

ORTUS
TELEMATICS

***Stay safe, reduce risk
and improve performance***

 **insight**

*Ensure your fleet is **always** ready with **Insight***

Ambulance Trusts use Insight for the comprehensive suite of Advanced Telematics, CCTV & Asset Tracking to keep vehicles in top condition and ready to respond 24/7/365. **So can you.**

Advanced Telematics

Integrated into blue-light systems the Insight Master Module collects real-time location, On-Board Diagnostics (OBD) and EMS specific data which you can see instantly through the Insight portal.

You can take action to keep ahead of servicing schedules, react quickly to diagnostic alerts and make informed decisions using off-the-shelf and configurable dashboards and reports.

High-Resolution, 360° CCTV

Keeping Patients, Drivers and Crew safe and secure with total coverage both in and around your vehicles. Insight CCTV supports remote access to view live or record and download multi-media journey reports in a single interface for Incident and Accident Investigation.

Accurate Asset Tracking

Reduce risk by keeping ahead of service schedules, quickly locate assets if subject to Field Service Corrective Actions (FSCAs), reduce loss and enable quick retrieval with Insight Asset tracking.

Operational Excellence

With a wide range of off-the-shelf dashboards and reports the Insight portal supports teams across the Trust to do the best job possible.

Fleet Managers keep on top of day-to-day requirements, Workshops can schedule maintenance, Make Ready teams can ensure well stocked vehicles, Accident Investigation Officers can produce and share reports whilst Clinical Equipment teams can quickly locate valuable assets.

Risk Reduction & Compliance

Staying ahead of service schedules, reacting quickly to FSCAs, knowing what assets you have and where keeps risk low and compliance high.

Insight is a detailed, accurate Vehicle and Asset Tracking Solution that helps Trust staff maintain vehicles and equipment to the standards required.
