

# WHY TRAM?

TRAM goes beyond the norm to bring an unprecedented sophistication to **Bluelight assets** and **training management**. You can effortlessly monitor and manage **training and authorisations**, while also facilitating asset **issue-return** for rapid deployment and **effective store management**. Our state-of-the-art technology ensures secure and seamless operations through desktop and mobile platforms, all within a fully auditable environment.

## It's **THE** solution to support the end-to-end management of:

- ✓ Firearms and Bluelight assets including servicing
- ✓ Issue and return, booking out
- ✓ Composition and delivery of operational training
- ✓ Recording and reporting of training, qualifications, validities

**PLUS** Standalone Activity Based Risk Assessment and Safety Briefs Module

Ask us for more information

## ASSETS

Store and manage details of firearms, tasers and more

Monitor movement, usage, and activity from asset ingestion to retirement
