Wildland Fire Boot from Rig Equipment Limited

Rig Equipment Ltd are a leading manufacturer & solutions provider for specialist emergency services & defence professionals

The **Rig Wildland Fire boot** has been designed to cope with the gruelling tasks faced by our wildland fire fighters in their day to day operational deployments.

All leather uppers with fire retardant lacing system and lace. It has good foot guidance and proper hold thanks to the heel and ankle shaft construction.

The anatomically shaped scuff cap and kick-off panel extends the life of the footwear by providing additional protection to the toe cap and heel leather.

Integrated internal metatarsal protection prevent debris collecting on the boot upper, improves liquid drainage and prevents ingress of liquids and debris.

Please contact us for further information or for a no obligation visit by our representative.
