Introducing Kopek Security and Facilities Ltd.'s Drug Detection and Drug & Alcohol testing services! Our expertly trained teams are here to ensure safety in your workplace and beyond.

Discover the Future of Drug Detection and Screening!

With substance abuse becoming a growing concern, it's crucial to prioritise the well-being of your employees and maintain a drug-free environment. We have invested in state-of-the-art testing methods to accurately DETER, DETECT and DEFEND against drug and alcohol misuse.

Why choose us?

Customisable Packages: Kopek offer flexible canine detection and/or testing packages tailored to your specific needs, ensuring you get the most effective solution for your organisation. Kopek are the ONE STOP SHOP!

Professionalism: Our teams are highly trained in detection and administering drug and alcohol tests, guaranteeing reliable and accurate results every time. Our teams are compliant, screened and vetted to BS7858 and BS8517 standards.

Confidentiality: Kopek understand the sensitivity of such tests. Rest assured, all results and personal information are kept strictly confidential and in line with GDPR regulations.

Why choose fingerprint drug testing?

Say goodbye to lengthy waiting times and say hello to the revolutionary Intelligent Fingerprinting drug screening system!

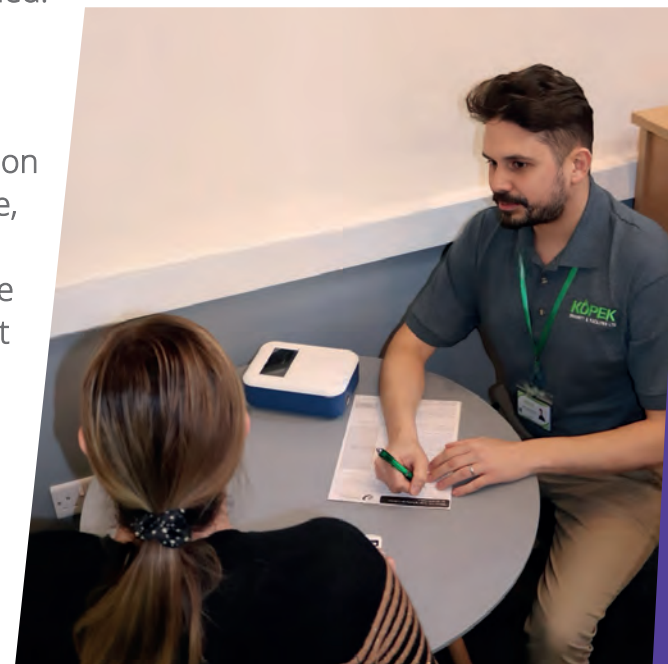

Quick Turnaround: Time is of the essence, and we value your time. Our streamlined processes ensure fast and efficient testing, minimising disruption to your operations.

Quick and Easy: Sample collection takes less than a minute! Plus, you'll get on-the-spot results in just 10 minutes using this cutting-edge technology. No more waiting around for days!

This test detects opiates, methamphetamine, cocaine and cannabis. Following a non-negative result. Tests are then sent to the Laboratory of Government Chemists (LGC) for verification.

Non-invasive & Dignified:
The system respects your privacy! By analysing fingerprint sweat, sample collection is simple, non-invasive, and maintains your dignity throughout the process. Your comfort matters to us!

Rapid Results: Why wait hours or even days for your drug test results?

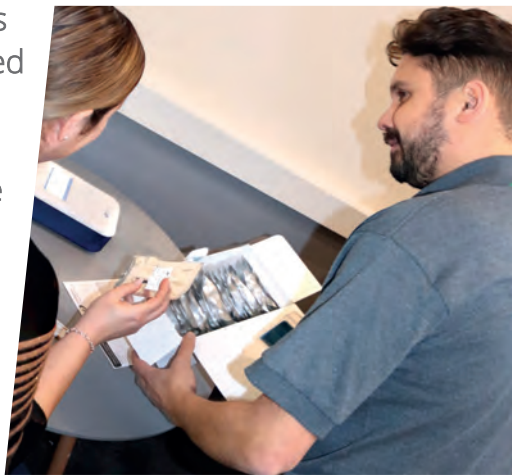

The fingerprint-based analysis for multiple drugs is completed in just minutes! Get the answers you need in a flash, and move forward with peace of mind.

Portable Convenience: The compact and portable system allows for drug screening anytime, anywhere! Whether it's at the workplace, schools, or even remote locations, we've got you covered. Stay proactive and keep your environment drug-free!

Hygienic & User-Friendly: No messy samples or complicated procedures! The fingerprint-based drug test is hassle-free and hygienic, utilising a non-invasive, non-biohazardous technique. Administering the test has never been easier!

Cost-effective Solution: Save your time, money, and resources with the multi-panel test. No more gender-specific collectors, specialist handling, or clinical waste disposal required! Drug screening that is efficient and budget-friendly.

Why use detection dogs?

Kopek Security and Facilities Ltd drug detection dogs play a crucial role in identifying illegal substances, providing a valuable service to our clients. Their exceptional sense of smell allows them to detect even the tiniest trace of drugs, ensuring a safer environment for all.

These incredible canines undergo rigorous training to become experts in drug detection. They are trained to detect various substances, including opiates, methamphetamine, cocaine and cannabis, among others. Their amazing abilities help prevent the distribution and use of illegal drugs.

Why choose the Intoximeter for your alcohol testing?

Take a deep breath and get ready for our latest safety update! At Kopek Security and Facilities Ltd, we take safety seriously, which is why we use the Intoximeter Alco-Sensor FST Breathalyser, one of the most popular alcohol breath testers in the world.

With this advanced tool, we ensure 100% accuracy and reliable results. The Intoximeter detects alcohol within 13 hours of consumption, providing peace of mind to both our clients and their teams.
