

**DARING TO BE
EXTRAORDINARY
TO BENEFIT THE
HEALTH OF ALL
GENERATIONS**

GALEN

About Us

At Galen, our purpose is to be of Extraordinary Service to our patients, healthcare professionals, partners, and the wider Galen family.

We promise to always go above and beyond to help meet their needs, so together we can benefit the health of all generations.

We are a privately owned pharmaceutical company established in 1968 and the proud founding member of the Almac Group. The group has 18 locations globally and employs over 6,500 individuals.

Headquartered in Craigavon, Northern Ireland, we have commercial operations across the UK and Europe, global partners in every continent and are positioned to distribute products worldwide.

Our Goals

Founded by the late philanthropist and entrepreneur Sir Allen McClay (d. 2010), Galen is now privately owned by The McClay Foundation which was formed prior to his passing.

The Foundation continues the work Sir Allen McClay began, with the aim to make a meaningful improvement and advancement in human health. Galen's business follows this ethos, reinvesting all profits back into the business.

Our Values

We are committed to customer care

We challenge ourselves to continually change for the better

We display integrity & respect

We harness the power of our team to move beyond the ordinary

We strive to find a way & are accountable for our actions

We enjoy what we do together

We have purpose & passion in everything we do

We act responsibly towards each other & the environment

We care
