

National Framework Agreement

Bloom has been appointed as a delivery partner for Lot 2 of The Countess of Chester Hospital's (COCH) National Framework for Fixed Fee Procurement Project Delivery Service by COCH's Commercial Procurement Service.

About Bloom

Bloom has a proven track record in delivering compliant & fully managed procurement solutions across the public sector. We provide a hassle free and efficient solution that enables better outcomes to our clients across the public sector.

About the framework

Recognising the workload challenges across the public sector, this framework has been designed to support clients with tender requirements to ensure outcomes are delivered on time where capacity and resource challenges exist.

Why work with us?

This framework enables organisations to deliver multiple tenders in a fully compliant manner where capacity or timelines to deliver are an issue. Bloom has significant experience of running multiple tenders for clients across the public sector, with a wealth of experience from both a procurement and category perspective. This cost-effective solution is proven to support clients on accelerating activity thus ensuring both alignment to best framework and best solution. Through our expertise, we support our clients by removing the challenge of tender activity and work alongside them to enable best outcomes.

We fully manage the procurement project from reviewing identified frameworks, helping clients to develop a detailed specification, managing the engagement of suppliers and ensuring the procurement project is run compliantly.

Who can use the framework?

The framework provides a fully compliant route to all public sector bodies. To find out more about Countess of Chester's Commercial Procurement Service visit www.coch-cps.co.uk

Framework Benefits

- Free to access framework agreement that will save procurement time and cost.
- Reduced risk for the authority for delivery of procurement projects.
- Access to experienced procurement professionals that compliments the client's team.
- Greater cost control by significantly reducing wasted costs on interims and enabling the client team to focus on other key areas of focus.
- Flexibility & Compliance - The ability to up or down scale as the demand requires from an end user's perspective.
- Cost effective delivery solution.
