

# Bloom\*

\*Opening up procurement®

Bloom provides access to a unique marketplace for the public sector to procure all categories of professional services. We are a trusted partner to over **400 clients** having successfully delivered over **£1bn of projects**.

## Why work with us?

### Accelerated Route to Market

One of the fastest and most cost effective, enabling contracts to be compliantly awarded in as little as 15 days.

### Diverse Framework

Providing access to 20 categories and 340 sub-categories across professional services, allowing services to be procured through the OJEU compliant NEPRO framework via mini-competition or direct award. The NEPRO framework is open to the entire UK public sector.

### Simple & Free Accreditation Process

It's free to complete the registration and accreditation process and suppliers are also not charged for participation in bidding for opportunities. The only charge is a 5% management fee for any services delivered.

### Fully Managed Service

We manage the end-to-end process for the procurement, contract management and payment of all professional services in accordance with milestone delivery.

### Agile Marketplace

Our vendor neutral approach combined with our rich data and insights enables us to onboard suppliers at anytime and ensure a level playing field when identifying suppliers to meet client requirements.

### Enabling Social Value

Our solution delivers impact to local economies by enabling clients to open up procurement opportunities to SMEs and 3rd sector organisations whilst helping them embed their strategic objectives.

## How to become an accredited supplier to the Bloom marketplace

To be able to receive opportunities through the Bloom marketplace, you'll need to be accredited via our procurement technology platform, which you can access by scanning the QR code on the right.

When completing the registration and accreditation process, it is really important that you showcase your organisation offering to increase the likelihood of being shortlisted, including service offering, capabilities, professional qualifications and accreditations.
