Testimonials

Vendors

"Bullitt works with 20+ direct distribution partners globally but EGE continue to set the standards and have now been one our most trusted partners for close to 6 years.

A great management team with extensive mobile industry knowledge enables a dynamic and flexible approach to business. EGE's extensive reach in B2B is particularly important given the vertical markets we serve.

I would also like to congratulate EGE on their fantastic new custom built facility - a product of 5 years of consistent growth. We look forward to sharing even more success over the next 5 years."

Bullitt

HMD/Nokia has been working with the Eurostar team on some special projects for the past few years, however in the past 6+ months this has become an expanding business focus for HMD. The unique nature of the UK business allows Eurostar to work in new incremental channels that Nokia handsets were previously not sold to.

Eurostar's commercial team are incredibly proactive which in turn bleeds down to the sales teams on the ground. Business is growing week on week with ambitions to reach new verticals for both vendor and distribution partner. Collectively we look forward to strong business growth for the rest of CY23 and into CY24"

HMD/Nokia

Customers

"We have a great relationship with Eurostar which has been consistently improved on year by year driven by great customer service and competitive pricing, regardless of who picks up our questions, we have no doubt they are providing the best possible resolution every time. We greatly appreciate everything your team does for us and look forward to many more years of business together."
