

Ensure compliance, enforce policy and reduce risk with Altia's end-to-end Covert Operations Solution.

Altia's Covert Operations Solution (ACOS) is the global lead in risk, information and intelligence management within both covert and overt operations. ACOS can manage all aspects of surveillance, sources, undercover, witness protection and intelligence operations, giving agencies the greatest visibility of their most sensitive investigations, while mitigating risk, enforcing policy and delivering operational value.

Why ACOS?

Capture Everything

From field intelligence through to executive decisions, ACOS captures all aspects of covert operations in one place. With powerful search and reporting capabilities, ensure end-to-end oversight of your operations, and make use of your valuable information from diverse sources, all within ACOS, across all covert capabilities.

Your Policy. Enforced.

Ensure your organisation complies with policies, standards, human rights, legislation and procedures through systematic rule sets, enforcing compliance across your high-risk operations. Don't leave expectations to interpretation, ACOS will guide your members to compliance and protect your organisation, your members and your community.

Save Money And Time

Let your members focus on what they are good at, spending less time reporting and more time keeping communities safe. ACOS's intuitive interface allows for rapid data entry and mitigates duplication. The automated workflows give your team the ability to easily access the mission critical information they need, right at their fingertips.

Highly Secure

Leveraging Role Based Access Control and the most secure information and cyber security principles, trust that your most sensitive information is secure. Hosted on industry-leading technology, real-time threat detection and prevention disrupts malicious actors, mitigates repetitional harm and most importantly, keeps your co-operating community members safe.

Built by Altia specialists. Powered by our partners at Microsoft.

Cost Efficient: Eliminate the capital expense of implementation and maintenance of on-premises infrastructure. Altia will deliver our Software-as-a-Service right to your users at a fixed, all encompassing predictable subscription fee. Better solution, reduced fee.

Always Available: Microsoft Azure ensures high-availability, scalability and accessibility when you need your Altia solution the most. Rapidly deploy your Altia solution at the click of a mouse, without physical on-premises infrastructure.

Resilient: With data centres globally, you can not only ensure data-sovereignty, but also geo-redundant resilience in the event of a disaster or service outage. Minimise service disruption and data loss by relying on multiple data centres in your region, supported by only the best. Microsoft Azure.

Highly Secure: Cloud is simply a real computer sitting in Microsoft Azure's highly secure and compliant physical data centres. With 24/7 monitoring of threats, have greater confidence your information is safe from cyber security incidents and remove capital expense and risk.
