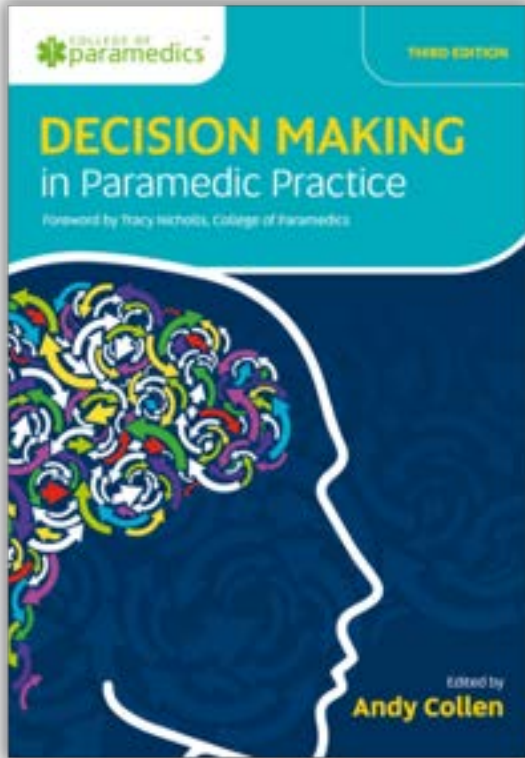

Joint Royal Colleges Ambulance Liaison Committee (JRCALC)

ISBN: 9781859598634

Test yourself on the official Joint Royal Colleges Ambulance Liaison Committee (JRCALC) Guidelines with these cards for prehospital clinicians. Questions cover the most up-to-date guidance including topics in maternity emergencies, glycaemic emergencies, major incidents, tracheostomy, laryngectomy, and medicines.

COMING SOON

Decision Making in Paramedic Practice

Andy Collen

ISBN: 9781801610148

This updated third edition contains all the essential information to help you apply decision making to your clinical role as a healthcare professional. Chapters have been brought in line with the latest guidance, emphasising the importance and complexities of critical thinking and decision making relevant to all practice settings. The new edition also includes aspects of professionalism, understanding why things go wrong, and clinical leadership, as well as an additional chapter on inclusive decision making.

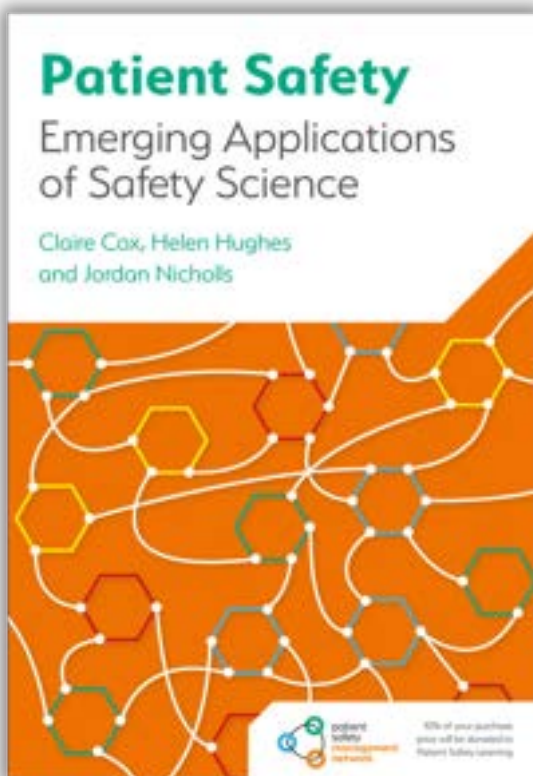

KEY FEATURES INCLUDE:

- A comprehensive overview of decision-making theory and how it applies to the paramedic role
- Updated case studies chapter
- Practice tips and checklists
- Evidence-based and up-to-date with latest guidance
- Ethical and professional considerations within paramedic practice

“*It feels that now more than ever before, Andy Collen's guide to making complex critical decisions in an ever-changing landscape is necessary for the emergence of the next chapter in our professions' journey.*”

**Tracy Nicholls, Chief Executive Officer,
College of Paramedics**

COMING SOON

Patient Safety: Emerging Applications of Safety Science

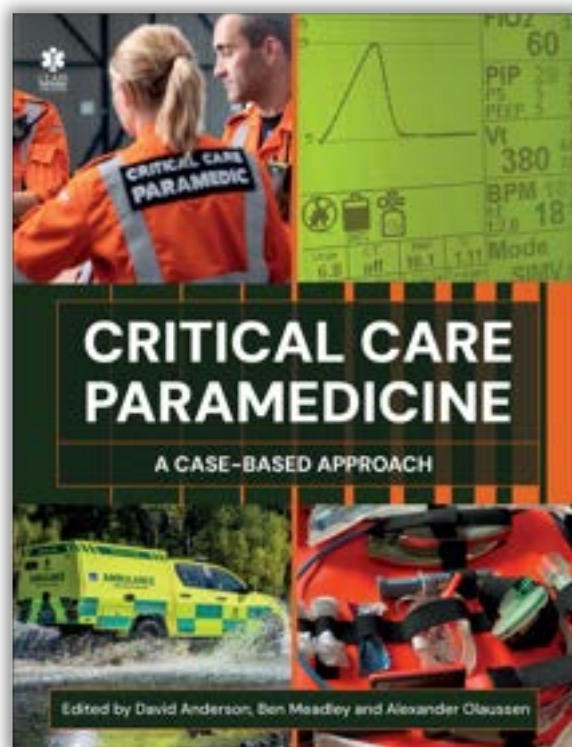

Claire Cox, Helen Hughes & Jordan Nicholls
ISBN: 9781801610834

This book aims to explore this emerging safety sciences by leading experts and the practical application of them in differing clinical and organisational contexts. Written by people who work in patient safety, and with chapters on subjects such as System Engineering Initiative for Patient Safety (SEIPS), AcciMaps and Human Factors, this book is for everyone with an interest in how the landscape of patient safety is changing and how to apply good practice for the reduction of avoidable harm.

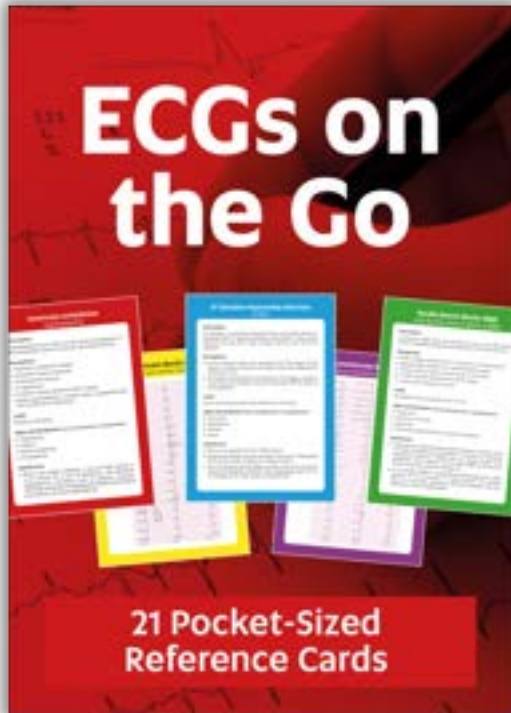

Critical Care Paramedicine: A Case-Based Approach

David Anderson, Ben Meadley & Alexander Olausen
ISBN: 9781801610377

Putting you in the centre of the action as a critical care paramedic, this book brings together a range of in-depth case studies on critical care. It first presents you with a scenario, and then delves deep into case details in order to challenge and assess your wider understanding of the situation. The book will allow you to further your knowledge of critical care, whether studying for exams, working within an aeromedical environment or providing life-saving care on the ground.

RECENTLY PUBLISHED

ECGs on the Go

Steve Poulton

ISBN: 9781801610698

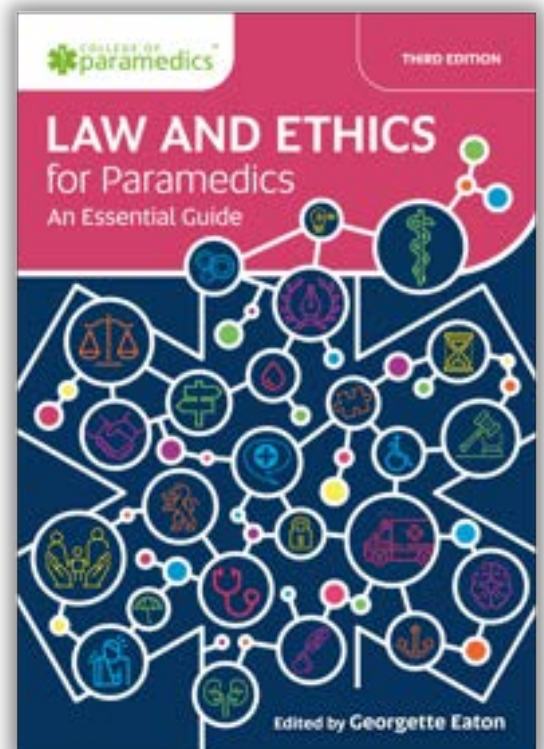

These pocket-sized, easy-to-read reference cards will enable you to feel more confident in your recognition and interpretation of the common 12-lead ECG rhythms frequently seen in the prehospital setting, along with their associated signs and symptoms. Colour-coded for accessibility, in line with current guidelines and fully evidence-based this resource is perfect as a quick reference learning tool or for refreshing your knowledge whilst on the move!

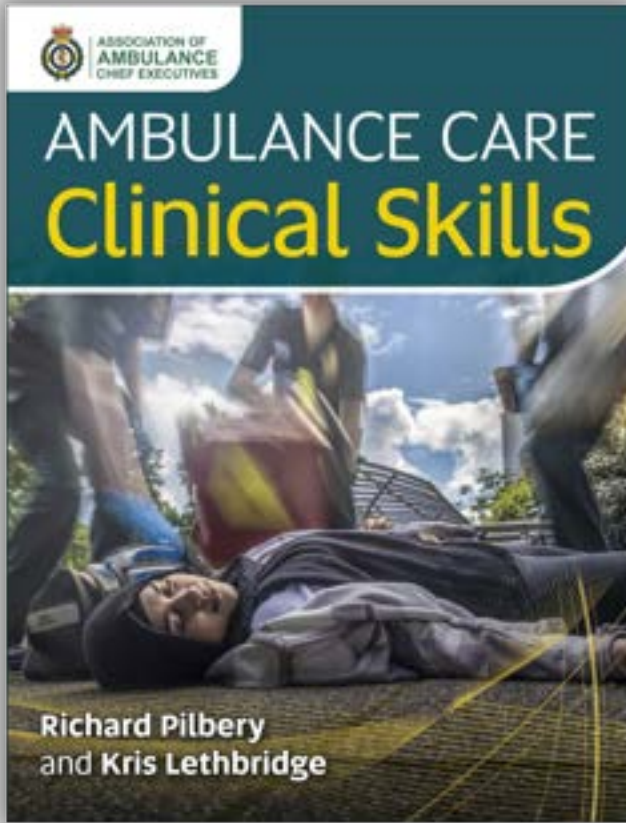

Law and Ethics for Paramedics

Georgette Eaton

ISBN: 9781801610131

This third edition, updated with the latest case law, legislative changes, and revised ethical considerations, offers an extensive primer for paramedic practice. It provides valuable insights for sound judgment and upholding professional integrity. A collaborative effort, with contributions from fourteen experienced paramedic authors, each chapter skilfully amalgamates the crucial principles of ethical thinking and UK law.

Ambulance Care Clinical Skills

Richard Pilbery and Kris Lethbridge

ISBN: 9781801610346

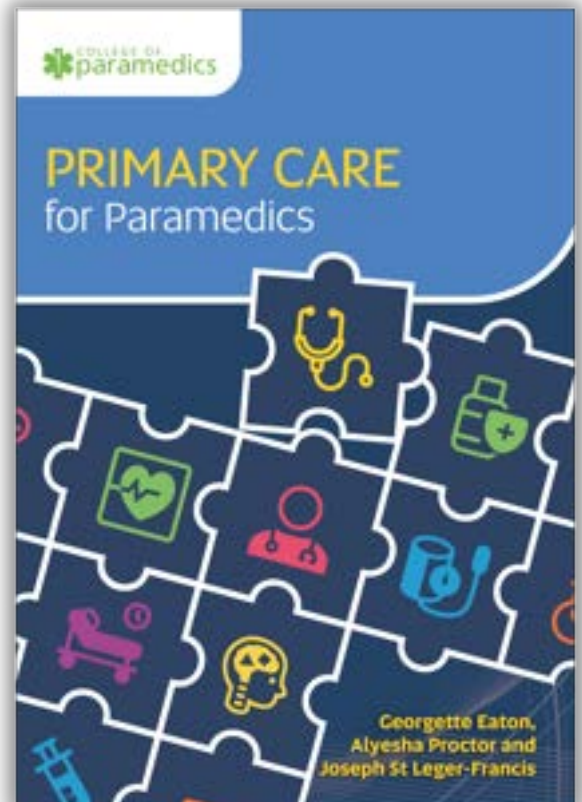

Packed with over 75 clinical procedures, this book is the go-to guide to familiarise yourself with the correct sequence and techniques for a range of different skills and accompanied by detailed step-by-step guidance and full-colour illustrations. Not only does the book explore prehospital skills in detail, it also provides the rationale and evidence behind them, so you can fully understand the underlying principles and feel more confident in your practice.

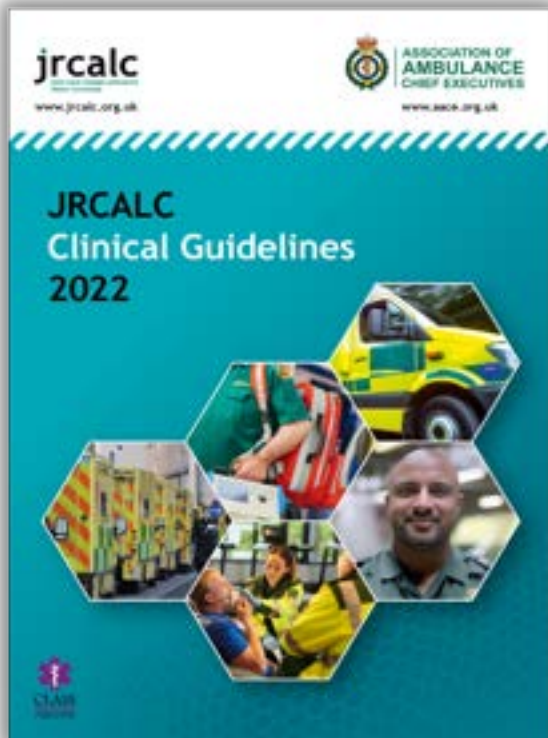

Primary Care for Paramedics

Georgette Eaton, Alyesha Proctor and Joseph St Leger-Francis

ISBN: 9781801610322

Primary Care for Paramedics is a core text exploring the fundamentals of the scope of the paramedic role within the world of primary care. Written and edited by over twenty clinicians in the field of primary care, this text is both a clinical reference for paramedics already practising within this area, whilst also providing prospective paramedics with the required theoretical underpinning and context necessary to build meaningful knowledge and understanding in this field.

JRCALC Clinical Guidelines 2022

Joint Royal Colleges Ambulance Liaison Committee (JRCALC)
ISBN: 9781801610230

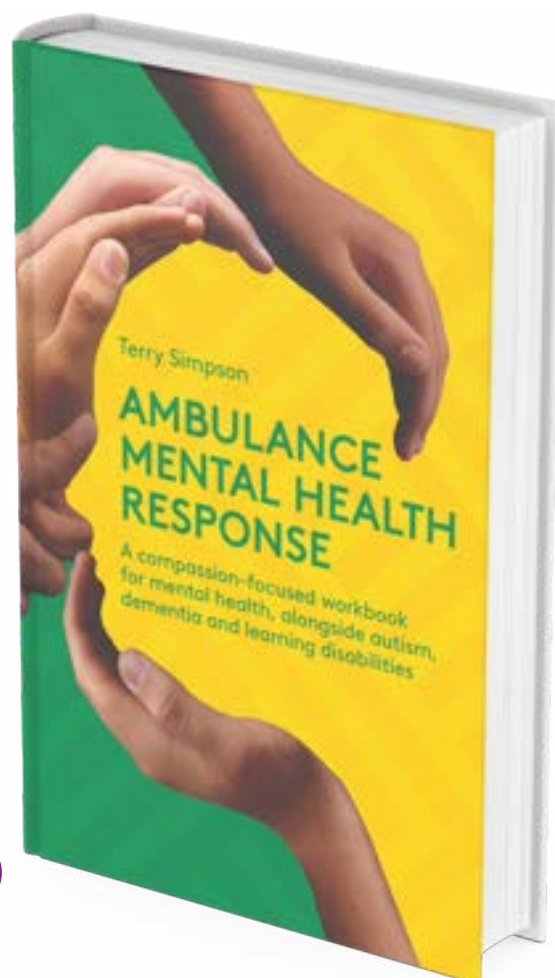

Combining expert advice with practical guidance, the Joint Royal Colleges Ambulance Liaison Committee Clinical Guidelines are the essential resource for paramedics. This 2022 edition has been updated with the latest evidence and developments in clinical practice. Key reviews have taken place on guidelines within the Resuscitation and Special Situations sections, as well as updates to Maternity guidelines such as Care of the Newborn and Newborn Life Support.

Ambulance Mental Health Response

Terry Simpson

ISBN: 9781859599662

This resource provides the foundation of knowledge you need to navigate often-fraught situations with sensitivity and confidence. With cases of mental health illness on the rise, it is increasingly crucial that ambulance clinicians and paramedics feel empowered in their ability to assess and manage a variety of conditions.

The structure of the book with short sections and tasks designed to consolidate learning enables the reader to progress with ease and at their own pace. A very useful learning tool on this subject.

Liz Harris, Head of Professional Standards,
College of Paramedics

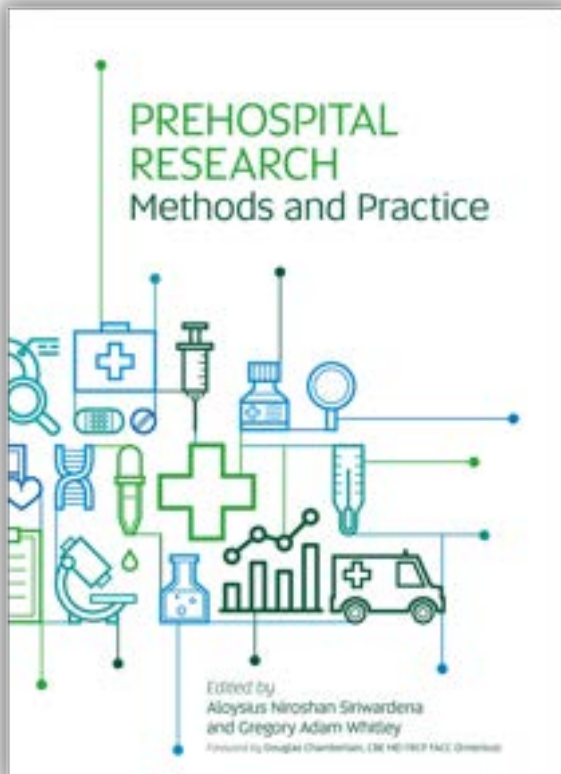

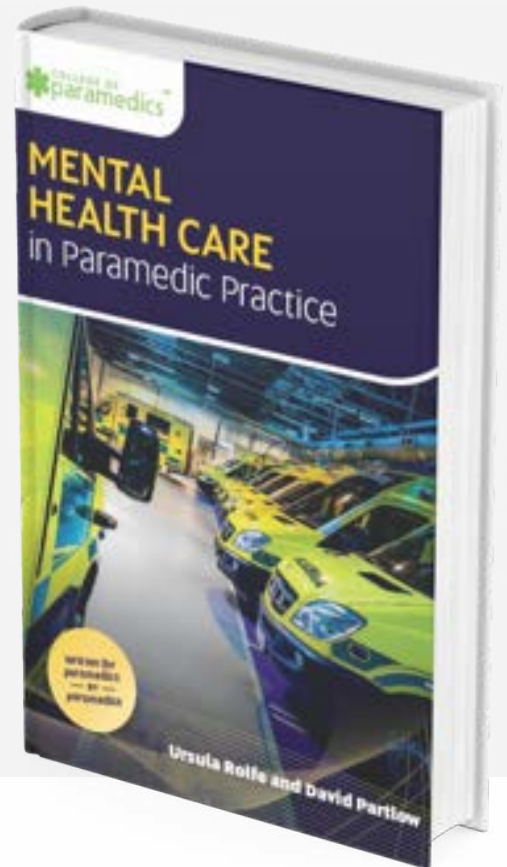

Mental Health Care in Paramedic Practice

Ursula Rolfe and David Partlow

ISBN: 9781859599242

Not only does this book provide key information on recognising and managing a range of conditions, it also includes case studies written by paramedics with first-hand experience of managing mental health calls.

This book is essential for anyone wanting to better understand how to care for patients with mental health concerns within the prehospital setting, including both experienced and aspiring paramedics.

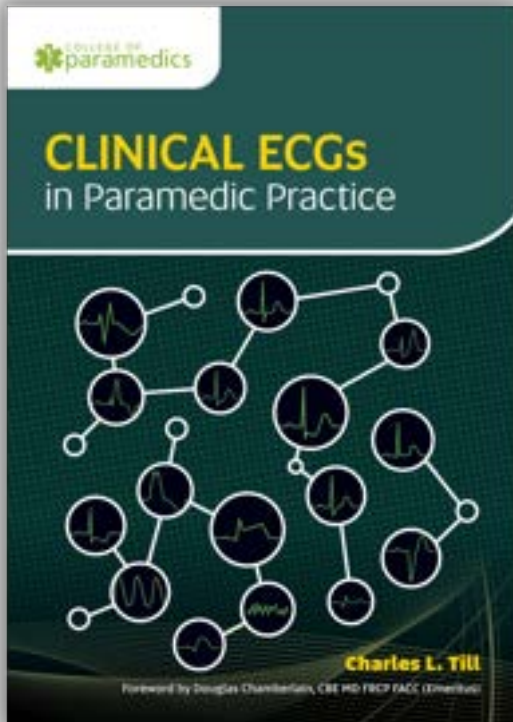

Prehospital Research Methods and Practice

Aloysius Niroshan Siriwardena & Gregory Whitley

ISBN: 9781859599808

Written to support the needs of the paramedicine, emergency medicine and wider healthcare communities in this rapidly advancing research setting, the authors introduce the key areas of research design and methods, evidence-based practice, ethics and quality improvement for both the novice and the more advanced researcher. Relevant examples of prehospital research are also included to fully explain and illustrate the key approaches.

Clinical ECGs in Paramedic Practice

Charles Till

With foreword by Douglas Chamberlain, CBE MD FRCP FACC (Emeritus)

ISBN: 9781859598696

Written specifically for paramedics and prehospital professionals, this bestselling title is a full-colour, concise and easy-to-use guide to cardiac electrophysiology and ECG interpretation. Topics range from fundamental ECG interpretation and the basics of cardiac anatomy, to arrhythmia recognition and 12-lead ECG interpretation, all presented in independently accessible sections.

'This excellent book will be of interest and indeed of much value to anyone wanting to understand ECG interpretation. It is one that I can definitely recommend.'

Douglas Chamberlain, CBE MD FRCP FACC (Emeritus)

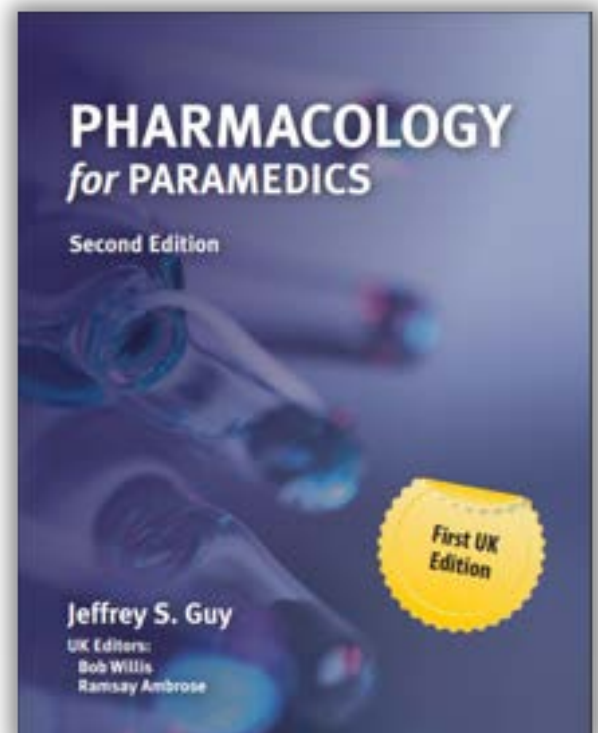

Pharmacology for Paramedics

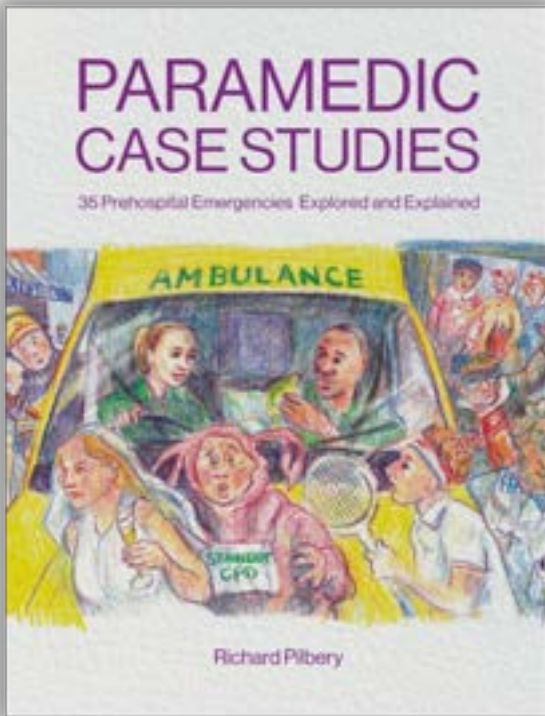

Jeffrey S. Guy

ISBN: 9781284219531

Meeting current UK guidelines and paramedic scope of practice, Pharmacology for Paramedics offers a complete and practical understanding of pharmacology in the prehospital setting.

This first UK edition provides a unique problem-based approach to ensure that you are prepared to effectively administer the drugs your patients need. Clinical scenarios present case information just as you will learn it in the classroom and encounter it in practice.

Paramedic Case Studies

Richard Pilbery

ISBN: 9781859599532

A fun and informative approach to learning, this book brings together a range of case studies from within prehospital care covering various conditions and situations, which you may face working in an ambulance setting. Paramedic Case Studies will guide you through a number of detailed and descriptive scenarios, putting you at the centre of the action, each accompanied by full-colour illustrations to help set the scene and aid your understanding.

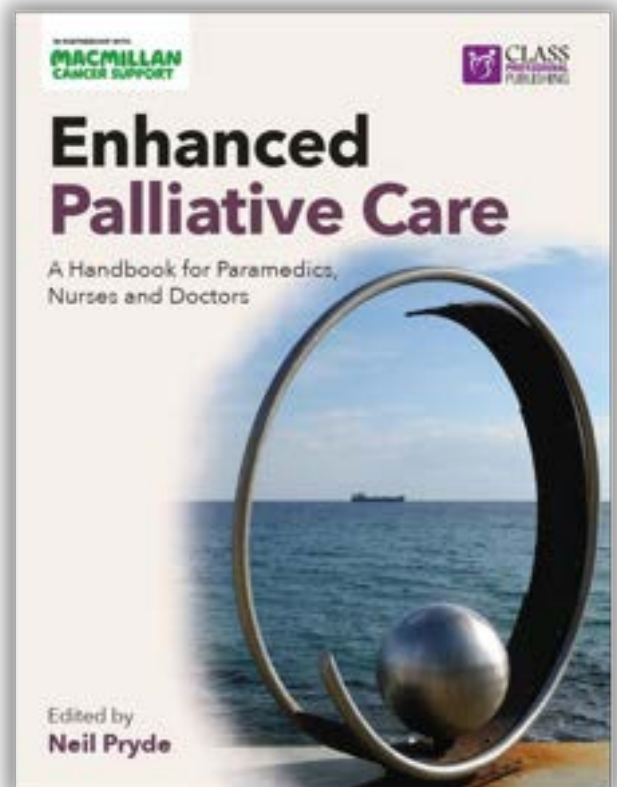

Enhanced Palliative Care

Neil Pryde

ISBN: 9781859598757

Backed by Macmillan Cancer Support, Enhanced Palliative Care provides you with a comprehensive overview of the principle areas you may encounter whilst working with adult palliative and end-of-life patients, and their families.

Each chapter has been written by a range of specialist and generalist authors. The topics covered include approaches to palliative care and symptom management in a wide range of conditions and populations, with chapters linked to case studies to encourage interactive learning and understanding.

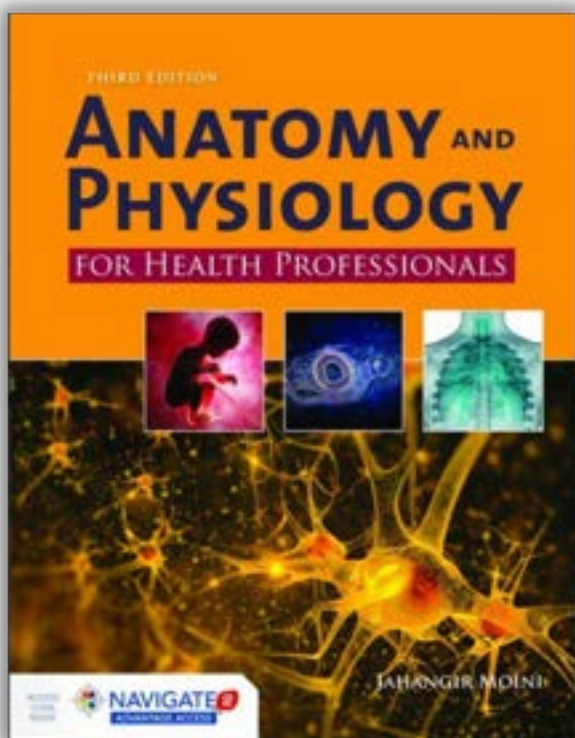

CLASS PROFESSIONAL PUBLISHING

A JONES & BARTLETT LEARNING BRAND

Class Professional Publishing represents the Public Safety Group, a division of Jones & Bartlett Learning, an Ascend Learning Company, in the UK and throughout Europe. Anatomy and Physiology for Health Professionals

Jahangir Moini

ISBN: 9781284151978

Written with health professions students in mind, Anatomy and Physiology for Health Professionals offers an engaging, approachable, and comprehensive overview of human anatomy and physiology.

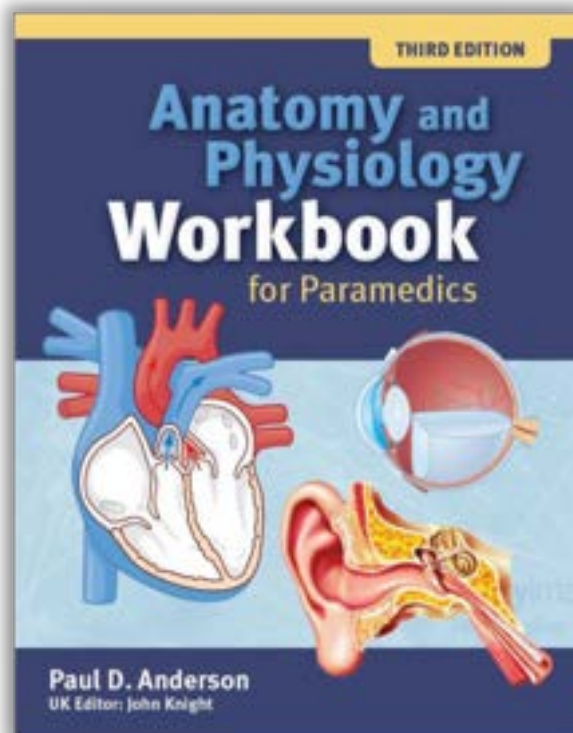

It features a total of six 'Units' which build upon an understanding of basic knowledge, takes readers through intermediate subjects and delves deeper into complex topics to stimulate critical thinking.

Anatomy and Physiology Workbook

Paul D. Anderson

ISBN: 9781284183009

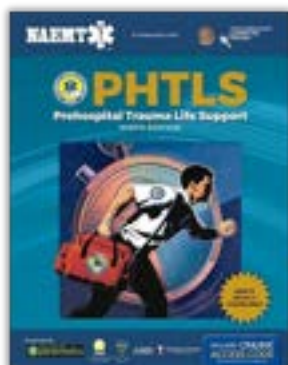

The Anatomy and Physiology Workbook for Paramedics offers an interactive and engaging approach to learning. With colouring and labelling activities throughout, this resource allows readers to master smaller sections of information which will help inform their practice and provide the best quality of care for their patients. Using a systems-based structure and concise chapters, the workbook complements leading texts in the field.

CLASS PROFESSIONAL PUBLISHING

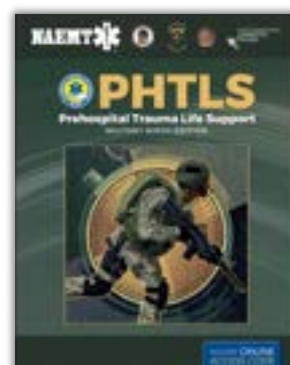

NAEMT is the largest professional association for EMS practitioners in the United States. The mission of NAEMT education is to improve patient care through high quality, cost effective, evidence-based education that strengthens and enhances the knowledge and skills of EMS practitioners.

PRIMARY CARE ESSENTIALS

Sexual Health and Contraception

Alyesha Proctor and Hettie Lean
ISBN: 9781801610421

This quick-reference guide is packed with all the essential information you will need to know as a working healthcare professional. This practical resource will equip you with the skills and confidence to sensitively address patient queries.

“A truly valuable text on the key aspects of sexual health. By addressing the practitioner’s values and attitudes and offering practical examples, this resource promotes effective consultations with particular reference to diverse groups.”

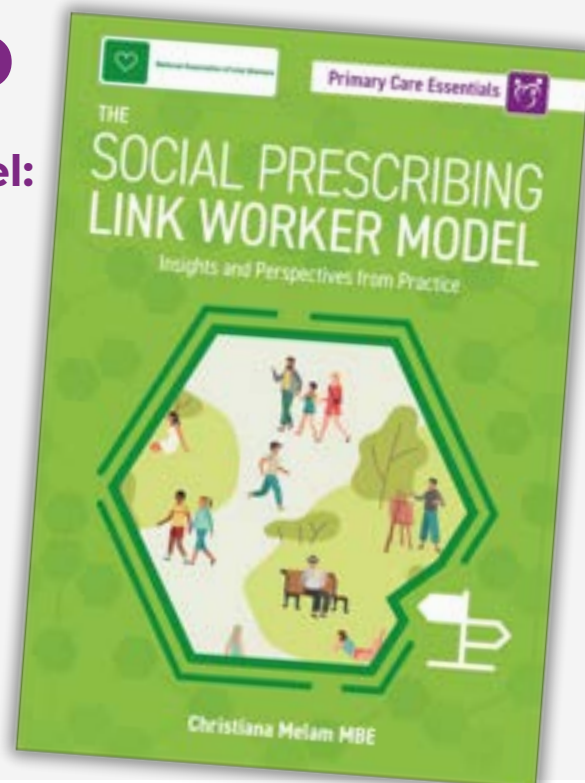

Jane Cromarty, Lecturer in Sexual Health Nursing,
University of the West of England

RECENTLY PUBLISHED

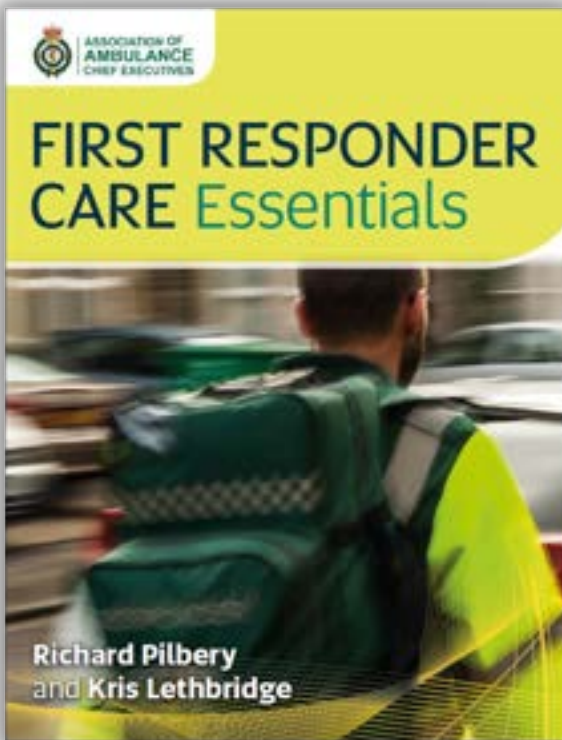

The Social Prescribing Link Worker Model: Insights and Perspectives from Practice

Christiana Melam MBE
ISBN: 9781801610001

This is the first book written specifically for Social Prescribing Link Workers throughout the UK, and is filled with insights and perspectives on social prescribing. Whether you are new to social prescribing or seeking a deeper understanding of the link worker role, this book is your go-to guide for comprehending the various complexities and identities of the profession.

FIRST RESPONDER ESSENTIALS

First Responder Care Essentials

Richard Pilbery and Kris Lethbridge

ISBN: 9781859596081

The ideal resource for Community First Responders. Grounded in practice and covering the full remit of the CFR role, this book takes you through the skills that you need when working with patients. Topics range from communication skills to manual handling, trauma care and cardiac arrest.

“An invaluable book that is informative and will assist you in the delivery of best practice in attending medical emergencies.”

Nic Morecroft, Lead Community Responder Manager,
South Central Ambulance Service

Responder Plus

The app for community first responders

Developed in collaboration with CFR teams across the UK, Responder Plus provides reference and reassurance for responders in life-saving roles. The app offers clinical skills photographs and anatomical diagrams to aid your understanding on the move.

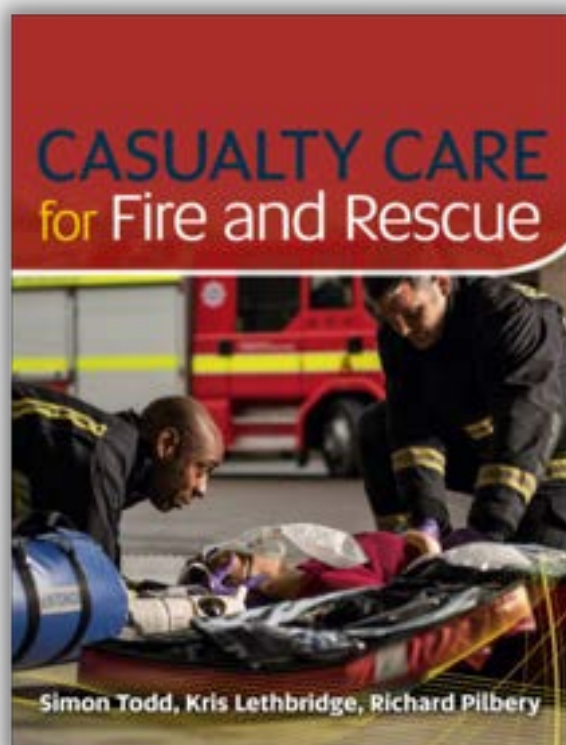

FIRE AND RESCUE

Casualty Care for Fire and Rescue

Simon Todd, Kris Lethbridge
and Richard Pilbery
ISBN: 9781859596579

Casualty Care for Fire and Rescue combines a skills-based practical approach with clinical knowledge and covers a range of urgent care that firefighters deliver and respond to, including trauma injuries, burns, and cardiac arrest. The book is up to date with the latest policy and research, and addresses legal issues and clinical governance. A multi-disciplinary approach is taken throughout, and is explored in detail in a chapter on working with healthcare professionals. Chapters are also illustrated with photographs and diagrams to support understanding.

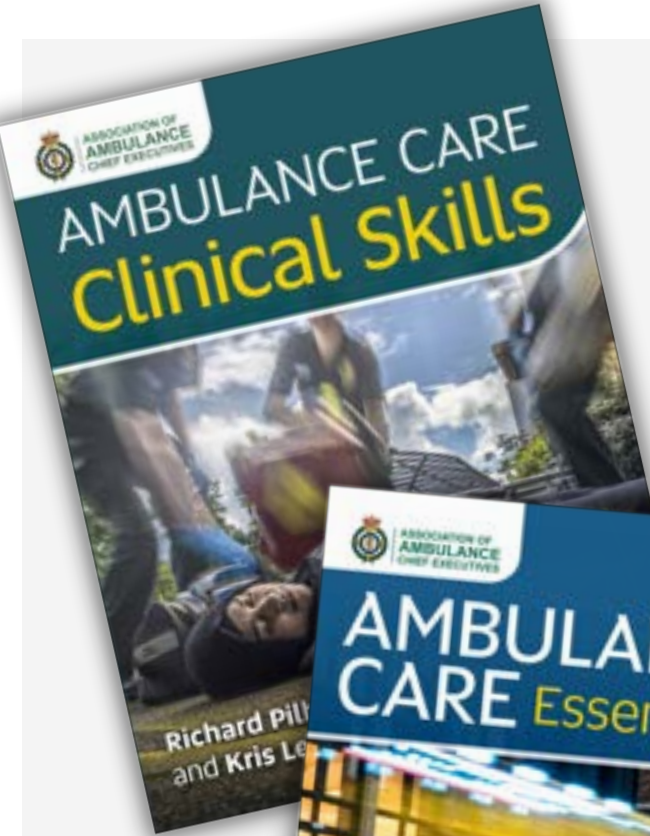

Fire Behavior and Combustion Processes

Raymond Shackelford
ISBN: 9781284206562

Fire Behavior and Combustion Processes, Second Edition provides a straightforward, comprehensive resource for students in fire science degree programs, an up-to-date refresher for active firefighters, and an engaging experience for all learners. Through case studies, improved accessibility, and relatable new content, learners will develop an understanding of the basic principles of fire chemistry, the processes of fire combustion, and fire behavior.

BEST SELLERS

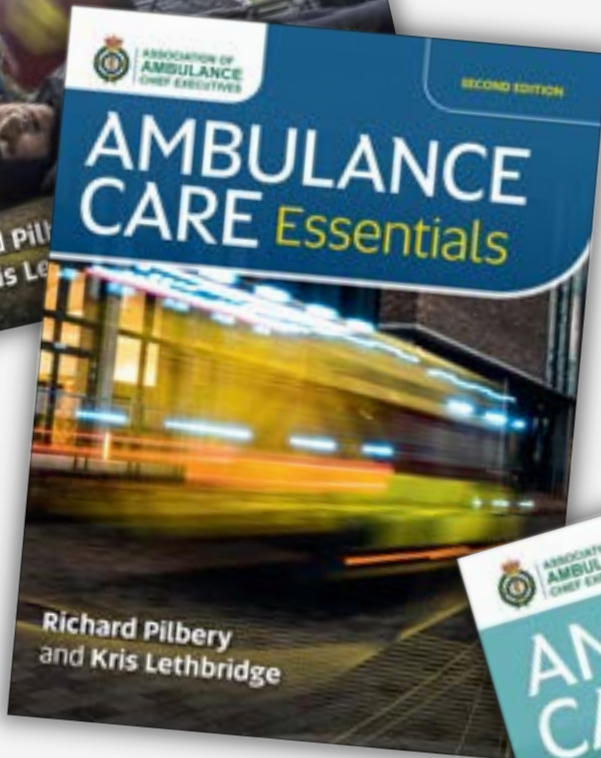

Ambulance Care Clinical Skills

Richard Pilbery and Kris Lethbridge

ISBN: 9781801610346

This resource is the go-to guide to familiarise yourself with the correct sequence and techniques for a range of different skills. Packed with over 75 clinical procedures, this title makes each procedure easy to understand, with detailed step-by-step guidance and full-colour illustrations.

Ambulance Care Essentials

Richard Pilbery and Kris Lethbridge

ISBN: 9781859598528

Richard Pilbery and Kris Lethbridge

ISBN: 9781859598542

Brought up-to-date with the latest guidance, research and policy, this second edition of Ambulance Care Practice is an essential guide for paramedic students, trainee associate ambulance practitioners, those studying towards a certificate in first response emergency care and other ambulance clinicians.

POPULAR PRODUCTS

Human Factors in Paramedic Practice

Gary Rutherford

ISBN: 9781801610124

Written as an introduction to the discipline of human factors, the authors highlight key principles and theories and relate these to aspects of paramedic practice. Containing practical prehospital examples, this resource provides a firm understanding of systems thinking and design, enabling you to look for instances where the principles of human factors might be applied in your own practice. Whether you are a pre-hospital care professional who is involved in education, learning from events, procurement, or influencing safety culture, you will benefit from the tools and techniques provided throughout.

Standby CPD

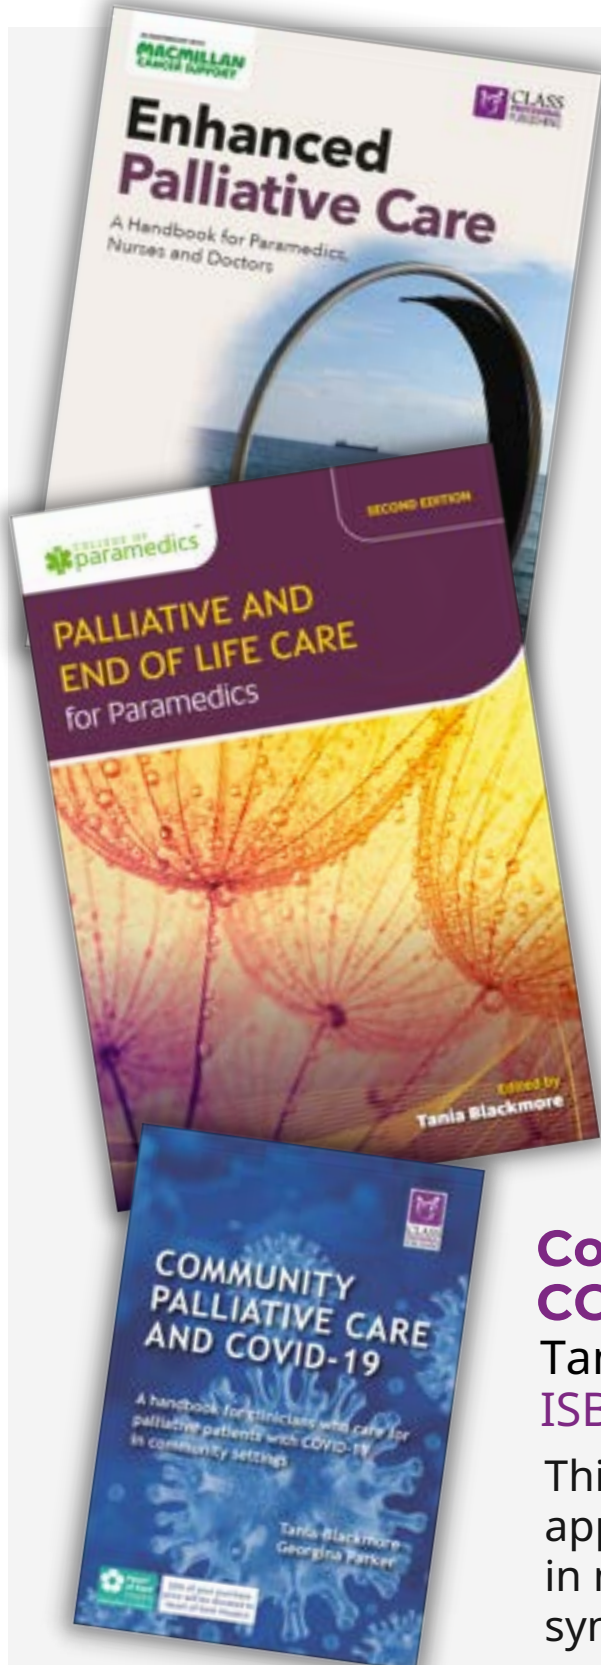

A subscription to Standby CPD means that each month you will receive a printed article exploring a relevant clinical subject. Your subscription will also give you access to the ParaPass app where you can view the article digitally and complete the assessment quiz. Once completed you will receive a digital certificate which will be stored on the ParaPass app to better prepare you for yearly PDRs and HCPC audits.

“Thank you for the years of dedication in order to educate our profession.”

Standby CPD Subscriber
