

Clinical Courses

From trauma management and advanced life support to critical decision making, our clinical courses are designed & delivered by our Enhanced Care Team to equip healthcare professionals with the skills and confidence to provide exceptional care.

Pre-Hospital Emergency Medicine (PHEM) Courses

Scenario-based training in our advanced simulation facilities aligned with FIMC, DiplIMC, and advanced practice pathways.

PHEM Assist Courses

Designed for paramedics and students to build strong foundations in clinical skills, scene management, and patient care.

Other Clinical Courses

Training to support continuous clinical development for all clinical environments.
