

For All Missions

DISC-BED

At Disc-O-Bed® we are passionate about more than just sleep solutions. Deep, loyal and longlasting partnerships are our base to ongoingly seek for best possible interaction and performance of equipment and user. Our products are proofed and ready for any operation.

As a family-run business we have been driven by the perfect support for your missions and operations for over 30 years. Our experience and the frequent exchange with our project partners and customers ensure our progress, product and process optimisation – even though one thing has remained nearly unchanged: Our proofed disc system from the early days.

The disc system has always ensured simple, fast, completely tool-free assembly and continues to set standards in quality, stability, durability and resilience. Hinges that break quickly, rivets that simply come loose and, above all, the days of back pain have ended: Pressure marks caused by crossbars and feet are forever gone with the clever Disc-O-Beds.

Disc-O-Bed® puts an end to the cliché of uncomfortable, short-lived and above all unsanitary camp beds. Whether you're on duty, on standby, on your next mission or providing accommodation for the needy or refugees – with Disc-O-Bed® you always take sleeping comfort and security with you! With our wide range of accessories we create even better and more cozy and comfortable accommodation for you – let your imagination run free!

Hygiene – often underestimated when sleeping: easily removable and washable sleeping mats on all Disc-O-Bed® ensure a restful sleep and a fresh and clean feeling every single time.

Quality and sustainability – with Disc-O-Bed® not just words, but a responsibility that we live every day. We believe that companies can make a real difference, not only through their products, but also through their commitment. Responsible use of our planet's resources is very important to us: We reduce unnecessary packaging and use recycled and sustainably sourced materials and packaging wherever possible.

Disc-O-Bed® has been committed to protecting wildlife for years and is since years partner of WWF. Species conservation is important to ensure that future generations can experience the beauty and diversity of the earth.

We also create sustainability by not just promising but ensuring quality: Disc-O-Bed® offers a 5-year guarantee for beds and bed systems. The availability of every single part of our beds as a spare part also ensures extreme longevity and the conservation of resources.

DISC-O-BED

5 JAHRE GARANTIE
5 YEAR WARRANTY

What sets us apart from competition, what is special about Disc-O-Bed®?

Crossbars and cross feet, which slowly press into the back or sides and rob you of your sleep have never been an option to us. Our beds and their sleeping mats take the strain off the back and ensure a restful sleep – day or night!

The extremely high load-capacity of all our beds allows two people to sit on our beds, or even three if a bunk bed is converted into a bench for the day. Perfect for chilling out and catching your breath, discussing assignments, missions and other activities.

The disc system ensures simple and virtually effortless assembly without any tools. We use compact and extremely robust carrier bags for space-saving and dust-protected transport and storage of our beds.

Clever added value thanks to the disc system: single bed, bench or space-saving bunk bed. Create valuable space and save on other expensive equipment in the tent because with Disc-O-Bed® you can easily accommodate more people in less space and need less tents, less heating and air conditioning units.

With our rust-resistant steel frames we ensure load capacities up to 272 kg and create reliable stability and durability even under the most extreme conditions.

Our useful accessories such as organizers, cushions, toppers and much more will help you and your mission to success in a more relaxed way right from the start. Store personal items, optimise your sleeping comfort and use space under the beds to store turnout clothes, shoes and any other equipment in the footlocker.

Our tents and mosquito nets protect you effectively from insects and critters in the great outdoors, as they literally keep unwelcome visitors at arm's length. Calm, restful and carefree sleep – without any buzzing and crawling on your head and body - for an energised start into the next day.

You benefit from our decades of experience in emergencies and crisis situations worldwide, which we have gained working with the military, the Red Cross, the German THW and civil defence departments, as well as with numerous other relief organisations, where our products have always been a reliable and trustful partner! Whether in the Arctic, the desert, the jungle, in refugee or troop camps – Disc-O-Beds® have been tried and tested worldwide under the toughest conditions and requirements. You can rely on Disc-O-Bed® – that's a promise!

Quality and proven safety are important. For your successful deployment we focus on both – the German TÜV tests our beds ongoingly for their suitability and certifies them with "proven safety".

Ph. Giulia Zucchini

Disc-Bed and Disc-Bunk

The heroes of crisis prevention

With the Disc-Bed, the quick and space-saving provision of resting places in crisis situations becomes easy and efficient. Thanks to its compact dimensions it is space-saving in storage and transport and just as quickly set up. Solid footing, even on rough terrain, ensures a high level of sleeping comfort. In varying requirements as well: Disc-Bed is as flexible as you are.

Being able to react flexibly – and systematically: adding a second Disc-Bed turns the single solution into a Disc-Bunk – sleep space for 2 on the footprint of 1! The required adapters and safety belts are already included, which also allow the use of the system as a bench.

People in need, refugees, emergency services – everyone can rely on Disc-Bed as well as on Disc-Bunk – simply take a breather and gather fresh strength.

Disc-O-Bed® TREND Topper L & XL

For frequently changing occupancy in the troop

The unique HR cold foam provides pressure relief and a perfect lying sensation. What we call the "Soldier Proofed Toppers" are designed for the heaviest loads and requirements at the lowest possible price.

For changing occupancies especially the TREND topper features a soft PU full protection cover. It tolerates wipe cleaning with strong cleaning agents, disinfection with common disinfectants and machine washing up to 95°C.

Our 4-times foldable toppers can be stored and transported in a space-saving manner. They are designed to fit all Disc-O-Bed L- as well as XL-beds, the BUND-Bed and the 2XL. Our TREND toppers are also suitable for other camp beds in L or XL.

These toppers are attached to the Disc-O-Bed bed frame using straps. Our TREND toppers are robust, durable and extremely hard-wearing. They are "Made in Germany".

The PU full protection fulfils fire protection classes as per BS6807 Crib5 / BS 7175 Crib 5 / DIN EN 6597-1 & 2, EN ISO 12952 1-4.

Storage and Transport solution

We unbox your beds and store them best possible

Our passion is not only to create clever sleep solutions and comprehensive accessories, we also look for the best approaches for you in handling and logistics of our goods.

Storing and transporting Disc-O-Beds in best possible compact space is a key requirement we aim to fulfill.

As a stackable storage and transport solution "Beds in a Box" offers the optimum provisioning for crisis or next deployment.

With rolling bases or simply as an Euro pallet version you can focus on transporting your beds to the place of use. This creates mobility and flexibility in the fastest possible way. All this is available in standard containers such as lattice boxes, Auer boxes, wooden frames, etc.

You can store up to 53 beds optimally packaged on one pallet space, simply remove them from storage and just as easily put them back after use.

We will be happy to advise you according to your requirements and develop concepts for you.

What about fastest possible installation of treatment, accommodation and sleeping places in crisis situations?

Speed counts in unplannable crisis situations – that's why we've already done the unpacking work for you – this saves you valuable time. There is space for 20 Disc-O-Beds in a 120 lattice box, with additional accessories of your choice if required.

Our storage solution for additional treatment or sleeping capacities that can be installed extremely fast is mobile, space-saving and perfectly suited for crisis provision. A perfect solution for hospitals, major events or any civil defence contact points.

The time saving of "not having to unpack" during setup is enormous – the required number of beds from the lattice box is assembled up to 65% faster. The same applies to the disassembly!

An emergency room with 20 spots can be assembled in less than 60 minutes.

In these uncertain times, the ability to plan for the supply of the population is essential and hospitals, barracks and municipal shelters are quickly overwhelmed in the provision of sleeping and treatment places.

Rapid deployment solutions are available for almost all Disc-O-Beds, and the configuration can be customised.

Thanks to our 2-page quick assembly instructions, there is no need for lengthy orientation and leafing through several pages of assembly instructions. This way, even laymen can set up any Disc-O-Bed faster than ever.

Emergency Bundles by DISC-O-BED®

The complete package for self-sufficient emergency provisions

Crisis situations cannot be planned for and come unexpectedly. Having time but being prepared and able to react to the uncertain and unpredictable is essential.

Disc-O-Beds 5-year emergency bundles, which can be stored without worries, provide a complete supply for 10 people for 7 days. And not just for comfortable and restful sleep with our beds and sleeping accessories.

The selected equipment is stored in a 160 lattice box on a roller base and can therefore be transported from the storage location, which requires little space, to the place of use.

The goods in the lattice are protected from light and dust with a cover and the lattice is additionally shrink-wrapped.

In addition to self-sufficient lighting solutions, water filtration, hygiene kits, separation toilets, disposable wipe sets and cooking utensils, food rations for 7 days that can be stored for at least 5 years are also included for emergencies.

We offer a special service for perishable items:

We monitor the best-before date for you and replace affected items in good time. We also replenish used items for restocking after use.

So you'll be prepared for the next unplanned and unexpected mission.

Is something missing? Would you like a little more?

Our bundles are customisable.

Feel free to ask!

in print or as embroidery

Printing Service:

We label your beds and/or bags with the logo of your organisation. This way your property is immediately recognisable, even in unmanageable dismantling situations or in supra-regional crisis operations. Stay sure to have your own "Disc-O-Bed" back.

Customized logos and lettering which are created with screen printing technique are printed on using thermal printing. They are available in full colour or in black and white. The prints are of high quality and therefore durable and washable. Widths of up to 40 cm can be realised.

As we do this directly here at Disc-O-Bed, the production time required is absolutely manageable.

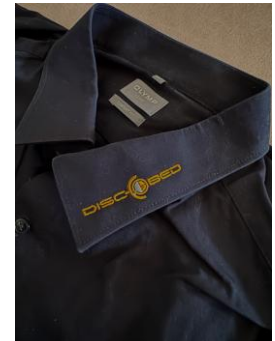

Embroidery Service:

Even higher quality than with thermal printing, we can customise the sleeping mats with an embroidery of your logo.

What applies to the beds is of course also possible on your operational clothing or other accessories.

Simply contact us by email at info@discobed.de.
We will be happy to create a customised offer based on your requirements.

ACCESSORIES – USEFUL ADDITIONS

Photograph: Tarpulin - CHILE

Disc-O-Bed® TENT

The spacious tent for Disc-O-Bed bunks

Our waterproof 2-person tent with generous space. Hard-wearing and weatherproof nylon fabric with 5000 water column ensures peace of mind in any weather. Due to the design, anchoring the tent is absolutely necessary. Guy ropes and solid ground pegs are included, as are the sun canopy poles.

The telescopic rods made of fibreglass, aluminium and reinforced plastic connectors plus the completely pre-assembled tent fabrics allow quick assembly and disassembly in just a few minutes. Mosquito nets on 3 sides ensure insect-free evenings and nights and optimum ventilation. The side covers can also be lowered only halfway to provide protection from sun at top while allowing a draught at bottom.

Disc-O-Bed's innovative standing tent offers massive comfort, a perfect storage space and ample room for changing while standing up, especially when combined with a Disc-O-Bed bunk bed. During the day, the bunk bed can be converted into a bench to have a cozy relaxing zone.

Setting up Disc-O-Bed® TENT is child's play:
Unpack – unfold – pull out – anchor – done!

The TENT can be stowed away in a compact bag to save space until next mission calls.

SPECIFICATION

70001	
Weight	10.5 kg
Material	Fibreglass telescopic poles, 200D nylon, 210D polyester, UV50+ stabilised
Outer Dimensions	280 cm (L) x 155 cm (W) x 220 cm (H)
Pack Size	100 cm (L) x 30 cm (W) x 20 cm (H)
Sun Canopy	160 cm (L) x 145 cm (W)
Special Features	Telescopic rods, roof ventilation, 3-side access, mosquito nets on 3 sides, rain protection window at the rear

MOSQUITO-TENT by

Mobile tent for Disc-O-Bed single beds

The Mosquito Tent impresses with its ultra-compact pack size and the quick assembly and disassembly. Ground pegs for optimum ground anchoring are included.

The weatherproof and waterproof rainfly is available as an optional accessory. The hard-wearing and weatherproof nylon fabric with 5,000 water column provides perfect shelter in any kind of weather.

The fibreglass plug-in poles allow assembly in just a few minutes. The tightly woven protective mosquito net is simply hooked into the poles using holders.

In combination with a Disc-O-Bed single bed, our mosquito tent offers comfort and generous storage space. Using 2 air mattresses even two people can spend the night perfectly protected from insects in the mosquito tent.

Disc-O-Bed® DOG-BOWL

The mobile foldable pet bowl

Two foldable silicone bowls provide food and water in the field. The folded bowls with their bag hardly take up any space and fit in a handbag, the backpack or in the pocket of dog beds.

Thanks to the Velcro fastener, the bowls can be removed and cleaned easily and can even go in the dishwasher. Dog Bowl is the perfect companion for all kinds of missions and operations.

SPECIFICATION

65FPB	
Weight	0.5 kg
Material	FDA-certified, food-safe Silicone, polyester bag
Dimensions	Diameter 16 cm, height 8.5 cm
Filling Quantity	approx. 700 ml per bowl

LED torches

Innovative multifunctional torch with flashlight, magnets and integrated power bank

Optimal in the field: the addition to Disc-O-Beds. The ultra bright X5s have a light range of up to 150 metres. The integrated bar light provides a reading light (80 h), tent light (12 h), work light (5-6 h), SOS and alarm light (50 h) and an orange-coloured mood and mosquito repellent light (5-6 h).

X5s wavelength repels mosquitoes.

For trouble-free use the X5s are splash-proof (IP65), shock-proof and extremely robust.

X5 Mini (19095) is merely shorter (15 cm), has lower output (150 lumens) and comes with a smaller power bank (2,500 mAh).

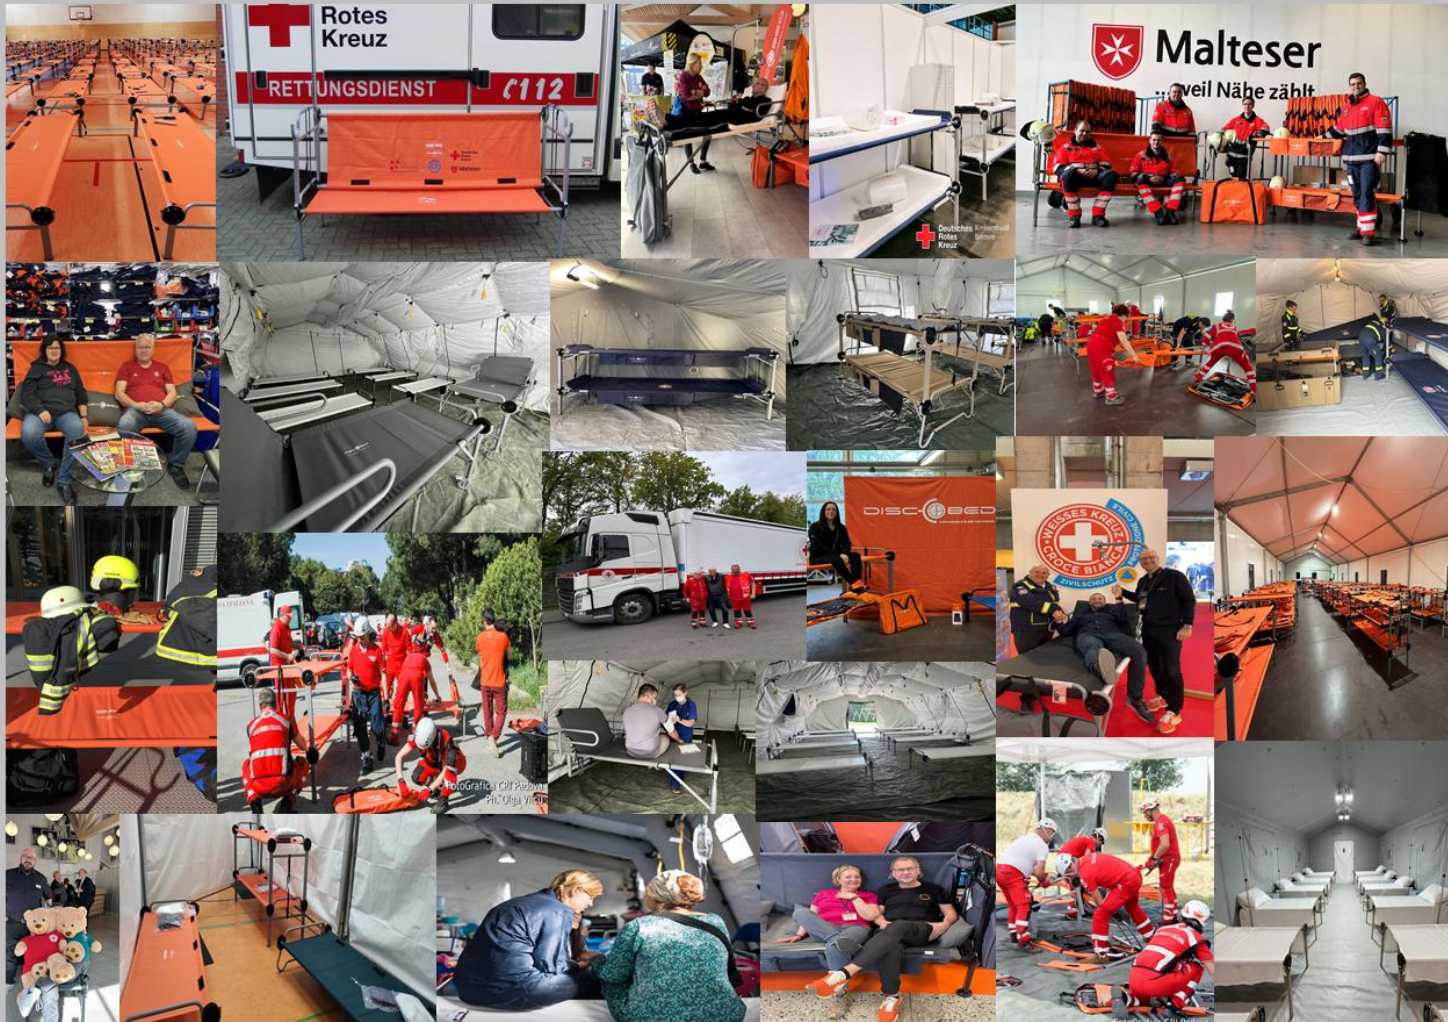

- The mosquito repellent light does not offer 100% protection against bites, but it does reduce the number of mosquitoes within its light radius.

SPECIFICATION

19096 X5	
Weight	0.25 kg
Light Output/Colour Runtime / Output	200 lumen maximum / 6,000 k (cool white) between 6 to 80 hours / 2.0 watts
Outer Dimensions	24.2 cm (L) x 3.5 cm (W) x 3.5 cm (H)
Special Features	Li-Ion power bank with 4,000 mAh, 3.7 volts 2 strong magnets, 3 hours charging time, 4-stage charge level indicator, 6 light modes
Content	USB-C charging cable, wrist strap
