EVERYONE SITTING COMFORTABLY!

YORKSHIRE CARE
equipment

OUR PROMISE

“By choosing to standardise your specialist seating requirements with us, not only will your patients enjoy products with the quality, comfort and functionality that you would expect from a market leader, but through the practical application of our equipment, your teams will benefit from a reduction in patient discharge times and bed pressures, as well as time and money saved in training, servicing and auditing responsibilities.”

Let us lighten the load...

ABOUT US

Our aim is to enhance the lives of those in need of specialist care by providing innovative products, with class-leading service and support. We have been supporting healthcare professionals in the NHS, private sector and local authorities for nearly 50 years.

We are committed to identifying and enhancing products that can take patient care forward, provide improved outcomes and enhance lives.

SOME OF THE TRUSTS THAT DEPEND ON US

Black Country Healthcare NHSFT

Derbyshire Community NHSFT

Mid Cheshire Hospitals NHSFT

Cambridge University Hospitals NHSFT

Essex Partnership University NHSFT

Northern Care Alliance

Working together

LISTENING

We will ask the questions that help uncover the information we need to put the best seating, support and service programmes in place, just as we have done across NHS Trusts for many years.

TELLING THE STORY IN NUMBERS...

Average length of stay: **7 days**

7.8% of population bariatric

700,000+ admissions with obesity a factor

47.6% of children under 15 years old will visit A&E

23% of children attending A&E are admitted

36.9% of A&E attendances are children

Our specialist seating

One size never could fit all

**Where other solutions are fixed, we specialise in adjustability.
Where others are generic, we tailor to the need.**

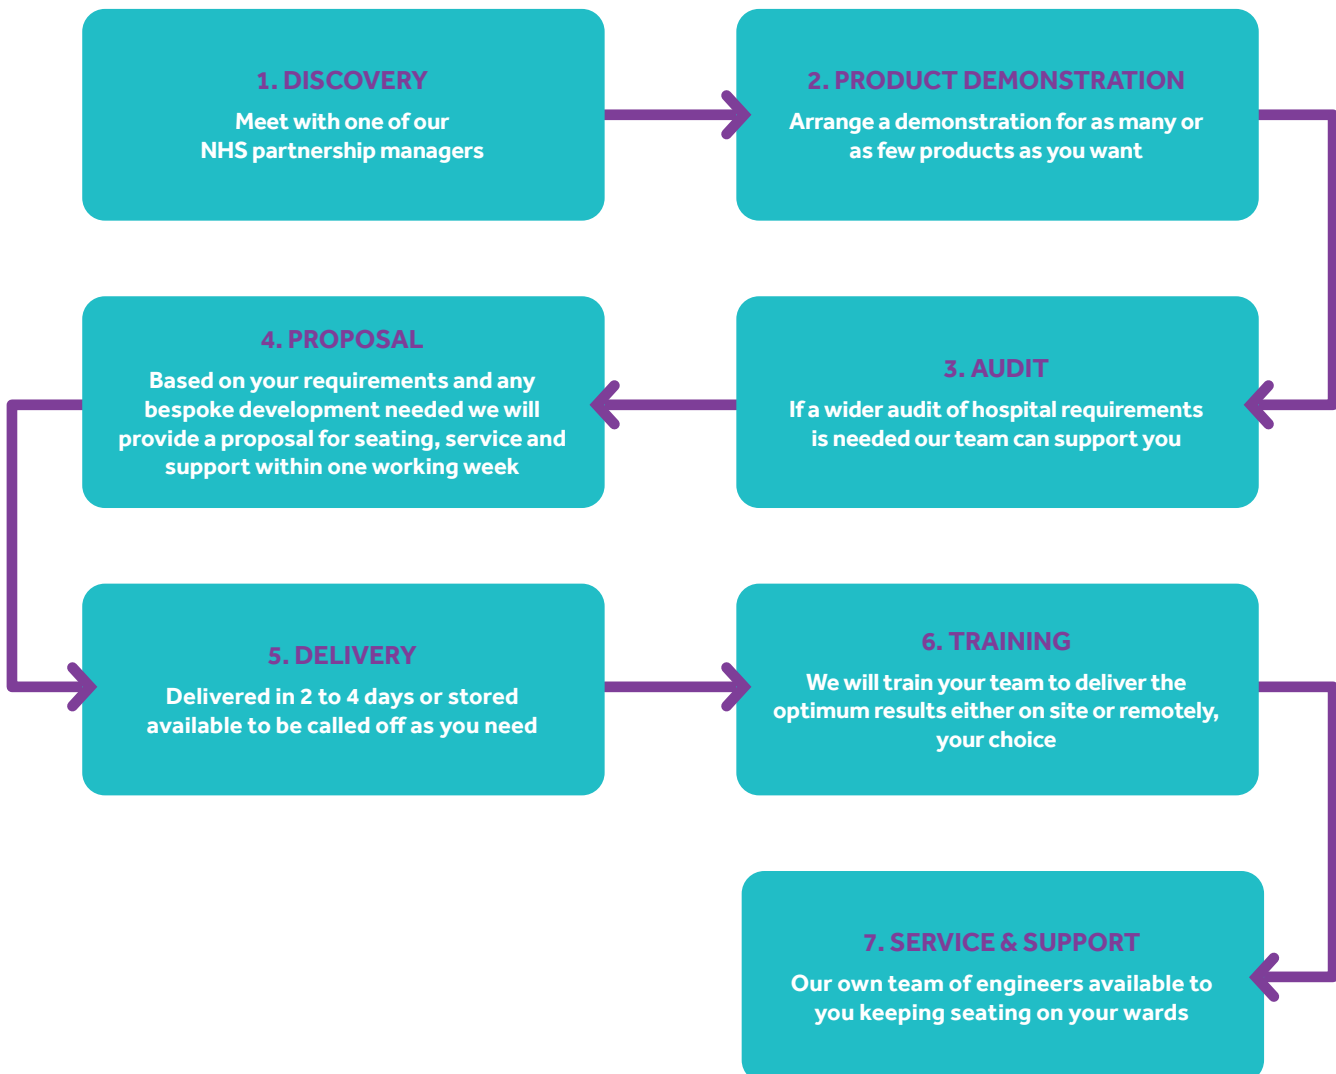

Our flagship Lento range of care chairs and riser recliners enable you to cater for the most complex and dynamic seating challenges. You can adjust our Little Lento, Standard, newly released Mediatic and Bariatric Lento models without tools in seconds.

We have committed to delivering the best outcome for every patient. That duty of care carries over to every relationship that we build, every tender we win and every partnership we nurture.

Put simply – the patient comes first. We won't compromise on quality or safety, on adjustability or functionality. We want what you want.

Working as an extension of your team, our experienced Partnership Managers, Assessors and Physiotherapists can take on the 'heavy lifting' of your seating or care project, leaving your teams to focus on what they do best, patient care. We can carry out everything from a simple seating assessment to a full audit of your organisation's requirements.

HOW IT WORKS

Why partner with us?

Partnering with Yorkshire Care Equipment entitles you to a range of benefits that support the best possible outcome for your patients. We will enable you to reduce the demands on your staff, increase bed numbers at your site, relieve ward pressures and deliver real value for your seating investment from purchase to aftercare.

SERVICE CONTRACTS

Our team of qualified engineers support our partners across the UK and will ensure that your equipment stays in optimum condition. Various packages can be tailored to suit.

DELIVERY

Product delivery on any stock item is just 2-4 days. Our specialist seating products are delivered by our own courier team. If you cannot accommodate a bulk order in full, we offer bulk storage at regional UK hubs, storing your equipment locally until you are ready to take delivery.

TRAINING

We want you to gain the extensive benefits from our seating range. That's why the free training that we offer is detailed, comprehensive and designed to share our expertise. Whether on a 1-2-1, train-the-trainer or group basis, we will ensure you can get the most from your investment.

CPD

Yorkshire Care Equipment are CPD accredited members. As part of our commitment to our partners with current service contracts in place, we have developed two CPD accredited courses that are available, free of charge, to groups of 10 or more OTs and healthcare professionals.

FUNDING

Our experience in partnering with the NHS and Local Authorities gives us a sound understanding of funding challenges and nuances. As a partner, we would share our expertise and support for your funding initiatives including supporting documents wherever appropriate.

AUDITS

When standardising your seating or specialist equipment needs, an audit of legacy inventory is often the best place to start. We all know that audits are a time-consuming process. We are ready to support. Consider deploying our experienced team to your process. We can ensure accurate reporting and conclusions that enable sound decision-making.

PRODUCT INNOVATION

We develop class-leading innovative products that take the solution to complex cases and existing healthcare challenges to the next level. We give product briefings and conduct regular feedback and Q&A sessions. Our work with healthcare professionals help to inform our next generation of products providing enhanced outcomes for professionals and those in need of care.
