

## NEC COMMUNITY INSIGHTS FOR POLICING

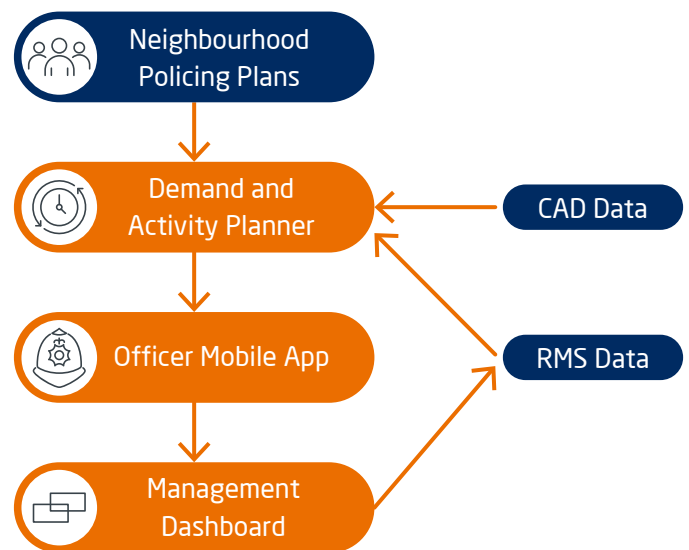

# SUPPORTING LOCAL COMMUNITIES WITH TARGETED HOTSPOT POLICING

### A innovative platform for demand and community response

As a solution to Hotspot and proactive policing initiatives Community Insights provides a truly flexible platform for planning demand and capturing response to a range of policing operations, for example:

- Anti-Social Behaviour
- Domestic Violence
- Wanted Offender apprehension
- Victim reassurance visits
- Violence in the Public Place (Hotspot Response)

From planning Neighbourhood Actions to tasking officers and recording activity and responses Community Insights provides the answer to the ever-evolving demands on policing and working to make communities safer.

### KEY BENEFITS

- Supports proactive policing of local communities
- Empowers officers with situational and spatial awareness at their fingertips
- Measurable and reportable data on policing activity
- Working with the community to define response to local issues
- Rebuilding trust in policing
- Safeguarding the vulnerable

# NEC COMMUNITY INSIGHTS FOR POLICING MORE THAN JUST TRACKING PATROLS

Based on agreed policing plans - focussing on high profile community issues - demand and activities are set up in the Demand Planner and can be based on specific locations, areas, times of day and specific persons of interest.

These results are captured, collated, analysed and reported in a clear dashboard providing a fantastic tool for tracking the effectiveness of the agreed plans.

To support the demand, when tasked, officers can access information about anything that needs to be done nearby. They are able to respond to these requests as part of their patrolling duties, record the results and, importantly, provide live updates that can be integrated with other systems.
