# SECURE EVIDENTIAL AUDIO/VISUAL DIGITAL INTERVIEW RECORDING

The **Evidence***Works*® IRS solution is the UK's market-leading solution for capturing evidentially-sound recordings of interviews with suspects, victims and witnesses. It's widely used by police forces across the UK and by other UK and international agencies, where an interview's evidential integrity is of paramount importance.

## Benefits-driven and compliant

✓ Largest network-capable evidential interview unit supplier in the UK

✓ Available in multiple form factors fit for use in many different environments

✓ Fully embedded integration with Records Management Systems

✓ Live monitoring of networked units

✓ Fully compliant with PACE guidelines

✓ Wholly digital recordings capable of integration with the **Evidence***Works*® DEM or third-party digital evidence management solutions

# FEATURE-RICH AND FLEXIBLE

The **Evidence***Works*® market-leading solution provides:

- State-of-the-art digital interview recording software and purpose-designed enclosures for standard Windows tablet devices
- Software-only solutions for PCs and laptops
- Evidentially-sound digitally-signed recordings
- Simple and intuitive touchscreen operation providing one-touch recording
- Support for up to two microphones recorded as stereo audio separately and within video files
- Support for four cameras on two video streams, including pan-tilt-zoom controls
- Full Picture-in-Picture capability allowing up to four cameras to be recorded within two video streams.

- Configurable business information (metadata) captured alongside interview media
- **Live monitoring from any location on the service's network when connected**
- **Adjacent room monitoring support**
- **Resilient to power failure**
- **Network-attached devices, integration with operational IT systems for business information, and interview media exchange and remote support**
- **Solutions for interview transcription and downstream interview management**
- **Optional:**
  - Bookmarking via attached keyboard
  - DVD burning with desktop PC configuration

## **Evidence***Works*® FEATURE MATRIX
