The Leader in Environmental Management

A leader in hazmat response, environmental services, waste management and automated tank cleaning, we specialize in management and support for crises and emergencies, as well as hazardous incident response. Whenever or wherever your needs are, our highly-qualified teams specialise in the full range of environmental services - from consultancy and preparedness to emergency response and clean-up operations.

PREPAREDNESS SERVICES

Ambipar provides an extensive range of preparedness and planning services to assist companies who are dedicated to adopting excellent stewardship of the environment. Ambipar understand and practice the critical importance in being adequately prepared for an incident, taking an 'all hazards, all risk' approach to environmental scenarios.

Planning and Technical Services

Our technical specialists have a range of expertise in emergency and incident management procedures, marine and shoreline environments, marine and inland response strategies, response equipment, waste management, and health and safety.

At the core of our planning service offering is our ability to undertake comprehensive spill and environmental risk assessments.

Ambipar's planning services include, but are not limited to, the following:

- Emergency Response Plans;
- Oil and Chemical Spill Contingency Plans;
- Tactical Response Plans (i.e. Booming Plans);
- Waste Management Plans;

Exercises

Ambipar engage closely with our clients to design and develop bespoke exercises aimed towards achieving incident management excellence and meeting codeveloped objectives. Through initial engagement meetings, we work with our clients to establish desired outcomes and potential scenarios worth investigating through exercising, to provide increased assurance in the capability of existing preparedness and response mechanisms and to identify any potential areas of improvement.

Examples include:

- Notification exercises;
- Deployment or Practical exercises;
- Table-top exercises; and,
- Multi-agency emergency and incident management exercises

Following exercise delivery, post-exercise reports are provided to all our clients to help them achieve continuous improvement targets and to learn from the experiences of the exercise. Our technical specialists are highly experienced in identifying areas for improvement and recommending suitable solutions based on their observations.

PREPAREDNESS SERVICES

Assurance Services (including Provision of Equipment)

Our experienced team can provide a range of assurance services including capability reviews, equipment audits, and tests of our client's capacity to respond to incidents of all varieties.

Primarily, this involves a comprehensive review of our client's spill and/or environmental risk profile to ensure prevention and mitigation measures are commensurate.

Pending the outcome of our review, Ambipar can provide recommendations for any further measures, and suggest suitable procedural updates, plan revisions, training or exercising matrixes as necessary.

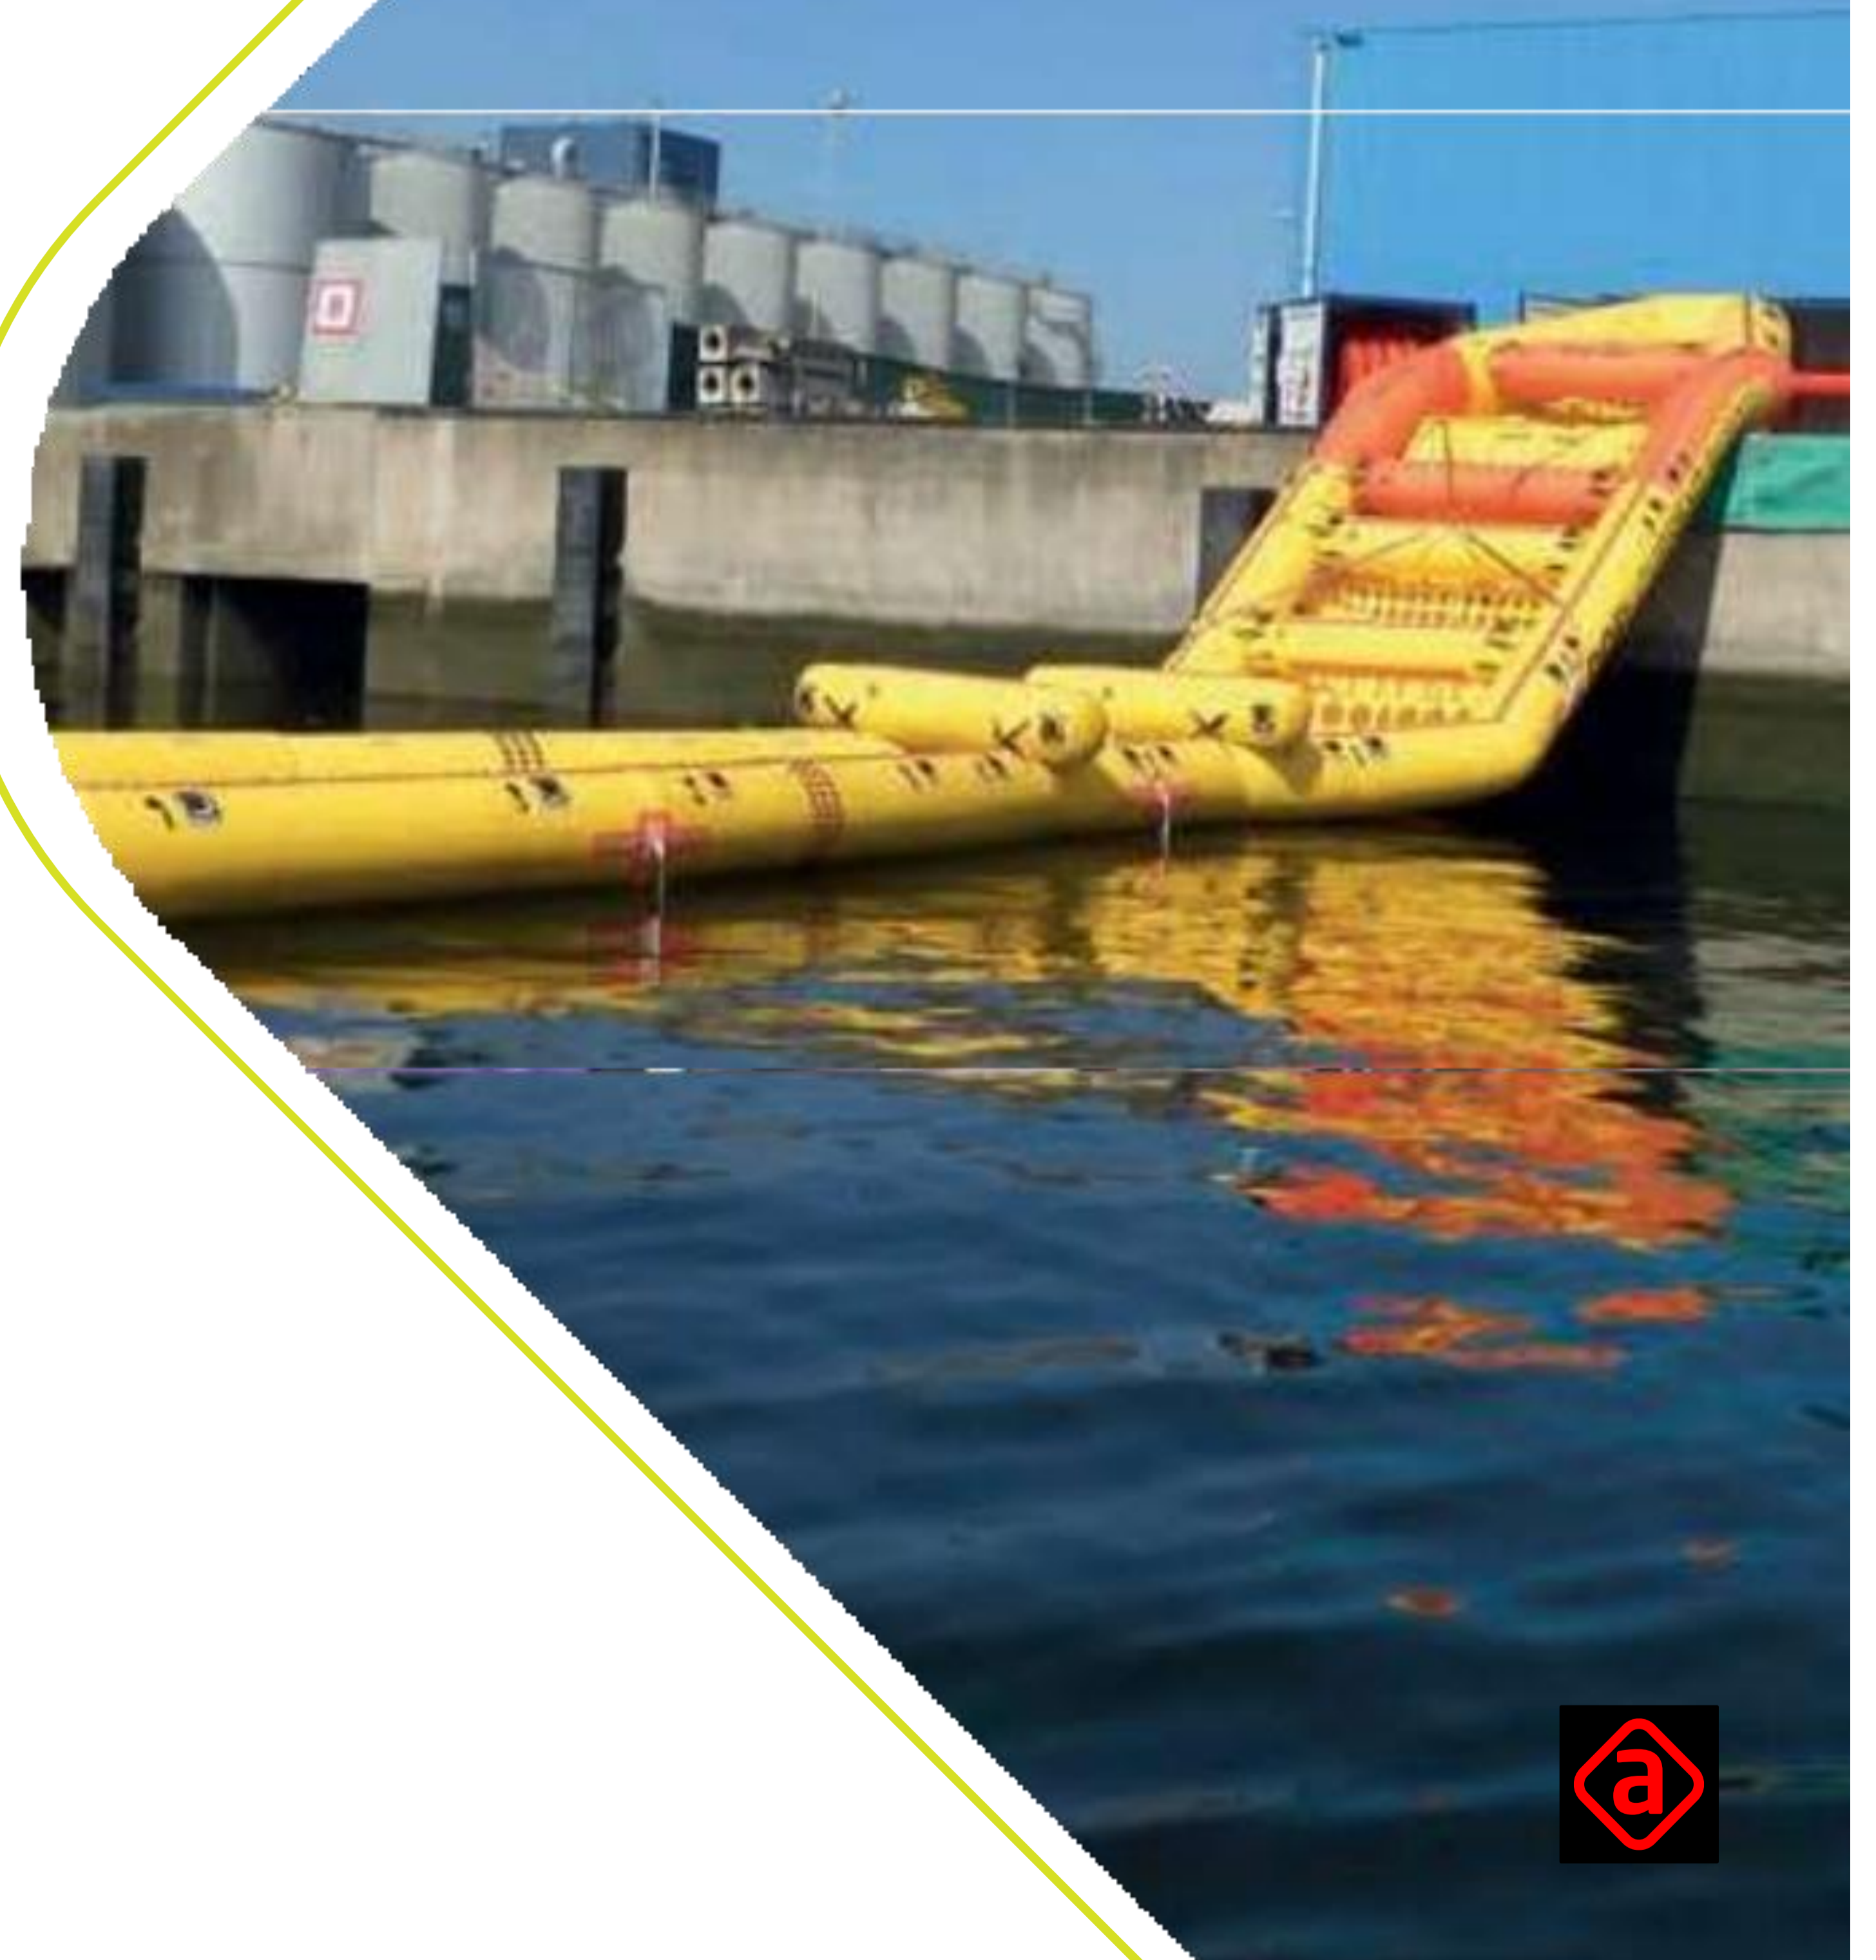

Additionally, our assurance service provision enables the auditing of our client's on-site environmental protection and counter pollution equipment. With our specialist's day-to-day, first-hand experience in the field deploying this equipment, Ambipar provide a reliable source of expertise in ensuring that our client's equipment is commensurate to their risk profile and fit for purpose.

Equipment Hire Packages

Ambipar response provide bespoke equipment hire packages to support environmental risk reduction and regulatory compliance.

- Offshore Equipment Hire Packages
- Dispersant
- Shoreline
- Ports and Harbour

RESPONSE SERVICES

Response

- Oil Spill Response Practitioners (Offshore, Harbour, Shoreline and Inland)
- Oil Spill Response Specialists (Supervisors and Beachmasters)
- Oil Spill Response Specialists (Incident Management Team Personnel)
- Oil Spill Response SCAT Specialists
- Chemical/Hazmat/HNS Spill Response Practitioners
- Incident Management Support
- Oil and Chemical Trajectory Modelling
- 24-Hour Emergency Information Provider
- After-Hours Answering Service

Secondment of Specialist Personnel

- Oil Spill Response Superintendents
- Oil Spill Response Specialists
- Incident Management Specialists
- Crisis Management Specialists
- Environmental Management Specialists
- Risk Management Specialists
- Security Specialists

Specialist Services

- Post Incident Remediation
- Automated Tank Cleaning
- Haz / Non-Haz Waste Transportation and Disposal
- Confined Space Entry / Rescue
- Waste Management, Characterisation Sampling and Disposal
- NORM Waste Minimisation, Surveying, Decontamination, and Transportation
- Facility Decontamination (including infectious diseases)

INDUSTRIAL SERVICES

In-house Equipment UK & Ireland

- Recyclers
- UN Bulk Tankers
- ADR / SIR Cyclovacs
- Contaminated Soil Bins
- ADR Combination Units
- Hookloaders, Ro-Ro Bins
- Vacuum Excavation Units
- Bulk Articulated Suction Units
- Combi Articulated Suction Units
- UN Approved Drums / IBCs / FIBCs
- Bulk Articulated Cutainsider Units
- CCTV Suveying Equipment (ATEX)
- Robotic Tank Cleaning Units (Zone 0)
- Big Bag Filler - Dusts, Resins, Powders
- Glass Lined / rubber Lined Acid Tankers
- Mobile Physio-Chemical Treatment Units
- Mobile Sludge Dewatering Units (incl ATEX)
- Spill Control Products - Absorbs, Boom, Spill Kits
- Mobile Storage Tanks - 25m³ to 86m³ (incl Bunded)

Who WE are

- Leaders in Waste Management & Industrial Services
- Always to the forefront of technology
- Impressive fleet of modern equipment

INDUSTRIAL SERVICES

Services available in UK & Ireland

- Vacuumation
- Soil Remediation
- Nitrogen Inertion
- UST / AST Closure
- Bulk Fuel Transfers
- ATEX CCTV Surveys
- Interceptor Cleaning
- Vapour Phase Cleaning
- Facility Decontamination
- Waste Profiling / Analysis
- Hydro/Suction Excavation
- Sharps Disposal / Clean Up
- Confined Space Entry / Rescue
- Robotic Tank Cleaning (Zone 0)
- Chemical Cleaning & Passivation
- Tank Cleaning & Decommissioning
- Emergency Response / Spill Clean Up
- Shipping Industry Services (MARPOL)
- Hazardous & Non-Haz Waste Disposal
- Licensed Haz Waste Transfer Station
- Turnaround Support / Plant Shut Down
- Sludge Dewatering / Volume Reduction
- Labsmall Classification, Packing & Disposal
- Unattended Death / Crime Scene / Gross Filth
- Catalyst Changeout under Inert Environments
- Filter Media Changeouts (Carbon, Resin, Sand, etc)
- Potable / Process Water Tank Cleaning / Chlorination
- Pipe & Drain Cleaning / Inspection / Integrity Surveys
- Asbestos, Mould, Lead & Methamphetamine Abatement
- Silo Solutions (Silowhip, Cardox, Dry Suction - Ratholing/Bridging)
- NORM Waste Minimisation, Surveying, Decontamination & Transportation

Who WE are

- Innovative Solutions
- ONE - Total Environmental Solutions
- The only source of knowledge is experience
