# TECHNOLOGIES

## sympatex®

100% waterproof and windproof membrane. The highly elastic, hard-wearing, pore-less membrane has dynamic climate control and is optimally breathable. Sympatex membranes are 100% recyclable, PTFE-free and use perfectly safe polyether/ester. Bluesign® approved and Oeko-Tec Standard 100 certified.

## OrthoLite®

comfort foam insoles

OrthoLite footbeds offer long term cushioning, moisture wicking and breathability, keeping feet dry and cool. Featuring odor control treatment by Aegis. Removeable and washable for extra care. Made of 15% recycled rubber.

Vibram high performance rubber outsoles have been developed as all terrain outsoles. The hardness of the rubber compound will endure various environments. The outsole compound and design ensures maximum grip and slip-resistance applying to global testing standards. Vibram is the world leader in high performance rubber soles, combining quality, innovation and the best components for their specific use.

SOLES  
BY

Inspired by Michelin's technical expertise in off-road tires, Michelin outsoles are designed for maximum grip. High-Traction, slip and oil resistant outsoles made with 20% recycled material.

## WORLD WIDE STANDARDS

4SYS not only reaches but exceeds many safety specifications and requirements all over the world. We are experts in all areas of product testing to reassure our position as an active leader in the market place. We promise to be a trusted partner in delivering essential equipment.
