BUILT TO SURVIVE

Inherently tough, the flashlights' metal spine is sealed in a soft, yet strong silicone body, preventing any water, gas or dust ingress.

Intrinsically safe by design, the patented flashlight prevents internal gas build up, removing the need for venting.

This wireless powered wearable light is suitable for use in the most hazardous environments. (ATEX Rated- Zone 0)

GLOWSTONE FLASHLIGHT

The BBC-award winning Glowstone Flashlight is an incredibly bright rubber block of light that attaches to anything and lights up everything. This ultra-compact, ultra-powerful torch emits a photography standard blanket of pure white light, with an excellent colour rendition (CRI 95+).

Ideal for search and rescue, the Glowstone Flashlight accurately illuminates its subjects, even deep underwater.

ESSENTIALS PACK

Your all-in-one lighting companion. Unlike traditional flashlights, Glowstone adapts effortlessly from a hand torch, to a headlamp, to a camera light and more, eliminating the need for multiple single-use lights. This pack comes with 8 accessories and wireless charger.

Product	Barcode	Retail	Pack Dimensions
White Essentials Pack	0608275483513	£129.95	200 x 155 x 90mm
Grey Essentials Pack	0608275483476	£129.95	200 x 155 x 90mm

LIGHT BRACKET

This bracket attaches your Flashlight to a range of Glowstone™ and GoPro™ accessories. It makes an excellent light for your action camera, or when used on its own.

The 2 attachment prongs will also secure to a keychain, lanyard or wrist strap, making it an essential part of your everyday carry (EDC).

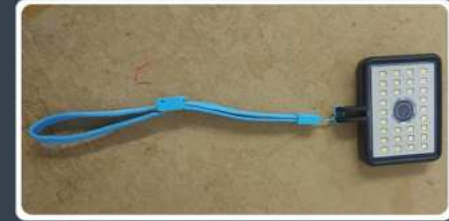

Everyday Carry

Go Pro™ accessories

Glowstone™ accessories

BELT CLIP

Attaches to:
Belts & Clothing

Camping Equipment

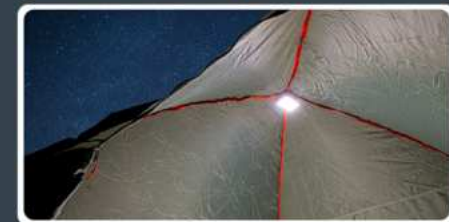

Head & Arm Strap

This clip attaches the Glowstone to your belt, clothes or body, giving you hands-free lighting.

The clip isn't just for wearing, it can also be attached to gear such as rucksacks and tents, providing lighting on the go, where ever you go.

You can take the band off your existing head lamp and attach it to the belt clip.

Please note, the shown head strap is from a standard head lamp and is different to the headstrap provided in Glowstone packs.

TRIPOD STAND HANDLE

Clamp it. Stand it. Hold it.

The handle can be used in multiple ways. Simply attach the light to its handle to use as a traditional Flashlight. Then, with the slide of its collar, transform it into a tripod, hook or stand.

The pivoting head lets you change the light angle so you can light those hard to reach places.

Hold it

Stand it

Clamp it

HEAD STRAP

This elasticated head strap has a non-stick grip on the inside of the strap to remain in place on your head or helmet. It has 2 different mounting setups – fully configured headband with top strap or headband-only.

Fully configured headband with top strap provides support and stability for high-intensity activities like rock climbing, endurance sports etc.

Main headband can be easily unlatched for mounting to tree trunks, poles or other objects.

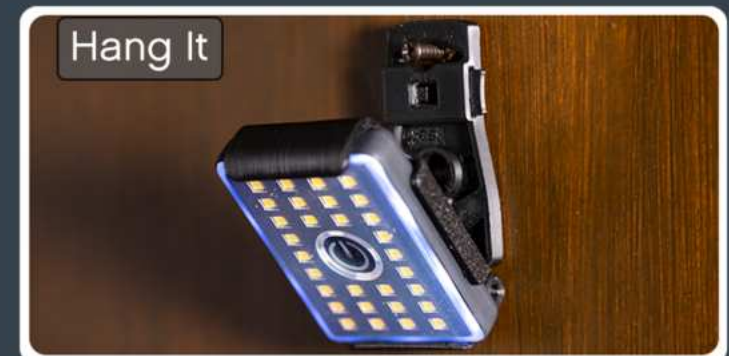

This attachment really converts the Glowstone into a multi-tool, giving you many quick ways to use your light.

The MagStand has the following features:

- Magnetically attaches to metal surfaces.
- Secures to Magsafe ring on phones. (Excellent selfie and video light).
- Clips to your clothes or MOLLE gear.
- Attaches to Carabiners, hooks and lanyards.
- Acts as a stand, with a ratchet mechanism built-in.

ONE LIGHT, 100+ USES

The Glowstone's shape and size mean the flashlight can easily be customised for almost anything, whether its DIY, Photography or even SCUBA Diving.

Attaches to:

- Action cameras
- Pipes and branches

TRIPOD STAND HANDLE

Attaches to:

- Glowstone accessories Including Tripod & Headstraps
- Keyrings
- Attaches to GoPro™ accessories.
