GB Dynamic Tactical Wear from Rig Equipment Ltd

Rig Equipment Ltd are a leading manufacturer & solutions provider for specialist emergency services & defence professionals

The GB Dynamic range of garments was design in collaboration with UK Police Tactical teams and UK SF units as a response to an urgent operational requirement and are currently operational.

Made from a variety of specialist fabrics to protect the wearer from specific hazards such as flash or flame, stun gun attack, chemical attack or waterproof. Or a combination of all, specifically to the customer requirement.

Badges or logos can be embroidered directly on to the garments if required.

Please contact us for further information or for a no obligation visit by our representative.

Made in UK

GB DYNAMIC TACTICAL WEAR

Style – GBD-01

The GB Dynamic range of garments was design in collaboration with UK Police Tactical teams and UK SF units as a response to an urgent operational requirement and are currently operational.

The range is aimed for military and police counter –terror operational requirements with many specialist features including removable respirator compatible hood, hard shell knee and elbow pads, adjustable knee height and a very comfortable padded and expandable waist band.

These garments are made in the UK to bespoke designs for individual tactical teams from materials certified to EN 11612 standards for protection from specific hazards such as flash or flame, stun gun attack, chemical attack or waterproof.

The GB Dynamic range can be made in the fabric and colour scheme of choice to suit each client in small or large quantities. There is even a fabric variant which defends the wearer from Taser or similar weapon attacks by neutralizing the charge.

Call us today for a no obligation discussion about your requirements
