

XPRTM

Restraints

Reliable. Clean. Easy.

XPR

at a glance

Customize your cot with exclusive, crash-rated patient restraints. Easy to use and quick to clean, we upgraded our legacy design with a polyurethane coating to increase your confidence on scene.

Cleanability

XPR restraints are equipped with a polyurethane-coated webbing designed to support cleanability.

Familiar feel

Compatible with Power-PRO XT powered ambulance cot, Power-PRO TL powered ambulance cot and Performance-PRO XT manual ambulance cot

Dynamically crash rated

Meets SAE J3027 and BS EN 1789:2020 dynamic crash standards¹

Polyurethane coating

- Reduces absorption
- Power wash safe²
- Dries quickly
- Resists stains

Coated with confidence

Safety

Enhance your patients' and medics' safety with a proven, crash-rated solution.¹

Protect the underlying webbing from damage and moisture absorption with an effective polyurethane coating.

Cleanability

Boost your cleanliness standards to create a more hygienic care environment.

Reduce effort on routine disinfecting protocols.³

Ease of use

Eliminate the learning curve using the same attachment points on Stryker's powered and manual ambulance cots.

Increase productivity and save time with easy-to-read placement indicators.
