

**GOLD SOLUTION  
PARTNER**

## Spot<sup>®</sup>

### **Automate sensing and inspection, capture limitless data, and explore without boundaries.**

Createc partners with Boston Dynamics to customise and apply the innovative Spot®, a world-leading four-legged agile robot with advanced mobility and perception. As a technical integrator and Gold Partner, we are pioneering the use of Spot® to solve new industrial challenges across the world.

We use our specialist technical expertise in perception, imaging, and radiation measurement, to create bespoke mobile robotic solutions for our customers.

### **When can Spot® help?**

When you need to collect data and perform hazardous or remote inspections in environments built for humans. This might include scenarios such as:

- Automation of regular inspection, surveying and monitoring tasks
- Planning and undertaking potentially hazardous operations
- Emergency response in unknown or unsafe environments

#### **Strong**

Carry and power up to 14kg of inspection equipment.

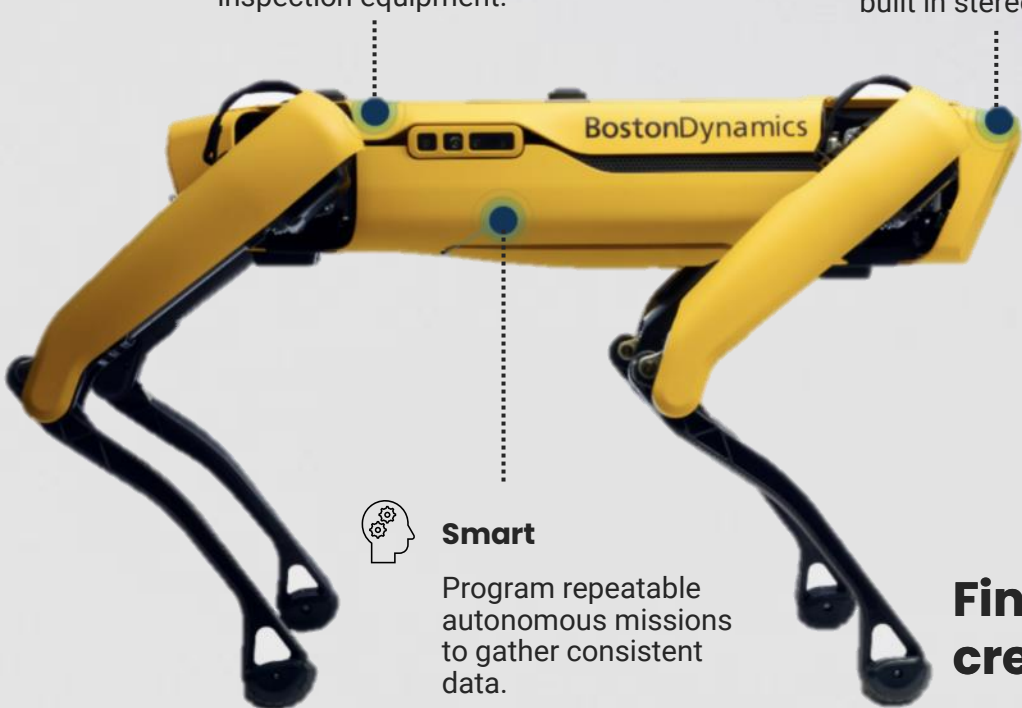

#### **Easy to control**

Control the robot from afar using an intuitive tablet application and built in stereo cameras.

#### **Smart**

Program repeatable autonomous missions to gather consistent data.
