HELPING MAKE WORK MORE PRODUCTIVE, SAFER & EASIER WITH COMMUNICATION & SECURITY TECHNOLOGY SOLUTIONS...

At 2CL, we are fully committed to providing the best products and services to our clients. From product supply and system design to deployment and support, we can provide a comprehensive and tailored solution to suit your needs.

OUR SERVICES

System Design and Installation

At 2CL we always strive to design, deliver, and install a system tailored to meet your exact communication and security specifications. Expert installation is key to ensuring the longevity of any system.

Consultancy

Our team are experts at joining the dots between the available technology and your system requirements. Our extensive experience covers every aspect of radio and communications giving you total peace of mind.

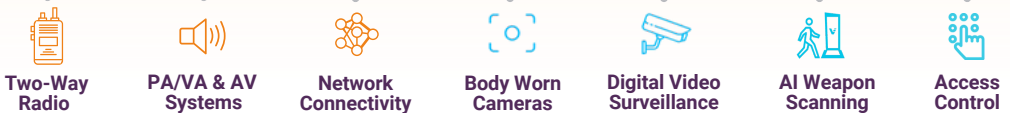

Maintenance and Service

Our bespoke maintenance packages can include 24/7 365 engineering support, annual preventative maintenance inspections, remote system monitoring and user training. Ad-hoc services are available if preferred.

Ofcom License Management

We are able to provide assistance in the application completion or even manage your Ofcom Business Radio License for you so you can rest assured your spectrum use is legal and expertly managed for you.
