APPS

Our range of apps is designed to empower paramedics and pre-hospital healthcare professionals with the tools they need for clinical decision-making, continuous professional development, and CPD management. From accessing national and local guidelines to enhancing learning and staying HCPC ready, each app works seamlessly to support every stage of a paramedic's career.

JRCALC iCPG

The one-stop app for UK national clinical guidelines.

JRCALC Plus

The UK national clinical guidelines together with your local trust guidelines.

ParaPass

Supporting your learning and CPD on the move.

ParaFolio

Your ultimate CPD management tool - FREE with ParaPass!

NO SIGNAL? NO PROBLEM!

All of our apps work offline so that they can be accessed even when in remote areas.

ParaPass is a vast **CPD platform** that provides tools and information to **support your learning and development**, in quick and convenient segments, on the move.

How does it work?

Watch our ParaPass videos!

- Over **2,000 multiple choice questions** on the **JRCALC Clinical Guidelines**.
- Monthly publications of **Standby CPD**.
- **Case scenarios** on prehospital practice.
- **Daily quizzes** and **self-assessment questions**.
- **Available as a web version** so you can learn at home or on the go.
- Download **CPD certificates** & seamlessly **link evidence** to the **ParaFolio app** to record and reflect, ready for audit.
- **Works offline** - no signal, no problem!

Great! How do I get started?

Simply download on your preferred app store. If you already have one of our other JRCALC apps, you can use your **existing credentials to login**.

For queries & assistance, contact our dedicated support team:

T. +44 (0) 1278 427800 | **E.** apps@class.co.uk | **W.** classprofessional.co.uk

ParaFolio is the **ultimate CPD management tool** for organising and recording your learning portfolio. Submit evidence, add reflections and stay on top of your CPD portfolio!

FREE with ParaPass or available as an individual subscription.

How does it work?

- Integrates with **JRCALC Plus** and **ParaPass** to **automatically record activity**.
- Seamlessly **submit evidence** and **reflect** on your CPD activities.
- **Link your evidence** to standards of proficiency for CPD.
- Organise your portfolio with **personal tags** for easy retrieval.
- **Export your CPD portfolio** with a single click.

Watch our ParaFolio Overview!

Great! How do I get started?

Simply download on your preferred app store & use your **existing ParaPass login**.
Alternatively, start your **30-day free trial**.

JRCALC Clinical Guidelines

Joint Royal Colleges Ambulance Liaison Committee (JRCALC)

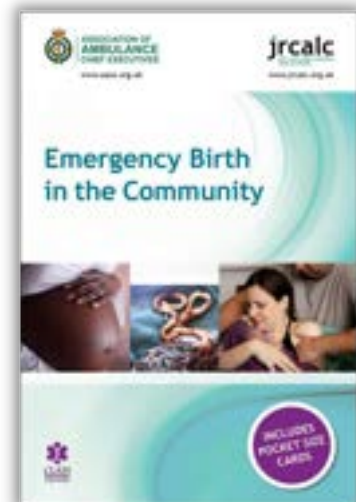

The Joint Royal Colleges Ambulance Liaison Committee guidelines are the essential resource for paramedics. JRCALC combines expert advice with practical guidance to help paramedics in their challenging roles, supporting them in providing the best patient care. The book covers a wide range of topics, from resuscitation, medical emergencies, trauma, obstetrics and medicines to major incidents and staff wellbeing.

Emergency Birth in the Community

Amanda Mansfield, Association of Ambulance Chief Executives (AACE), Joint Royal Colleges Ambulance Liaison Committee (JRCALC)

ISBN: 9781859596814

Emergency Birth in the Community is the essential resource for ambulance clinicians, midwives, GPs and all healthcare professionals who come into contact with emergency birth.

ParaPass Study Cards

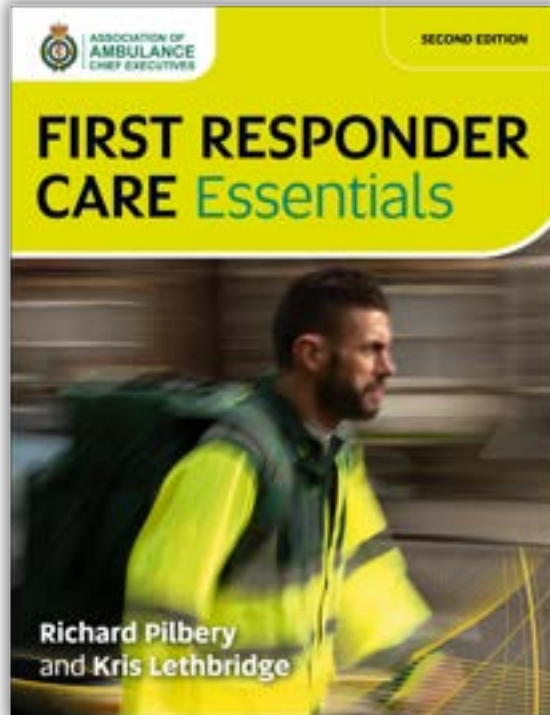

Joint Royal Colleges Ambulance Liaison Committee (JRCALC)

ISBN: 9781859598634

Test yourself on the official Joint Royal Colleges Ambulance Liaison Committee (JRCALC) Guidelines with these cards for prehospital clinicians.

FIRST RESPONDER

First Responder Care Essentials

Richard Pilbery and Kris Lethbridge

ISBN: 9781801611381

The second edition of First Responder Care Essentials brings together everything you'll need to know for your role as a Community First Responder. Taking you step-by-step through the essential skills needed for patient care, it is the ideal companion whether you're working towards a Level 3 First Responder Qualification or already qualified and in need of a reference guide.

RESPONDER
PLUS

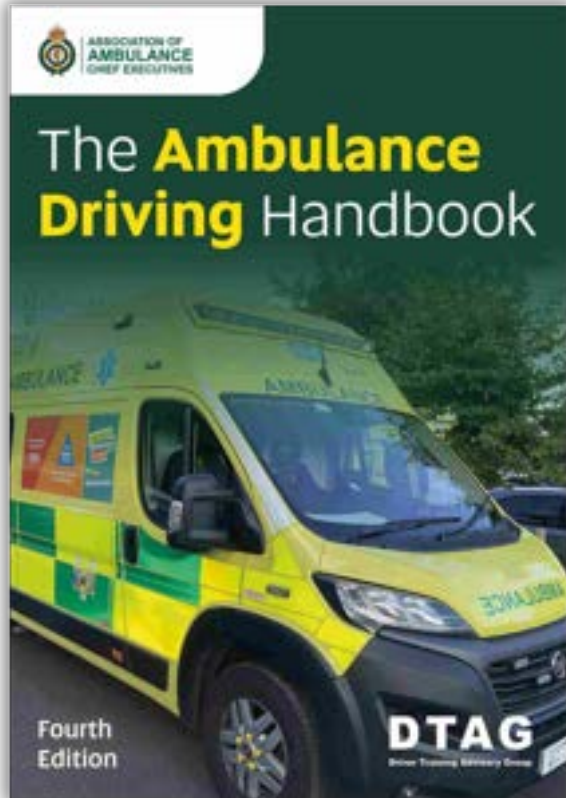

Responder Plus

The app for community first responders

Developed in collaboration with CFR teams across the UK, Responder Plus provides reference and reassurance for responders in life-saving roles. The app offers clinical skills photographs and anatomical diagrams to aid your understanding on the move.

COMING SOON

The Ambulance Driving Handbook

DTAG & AACE

ISBN: 9781801611503

Now in its fourth edition, this essential resource for professional ambulance drivers has been thoroughly updated and restructured to align seamlessly with the latest Emergency Response Ambulance Driving qualifications. This handbook will provide you with a safe basis for your driving practice and a better understanding of how you can minimise risk to ambulance drivers, passengers and other road users.

By mastering the principles in this book, ambulance drivers can ensure their actions meet the highest standards of safety, professionalism, and compliance, even under the pressures of urgent response scenarios.

Key features include:

- Brand new content on ambulance vehicles and local traffic regulations
- Legal exemptions and an overview of relevant legislation
- Fully up-to-date with current guidance
- Learning outcomes aligning to emergency ambulance driver courses
- Knowledge recap questions for each chapter so you can test your knowledge
- Full colour illustrations throughout

NEW RELEASE

Paramedic Research: Principles, Designs and Methods

Julia Williams and Graham McClelland

ISBN: 9781801611350

'Paramedic Research: Principles, Designs and Methods' harnesses the expertise of over 40 contributors, from across the UK and beyond, each offering a wealth of insight and experience. The result is a practical resource, guiding you through the entirety of the research process, from identifying areas needing investigation and designing research questions to data collection, analysis and presenting your findings.

This book draws on examples of research undertaken in settings that are familiar to unplanned, urgent and emergency care staff. This allows you to focus on the essential elements of research philosophies, principles and constructs without needing to learn about new healthcare environments.

If you are hoping to master the transformative power of research within the prehospital and emergency care setting, understand its relevance and embrace it as an integral component of clinical practice, then this book is for you.

"A rich and sophisticated resource for contemporary paramedic research, each page is infused with the experiences of its impressive authorship who strike the balance well between theoretical concepts and their practical application."

Professor Nigel Rees – Paramedic, Assistant Director Welsh Ambulance Services University NHS Trust and Honorary Professor, Warwick University Medical School

NEW RELEASE

Human Factors and Ergonomics in Health and Social Care

Mark Suján, Laura Pickup, Helen Vosper and Ken Catchpole

ISBN: 9781801610933

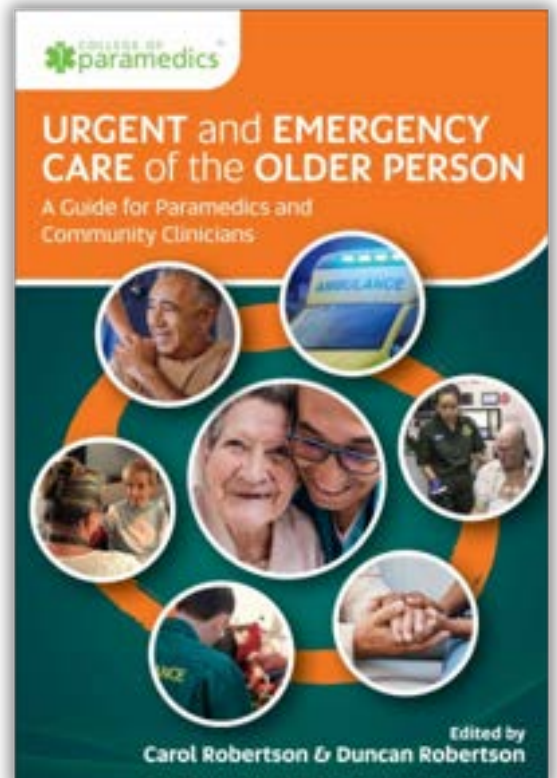

If you are responsible for implementing Human Factors and Ergonomics programmes within a health and social care setting – or if you just want to understand more about how the principles of human factors might apply to your role – this practical introduction will help you navigate your way around Human Factors and Ergonomics approaches within the healthcare setting.

Urgent and Emergency Care of the Older Person: A Guide for Paramedics and Community Clinicians

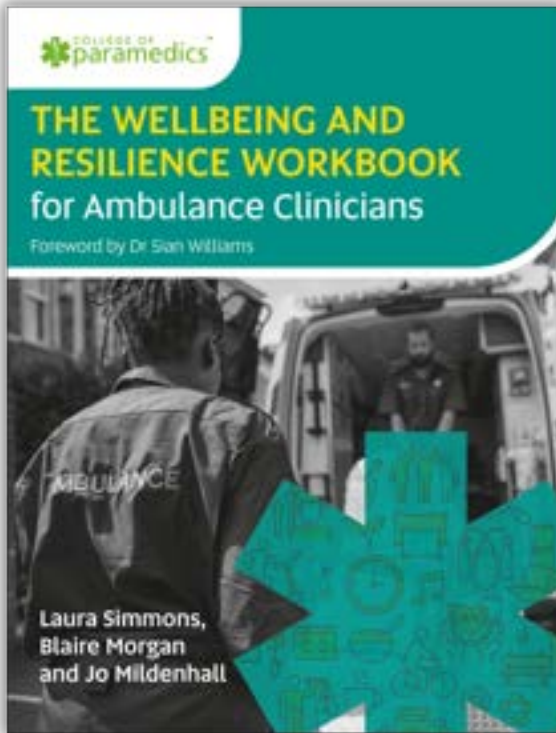

Carol Robertson, Duncan Robertson

ISBN: 9781859599860

This resource bridges a critical gap in prehospital education by enhancing the care of older patients. Featuring insights from specialist authors, it equips prehospital professionals, community clinicians, and advanced practitioners with the essential knowledge, skills, and guidance needed to provide holistic, person-centred care.

RECENTLY PUBLISHED

The Wellbeing and Resilience Workbook for Ambulance Clinicians

Laura Simmons, Blaire Morgan, Joanne Mildenhall

ISBN: 9781859599754

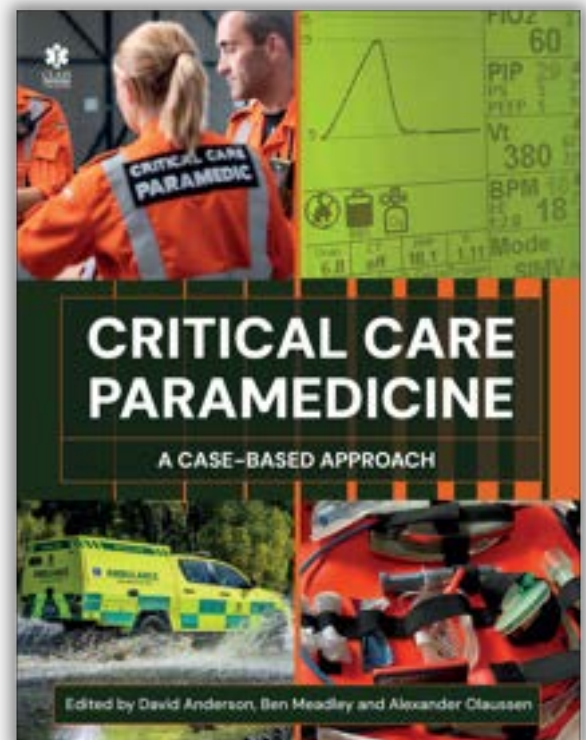

This interactive workbook is designed to support ambulance professionals and others in high-pressure emergency roles by promoting self-reflection, wellbeing, and resilience. It covers current challenges in wellbeing and resilience for ambulance professionals, including the shorter and longer-term consequences of COVID-19, plus wellbeing and resilience provision and funding.

Critical Care Paramedicine: A Case-Based Approach

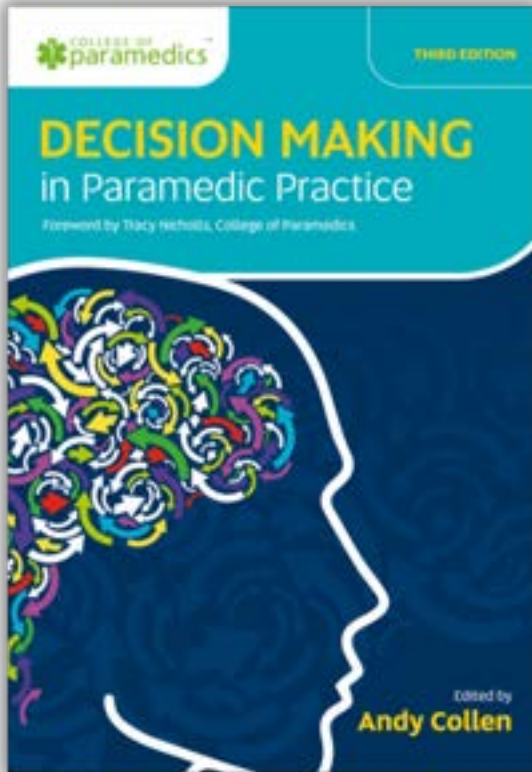

David Anderson, Ben Meadley & Alexander Claussen

ISBN: 9781801610377

Putting you in the centre of the action as a critical care paramedic, this book allows you to further your understanding and knowledge through in-depth case studies, expert insights and evidence-based guidance. It first presents you with a scenario, and then delves deep into the case details in order to challenge and assess your wider understanding of the situation.

RECENTLY PUBLISHED

Decision Making in Paramedic Practice

Andy Collen

ISBN: 9781801610148

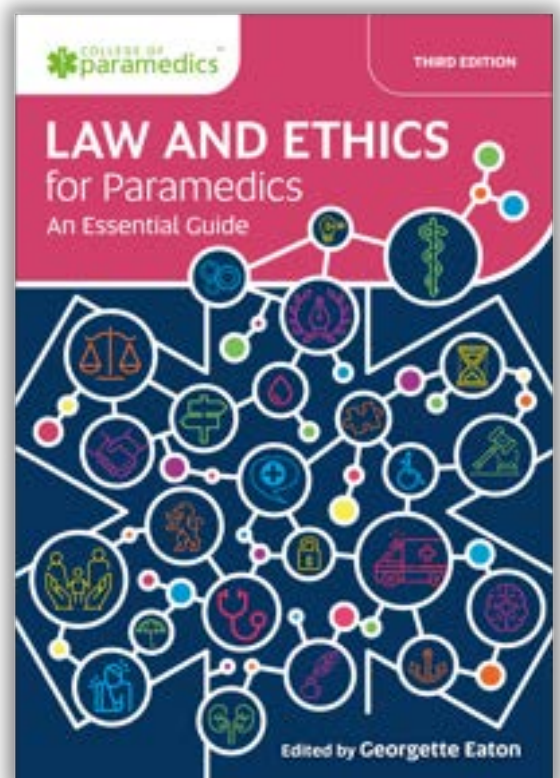

This third edition contains all the essential information to help you apply decision making to your clinical role as a healthcare professional. Chapters have been brought in line with the latest guidance, emphasising the importance and complexities of critical thinking and decision making relevant to all practice settings. The new edition also includes aspects of professionalism, understanding why things go wrong, and clinical leadership, as well as an additional chapter on inclusive decision making.

Law and Ethics for Paramedics

Georgette Eaton

ISBN: 9781801610131

This third edition, updated with the latest case law, legislative changes, and revised ethical considerations, offers an extensive primer for paramedic practice. It provides valuable insights for sound judgment and upholding professional integrity. A collaborative effort, with contributions from fourteen experienced paramedic authors, each chapter skillfully amalgamates the crucial principles of ethical thinking and UK law.

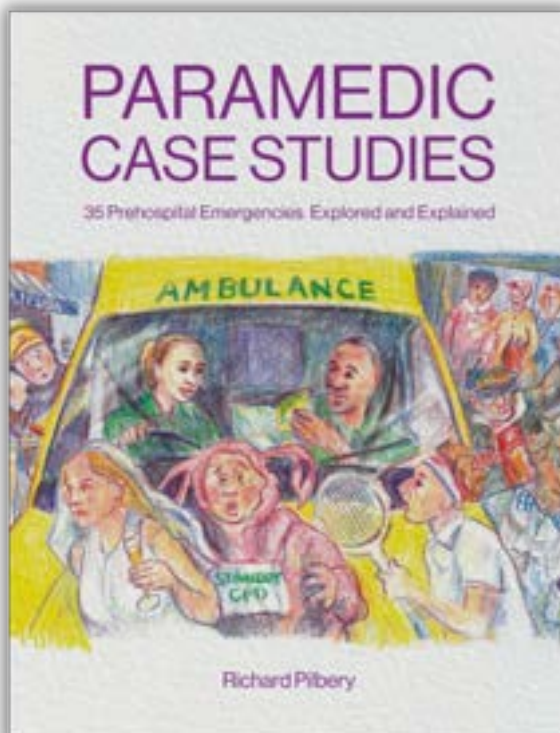

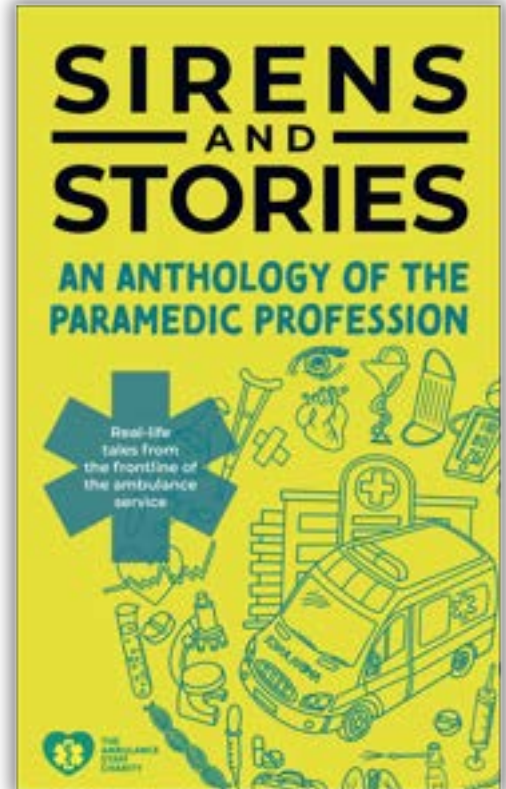

CASE-BASED

Sirens and Stories: An Anthology of the Paramedic Profession

Various authors

ISBN: 9781801610544

Forty six authors lend their unique voices to this anthology; their stories paint a moving and honest portrait of one of the most demanding, and rewarding, roles in the NHS. These accounts capture the life and death decisions made in emergency situations, the diverse calls that define a paramedic's role and, above all, the resilience, humanity, and humour required to deliver care in some of the most challenging circumstances.

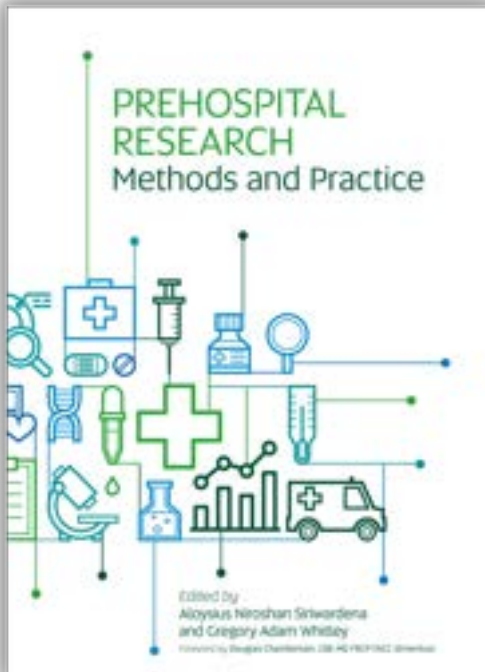

Paramedic Case Studies

Richard Pilbery

ISBN: 9781859599532

A fun and informative approach to learning, this book brings together a range of case studies from within prehospital care covering various conditions and situations, which you may face working in an ambulance setting. Paramedic Case Studies will guide you through a number of detailed and descriptive scenarios, putting you at the centre of the action, each accompanied by full-colour illustrations to help set the scene and aid your understanding.

RESEARCH AND PRACTICE-BASED

Prehospital Research Methods and Practice

Aloysius Niroshan Siriwardena
& Gregory Whitley

ISBN: 9781859599808

Written to support the needs of the paramedicine, emergency medicine and wider healthcare communities in this rapidly advancing research setting, the authors introduce the key areas of research design and methods, evidence-based practice, ethics and quality improvement for both the novice and the more advanced researcher.

Practice Education in Paramedic Science

Karen Gubbins & Sharon Hardwick

ISBN: 9781859596692

This book is an easy-to-use guide for registered paramedics hoping to become practice educators and those already taking on board the practice educator role.

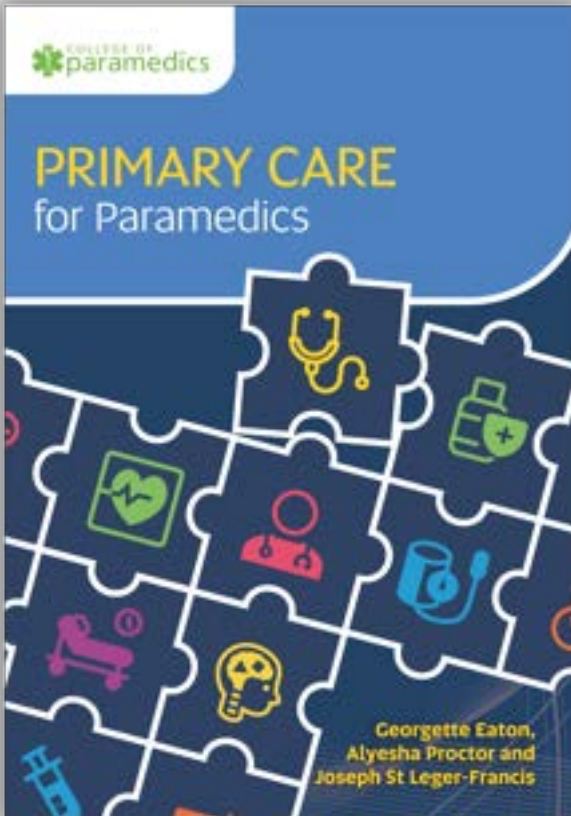

Paramedic Research: Principles, Designs and Methods

Julia Williams and Graham McClelland

ISBN: 9781801611350

Written to support the needs of the paramedicine, emergency medicine and wider healthcare communities in this rapidly advancing research setting.

PARAMEDICS IN PRIMARY CARE

Primary Care for Paramedics

Georgette Eaton, Alyesha Proctor
and Joseph St Leger-Francis

ISBN: 9781801610322

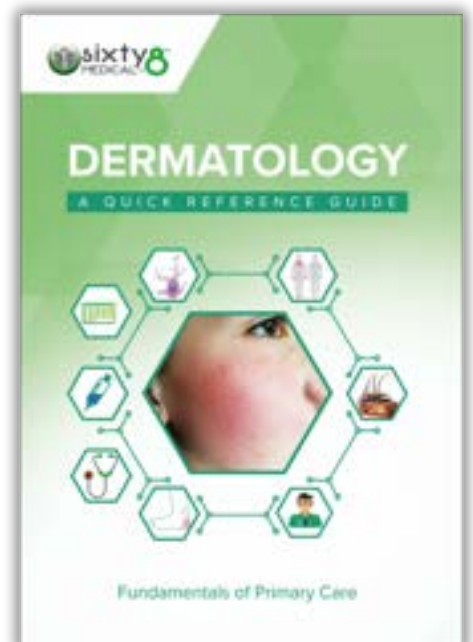

Primary Care for Paramedics is a core text exploring the fundamentals of the scope of the paramedic role within the world of primary care. Written and edited by over twenty clinicians in the field of primary care, this text is both a clinical reference for paramedics already practising within this area, whilst also providing prospective paramedics with the required theoretical underpinning and context necessary to build meaningful knowledge and understanding in this field.

Dermatology: A Quick Reference Guide

Sixty8 Medical

ISBN: 9781859598603

This comprehensive aid is packed with key information on skin problems including quick reference treatment guidelines and an A-Z of common skin conditions seen in primary care. Topics include pharmacology, infection, ageing, skin healing and wound management, plus more.

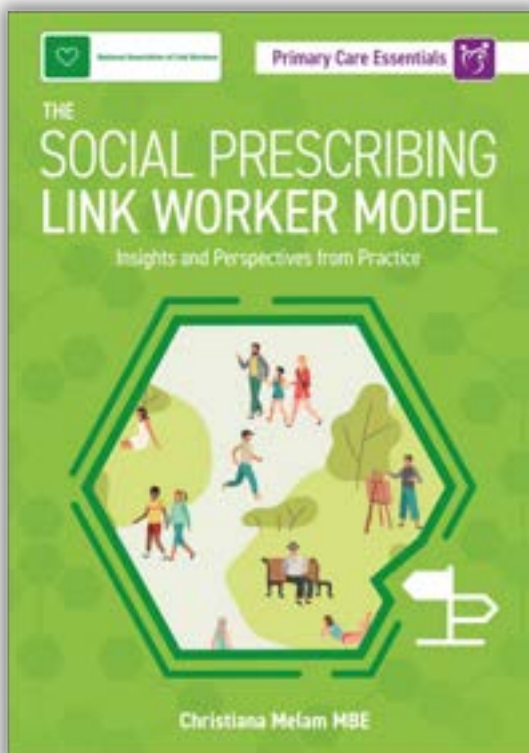

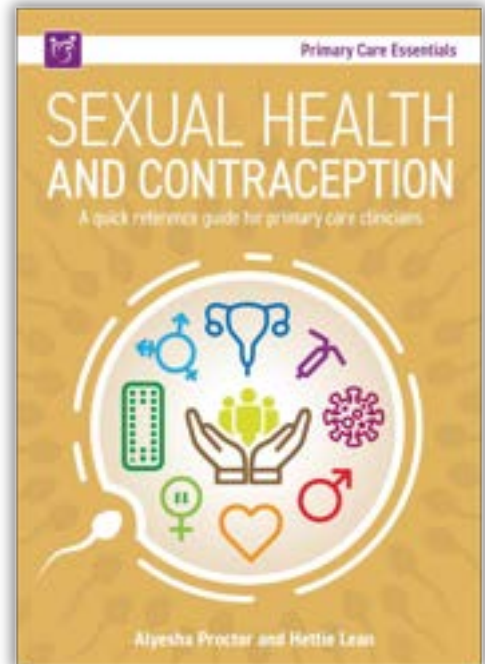

PARAMEDICS IN PRIMARY CARE

Sexual Health and Contraception

Alyesha Proctor and Hettie Lean

ISBN: 9781801610421

This quick-reference guide is packed with all the essential information you will need to know as a working healthcare professional. This is aimed at those who handle queries about sexual health and contraception during their day-to-day role and will equip you with the skills and confidence to sensitively address patient queries.

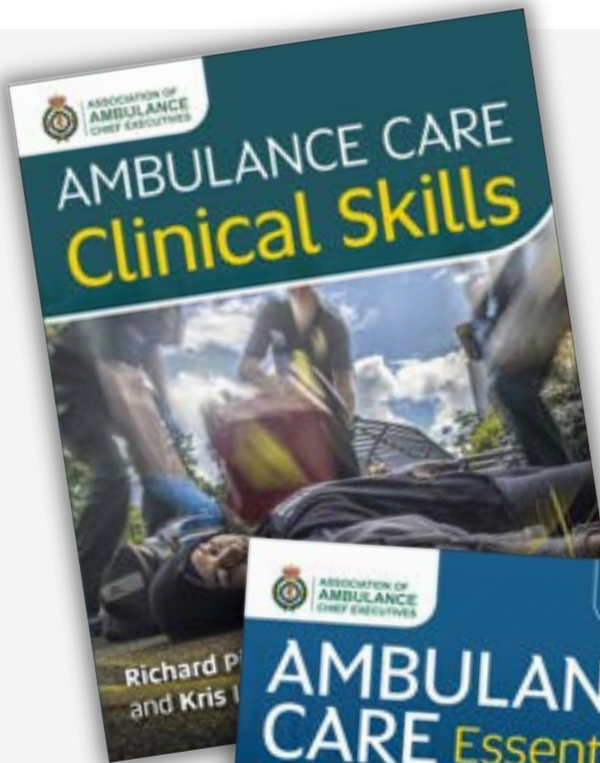

The Social Prescribing Link Worker Model

Christiana Melam MBE

ISBN: 9781801610001

This is the first book written specifically for Social Prescribing Link Workers throughout the UK, and is filled with insights and perspectives on social prescribing. Whether you are new to social prescribing or seeking a deeper understanding of the link worker role, this book is your go-to guide for comprehending the various complexities and identities of the profession.

BEST SELLERS

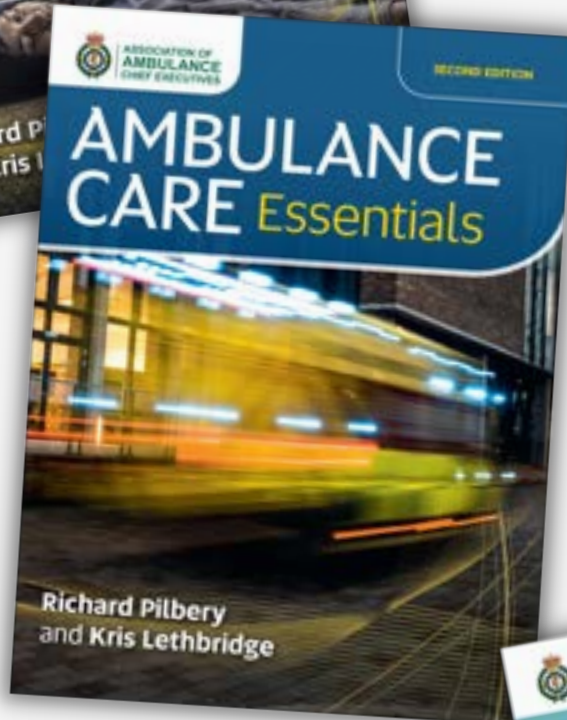

Ambulance Care Clinical Skills

Richard Pilbery and Kris Lethbridge

ISBN: 9781801610346

This resource is the go-to guide to familiarise yourself with the correct sequence and techniques for a range of different skills. This title makes each procedure easy to understand, with detailed step-by-step guidance and full-colour illustrations.

Ambulance Care Essentials

Richard Pilbery and Kris Lethbridge

ISBN: 9781859598528

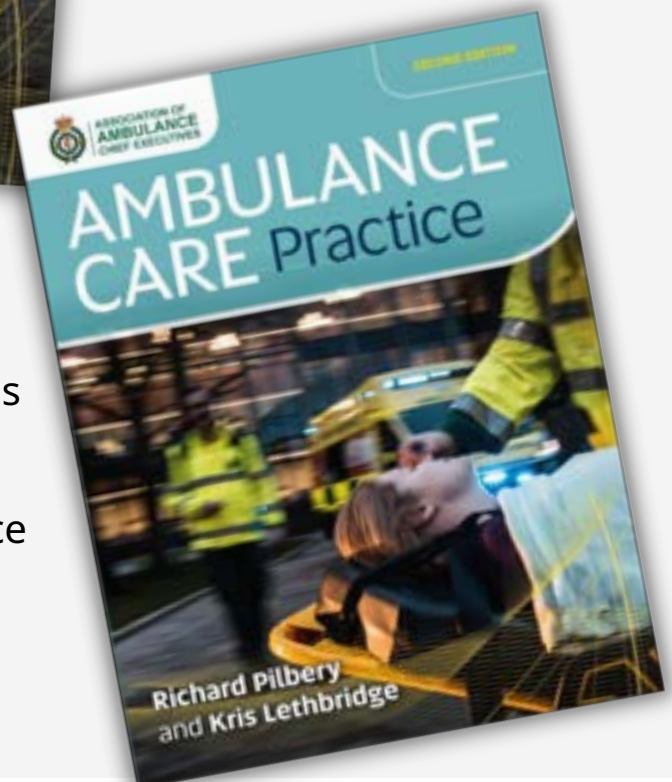

This title offers a complete guide to the skills, knowledge and understanding required to work as a support worker or similar within the ambulance service.

Ambulance Care Practice

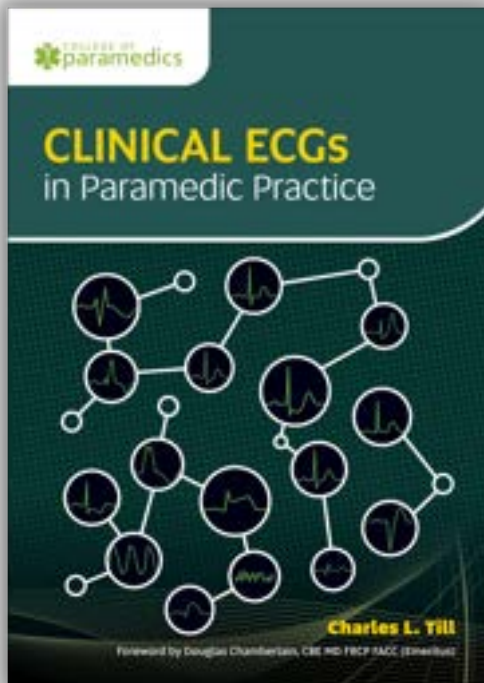

Richard Pilbery and Kris Lethbridge

ISBN: 9781859598542

This is an essential guide that provides a complete overview of the key skills, knowledge and understanding required to work within the ambulance service, covering theoretical aspects and practical application, as well as a range of different clinical procedures and patient populations.

ECG RESOURCES

Clinical ECGs in Paramedic Practice

Charles Till

With foreword by Douglas Chamberlain, CBE MD FRCP FACC (Emeritus)

ISBN: 9781859598696

Written specifically for paramedics and prehospital professionals, this title is a full-colour, concise and easy-to-use guide to cardiac electrophysiology and ECG interpretation. Topics include fundamental ECG interpretation and the basics of cardiac anatomy, to arrhythmia recognition and 12-lead ECG interpretation, all presented in independently accessible sections.

'This excellent book will be of interest and indeed of much value to anyone wanting to understand ECG interpretation. It is one that I can definitely recommend.'

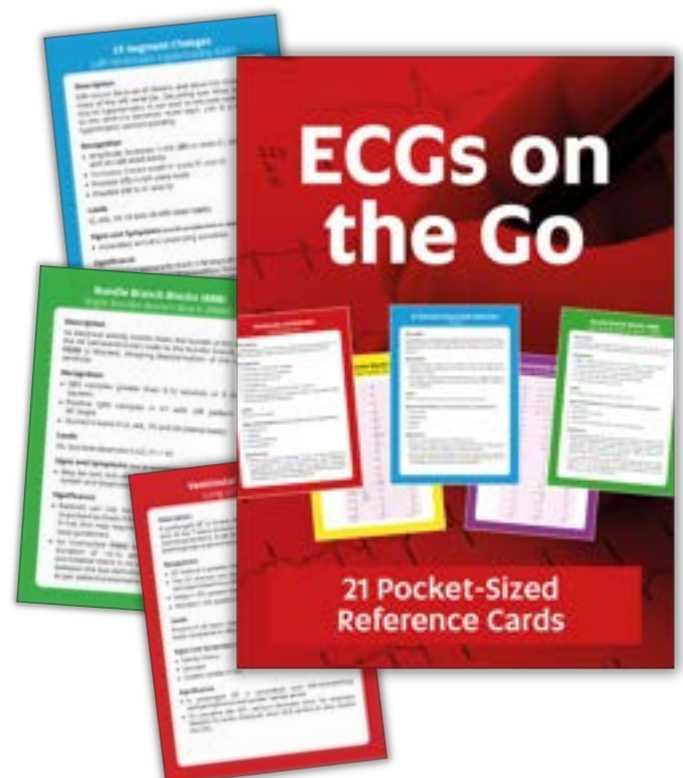

Douglas Chamberlain, CBE MD FRCP FACC (Emeritus)

ECGs on the Go

Steve Poulton

ISBN: 9781801610698

These pocket-sized, easy-to-read reference cards will enable you to feel more confident in your recognition and interpretation of the common 12-lead ECG rhythms frequently seen in the prehospital setting, along with their associated signs and symptoms. Colour-coded for accessibility, this resource is perfect as a quick reference learning tool whilst on the move!

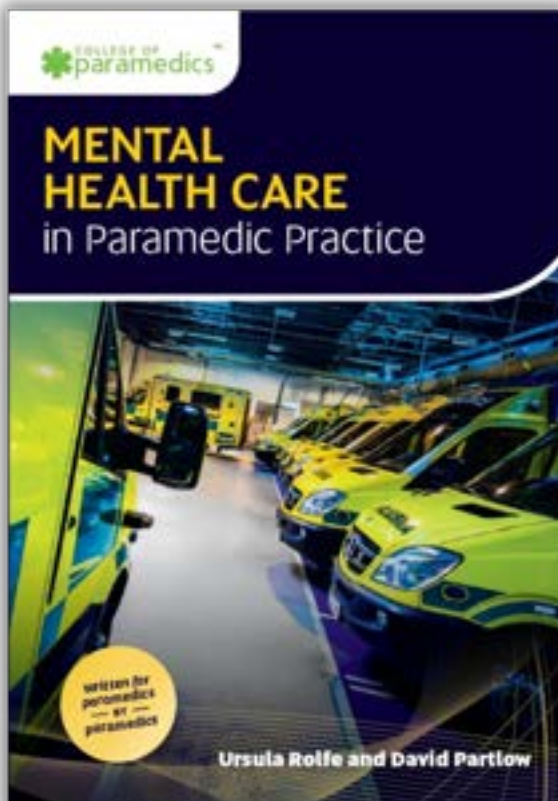

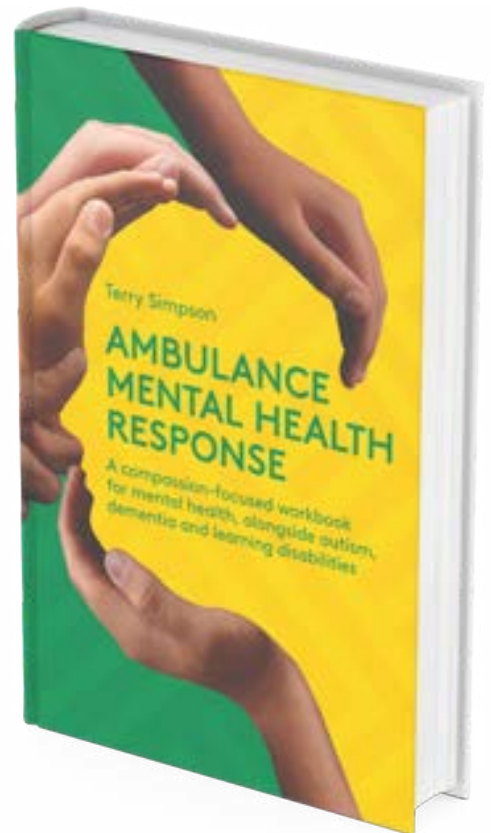

MENTAL HEALTH

Ambulance Mental Health Response

Terry Simpson

ISBN: 9781859599662

This resource provides the foundation of knowledge you need to navigate often-fraught situations with sensitivity and confidence. Encouraging an interactive approach, critical thinking, and practical application to reinforce your learning, this guide includes nine case studies, eight reflective exercises, seven workbook activities and further clinical tips.

Mental Health Care in Paramedic Practice

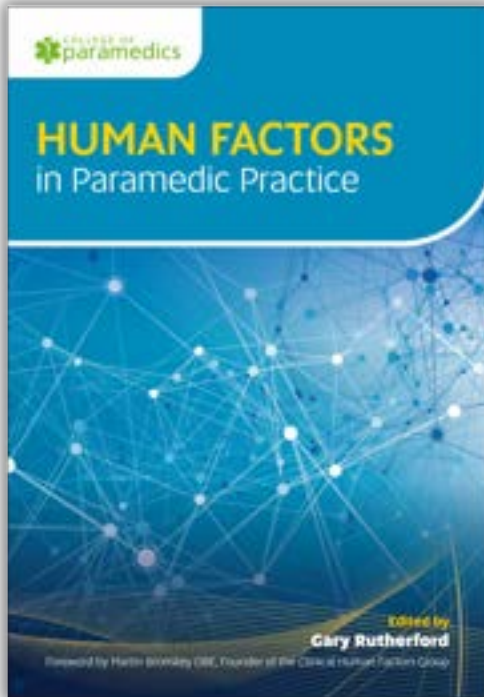

Ursula Rolfe and David Partlow

ISBN: 9781859599242

Not only does this book provide key information on recognising and managing a range of conditions, it also includes case studies written by paramedics with first-hand experience of managing mental health calls.

This book is essential for anyone wanting to better understand how to care for patients with mental health concerns within the prehospital setting, including both experienced and aspiring paramedics.

PATIENT SAFETY

Human Factors in Paramedic Practice

Gary Rutherford

ISBN: 9781801610124

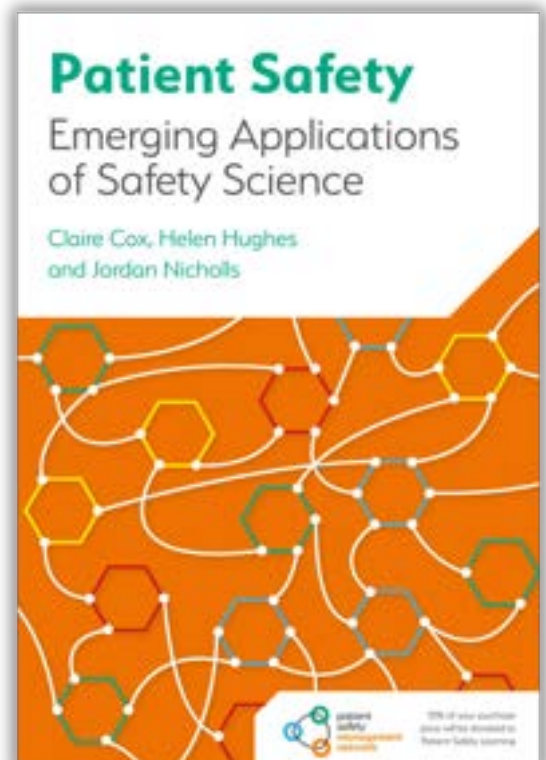

Written as an introduction to the discipline of human factors, the authors highlight key principles and theories and relate these to aspects of paramedic practice. This resource provides a firm understanding of systems thinking and design, enabling you to look for instances where the principles of human factors might be applied in your own practice. Whether you are involved in education, learning from events, procurement, or influencing safety culture, you will benefit from the tools and techniques provided throughout.

Patient Safety: Emerging Applications of Safety Science

Claire Cox, Helen Hughes & Jordan Nicholls

ISBN: 9781801610834

This book aims to explore this emerging safety sciences by leading experts and the practical application of them in different clinical contexts. Written by people who work in patient safety, and with chapters on subjects such as System Engineering Initiative for Patient Safety (SEIPS), AcciMaps and Human Factors, this book is for everyone with an interest in how the landscape of patient safety is changing and how to apply good practice for the reduction of avoidable harm.

END OF LIFE CARE

Palliative and End of Life Care

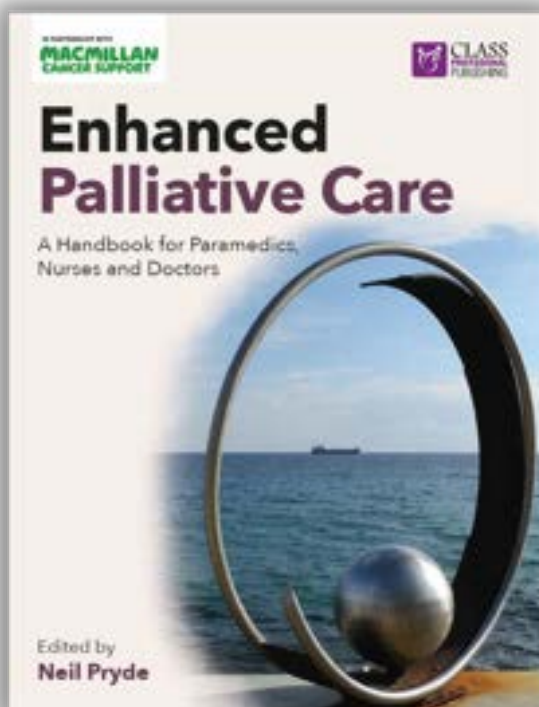

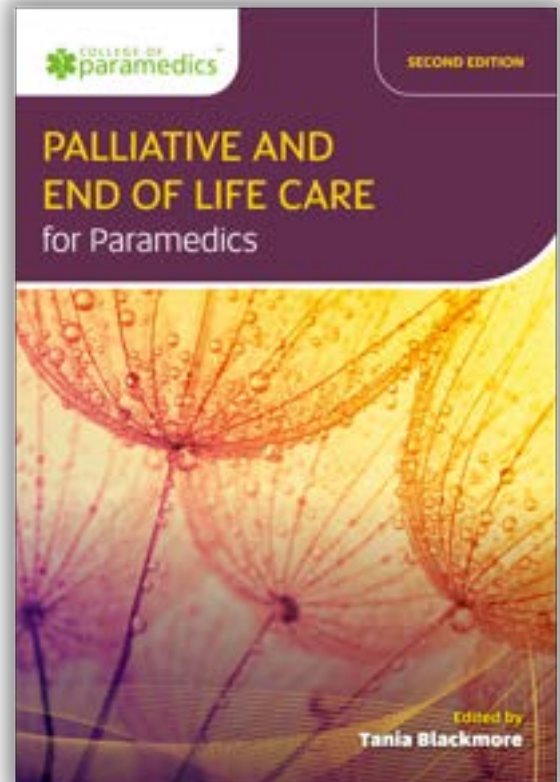

Tania Blackmore

ISBN: 9781859596715

Digging deep into the ethical and clinical aspects of working with palliative patients as a paramedic, this book is the go-to resource to enable you to act within the patient's best interests and provide the most appropriate and effective care.

"An extremely worthwhile textbook on an extremely challenging area of paramedic practice".

Marc Thomas, Lecturer

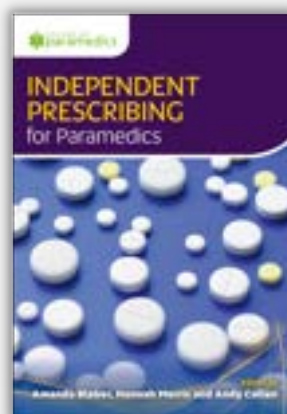

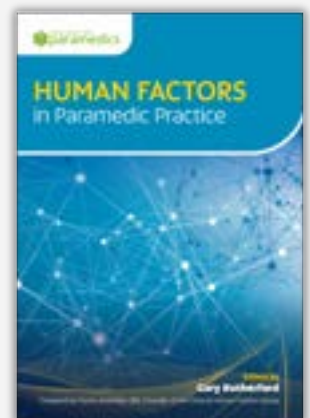

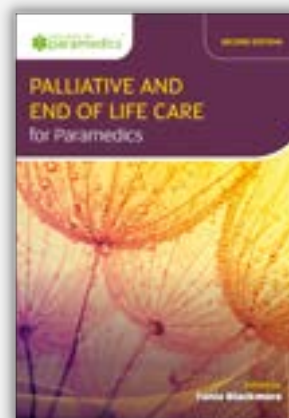

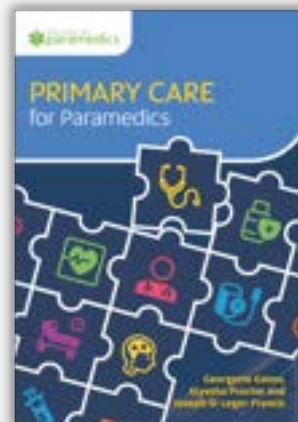

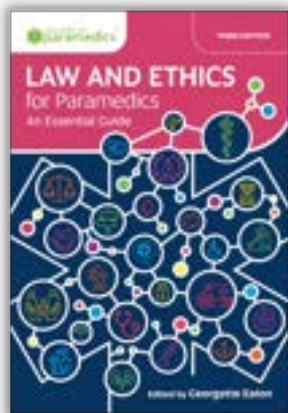

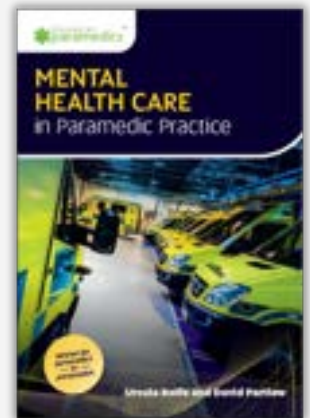

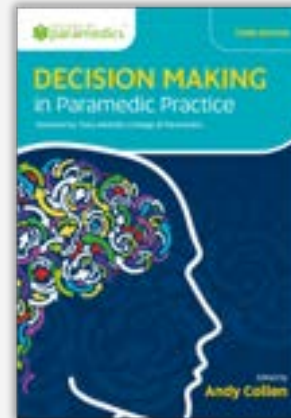

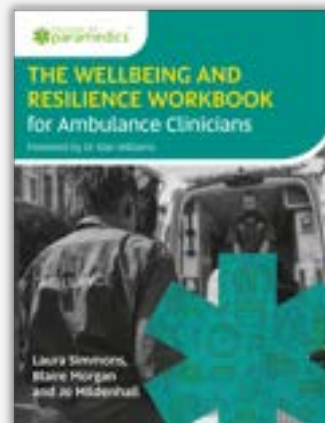

Enhanced Palliative Care

Neil Pryde

ISBN: 9781859598757

Backed by Macmillan Cancer Support, this informative textbook provides a comprehensive overview of the principle areas you may encounter whilst working with adult palliative and end-of-life patients, and their families. The topics covered include approaches to palliative care and symptom management in a wide range of conditions and populations, with chapters linked to case studies to encourage interactive learning and understanding.

COLLEGE OF PARAMEDICS SERIES

WRITING FOR CLASS
