ID Wallets

Notebook Wallets

Gas Detector Holders

Resuscitation Packs & Pouches

Torch Holders

Key Pouches/ Chains

Taser Holders

Handcuff Holders

CS/OC Spray Holders

We specialise in the design and manufacture of carrying solutions for portable and wearable devices. Many of our products consist of cases/pouches/holders made from high quality, durable leather or a combination of leather and plastic moulded components.

These attach independently to belts, waistbands, garment pockets etc. or they can be attached using our innovative KLICK FAST Mounting System. This system enables devices to be carried anywhere on the body, vehicle dashboards, lockers and bicycle handlebars.

PETER JONES (ILG) LTD

KLICK FAST IN ACTION

A KLICK FAST Connector, attached to a device or holder, slides and locks easily into any KLICK FAST Dock located anywhere on the body, vehicle dashboards, lockers and bicycle handlebars. Once docked, the device can be rotated to any of seven ratcheted positions. It undocks quickly by rotating it to its inverted position and sliding it free of the Dock.

Please click on the KLICK FAST logo to view the
KLICK FAST in action.

FORTiS HOLDER FOR SAMSUNG XCOVER PRO ESN DEVICE

FORTiS Holder for Samsung XCover Pro with KLICK FAST Connector
Product Code: SXCOVERPROESN02KFNOD

The device is securely retained in the holder by a "claw" at each corner.

The FORTiS Holder does not obstruct the screen and allows full access to all device features.

KLICK FAST

FORTiS HOLDER FOR SAMSUNG XCOVER PRO – PUSH-TO-TALK (PTT) APERTURE

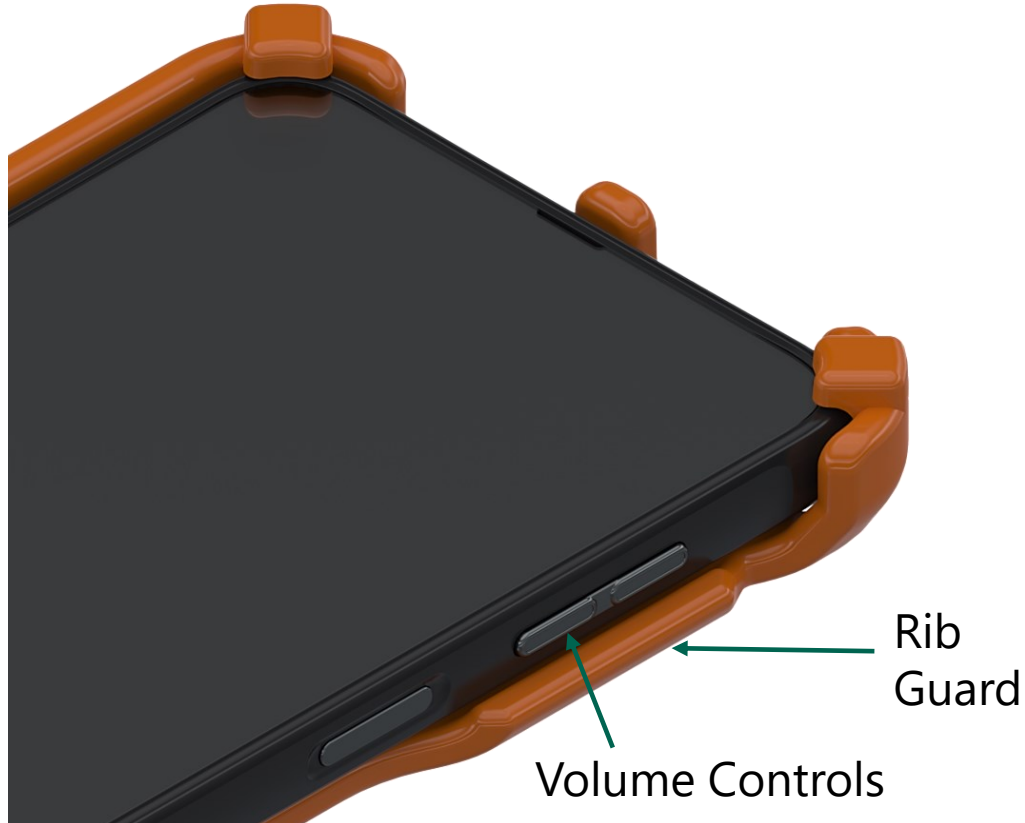

PTT Aperture

PTT Button

The Push-To-Talk (PTT) aperture ensures the PTT button is protected from accidental use, whilst it also assists the user in locating the button when needed.

Consideration has been given to users wearing gloves by incorporating a large enough aperture that gives tactile feedback on the PTT button location.

PETER JONES (ILG) LTD

KLICK FAST

FORTiS HOLDER FOR SAMSUNG XCOVER PRO – VOLUME CONTROL RIB GUARD

A rib guard incorporated at the side of the FORTiS Holder prevents the volume controls from being accidentally pressed.

The size of the guard has been designed to allow users wearing gloves to operate the controls.

Rib Guard

Volume Controls

PETER JONES (ILG) LTD. KLICK FAST

FORTiS HOLDER FOR SAMSUNG XCOVER PRO – EMERGENCY BUTTON APERTURE

A central "claw" has been incorporated at the top of the FORTiS Holder to form an aperture around the emergency button. This prevents accidental activation of the emergency button, and also helps users locate the button when needed.

Central Upper Claw

Emergency Button

PETER JONES (ILG) LTD

PETER JONES (ILG) LTD

KLICK FAST CROCODILE GARMENT CLIP

NEW DOCK

DOCKCROCCLIP
KLICK FAST CROCODILE GARMENT CLIP

The KLICK FAST Crocodile Garment Clip featuring a KLICK FAST Dock at the front can be attached to shirt epaulettes, shirt plackets, pockets, belts, trouser pockets, jacket zip openings and skirt/trouser waistbands. It is an easy and quick way to attach a KLICK FAST Dock to garments for secure, hands-free carrying of KLICK FAST-enabled portable devices. The KLICK FAST Crocodile Garment Clip features:

- A small footprint - enabling it to be as discreet as possible beneath the device and allowing it to fit small as well as large pockets;
- A slim profile - keeping the attached device as close as possible to the body;
- A textured, non-slip surface on its upper front and rear to enable fingers to gain a firm grip when squeezing the clip open.

ANTI-TILT ATTACHMENT FOR KLICK FAST CROCODILE GARMENT CLIP

Device angled downwards without Anti-Tilt Attachment fitted to the Crocodile Garment Clip

Device angled straight ahead with Anti-Tilt Attachment fitted to the rear of the Crocodile Garment Clip and inserted in a shirt pocket

NEW DOCK

DOCKCROCCLAT

KLICK FAST CROCODILE GARMENT CLIP ASSEMBLED WITH ANTI-TILT ATTACHMENT

In some circumstances, ill- or loose-fitting pockets or garments may cause a device attached to the KLICK FAST Crocodile Garment Clip to tilt downwards. Our optional Anti-Tilt Attachment, when fitted to the KLICK FAST Crocodile Garment Clip, corrects the angle of the device. The Anti-Tilt Attachment can be removed from the Crocodile Garment Clip and re-attached, as required.

The Anti-Tilt Attachment (**ATILTCROCCLP**) can be supplied separately as an optional accessory to fit the KLICK FAST Crocodile Garment Clip (**DOCKCROCKCLIP**) or it can be supplied at the same time as the Crocodile Garment Clip and already assembled (**DOCKCROCCLAT**).

PETER JONES (ILG) LTD   KLICK FAST

KLICK FAST MAGNETIC MOUNT (DOCKMAG)

NEW PRODUCT

KLICK FAST Magnetic Mount

The back plate slips behind a garment or in a pocket, then the front plate featuring a KLICK FAST Dock is placed on top, over the outer garment. 8 high-strength magnets will hold the mount firmly in place. The mount features:

- A low profile - keeping the attached device as close as possible to the body;
- A small footprint - enabling it to be as discreet as possible beneath the device;
- In-built spacing between both mouldings - allowing fingers to slot in and easily detach the front and back plates from each other;
- A lightweight design;
- Two assembly-free, single mouldings that can be supplied with or without high-strength magnets (magnets are supplied already fitted);
- A choice of either a KLICK FAST Dock located at the top of the mount or in the centre, depending on the position of your device's KLICK FAST Connector (Upper dock suitable for devices with a KLICK FAST Connector in an upper position; central dock suitable for devices with a KLICK FAST Connector positioned centrally).

PETER JONES (ILG) LTD

KLICK FAST MAGNETIC MOUNT (DOCKMAG) - CONTINUED

DOCKMAG01
KLICK FAST Magnetic Mount with Upper Dock (Excluding Magnets)
Front and back mouldings supplied only. To be used with magnets 20mm width x 5mm height

DOCKMAG02
KLICK FAST Magnetic Mount with Upper Dock and Fitted Magnets

DOCKMAG05
KLICK FAST Magnetic Mount with Central Dock (Excluding Magnets)
Front and back mouldings supplied only. To be used with magnets 20mm width x 5mm height

DOCKMAG06
KLICK FAST Magnetic Mount with Central Dock and Fitted Magnets

PETER JONES (ILG) LTD

MORE KLICK FAST DOCK OPTIONS

DOCK08
'Screw-To-Fit' Dock
Allows retro-fitting to existing clothing using four screws.

DOCKMV UPDATED DESIGN
MOLLE Dock
Allows secure and easy attachment to any MOLLE loop system using webbing straps and two press studs. The improved design features a longer support platform for devices, a higher docking position, press studs that are flush with the moulding and rounded edges on the webbing slots to reduce wear and tear on the material.

DOCKEPAULETTE
Epaulette Dock
Allows the device to be hung from epaulettes. The Dock loops over the epaulette and hooks onto a button or stud to secure it in place.

DOCKCLAMP
Anti-Tilt Dock with Spring Clamp
Fastens securely to shirt/suit pockets via a spring clip. An Anti-tilt block keeps a camera looking forward.

PETER JONES (ILG) LTD KLICK FAST

MORE KLICK FAST DOCK OPTIONS (CONTINUED)

DOCKRSMTAG
Tag Mounting Dock with 41mm Tongue Width
Fits onto existing shirt or clothing loops. Can be supplied in various widths.

DOCKRUCKSACK
Rucksack Mount Dock
Allows attachment of a device to rucksack straps. Clips anywhere on the padded straps.

DOCK05
Screw-On Dock
Can be attached to various items including Ram-Mount fittings via 4 recessed mounting holes. (Ram-Mounts are not supplied).

DOCKHBARMOUNT
Bicycle Mounted Dock
Adjustable to suit handlebars from 2 – 3 cm in diameter. A rubber protection sleeve cushions a device from vibrations and protects the handlebars.
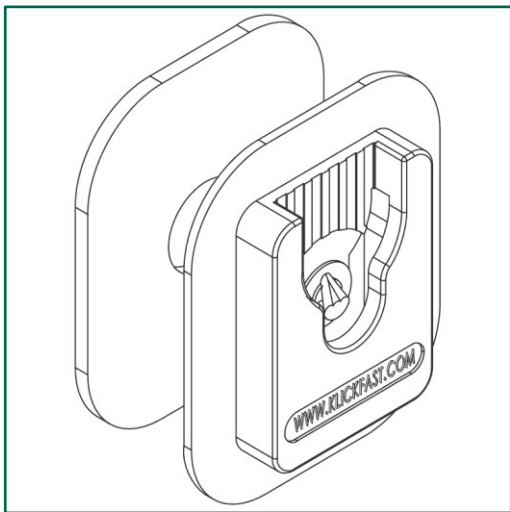

DOCK10
Storage Dock
Storage dock can be attached by screws or the supplied adhesive pad.

PETER JONES (ILG) LTD. KLICK FAST

MORE KLICK FAST DOCK OPTIONS (CONTINUED)

DOCK04
Stick-On Dock
Allows mounting to walls and to car dashboards via a self-adhesive pad.

DOCKHARNESS
Harness Dock
Supplied with two repositionable 'keepers' to allow attachment to either 25mm (1") or 50mm (2") wide webbing straps.

DOCKBUTTONM/ DOCKBUTTONF
Button Dock
Designed for use on button-down shirts and particularly useful for carrying devices that need to be located right in the centre of the chest, e.g., body-worn video cameras. The "S"-shaped design attaches to a shirt placket by means of two shirt buttons. Its slim profile ensures the attached device is carried as close as possible to the body. A version is available for both male shirts (**DOCKBUTTONM**) that have buttons on the right and female shirts (**DOCKBUTTONF**) that have buttons on the left.

PETER JONES (ILG) LTD
KLICK FAST

KLICK FAST HELMET RAIL MOUNT

DOCKHELMETPIC
Dock for Picatinny Rail Adapter
Attaches to Picatinny Rail Adapter which can be supplied separately if not already included on the helmet rail.
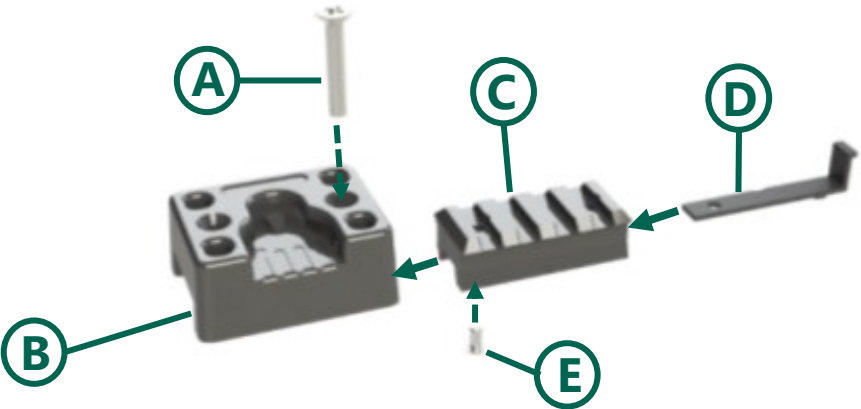

PICRAILADAPTER
Picatinny Rail Adapter Kit
For attaching to helmet rail.

The **DOCKHELMETPIC** kit (parts A and B) attaches to the Picatinny Rail Adapter Kit (**PICRAILADAPTER)** (parts C, D and E) before the whole assembly is mounted onto the helmet rail. Slide the assembly on to the helmet rail from the front.

KLICK FAST HARNESS OPTIONS

SSHLDER999ADJKF

**Chest Harness with Height-Adjustable
KLICK FAST Dock**

Webbing Harness with KLICK FAST Dock for chest area mounting of a device. Can be worn over the left or right shoulder. The KLICK FAST Dock can be vertically adjusted to the preferred position. Waist straps have a tripoint quick side-release buckle for easy fastening/detaching. Size-adjustable. Larger size harness also available.

SSHLDER17KF

**Four-Point Chest Harness with Central
KLICK FAST Dock & Quick-Release Buckles**

Four-point webbing harness with a KLICK FAST Dock centrally located on the chest for mounting devices such as body-worn video cameras. Straps slip over the shoulders and around the waist and fasten to two quick-release buckles attached either side of the central leather pad. Size-adjustable.

PETER JONES (ILG) LTD KLICK FAST

SSHLDER4KF

Four-Point Chest Harness with Central KLICK FAST Dock & Spring Hook Fastenings

Four-point webbing harness with KLICK FAST Dock centrally located on the chest for mounting devices such as body-worn video cameras. Straps slip over the arms and shoulders and can be quickly fastened by connecting two flat spring hooks to the D-rings attached to the central leather pad. Larger harness size and an Intrinsically Safe version also available. Size-adjustable.

SSHLDER18KF

Shoulder Harness with KLICK FAST Dock Under Left Shoulder

Shoulder harness with KLICK FAST Dock mounted on a comfortable, leather strap just below the left shoulder. Suitable for high mounting of devices such as two-way radios, body-worn video cameras and portable gas detection monitors. A length- adjustable, elasticated strap fits over the right shoulder to secure the harness. Can be worn covertly under jackets or over outerwear.
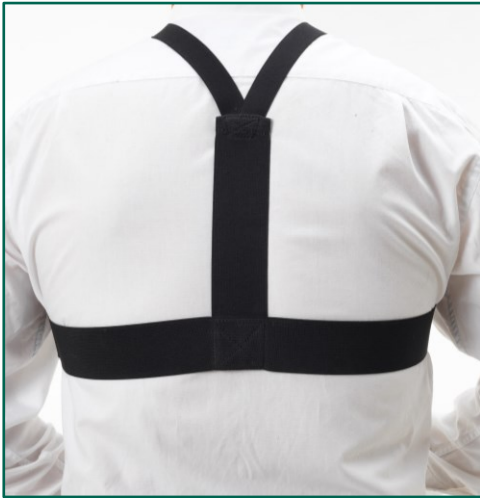

PETER JONES (ILG) LTD

SSHLDER15*

Sam Browne Harness with Height-Adjustable KLICK FAST Dock
Webbing strap worn diagonally over the left or right shoulder with KLICK FAST Dock for chest/shoulder area mounting of devices. The KLICK FAST Dock can be vertically adjusted to the preferred position. The harness attaches to a utility belt (not included) via a KLICK FAST Belt Dock fitted at the rear and at the front. Size-adjustable.

Belt not included but can be supplied separately, if required.

PETER JONES (ILG) LTD
KLICK FAST

NEW HARNESS

SSHLDER21KF

Four-Point Chest Harness with Central KLICK FAST Dock & Elasticated Straps

Four-point elasticated harness with KLICK FAST Dock centrally located on the chest for mounting devices such as body-worn video cameras.

Straps slip over the shoulders and around the ribs and fasten via a quick-release buckle attached to the left side of the central, nylon fabric pad. All-round elasticated straps allow more give and, together with the tri-glide buckles on each strap, offer complete adjustability to comfortably fit thick outerwear as well as a wide range of body shapes and sizes.
