

HOW CAN WE HELP?...

OurJay will consider any site for an accessible defibrillator. We can help towards cost, location, electricity access, insurance, fundraising and awareness & information sessions.

An accessible defibrillator (including vandal proof cabinet) currently costs £1200.

A portable defibrillator costs £770 (no cabinet).

But... it costs nothing to ask the question!

Just so you know...

- A defibrillator can be installed on a building/gate/fence/post.
- If you do not own the building, you will need permission from the person/company that does.
- Accessible defibrillators can be insured.
- You take the defib to the patient, not the patient to the defib.
- Once ordered, an OurJay accessible defibrillator takes approx 1 week to arrive.
- Accessible Defibrillators save lives!

OurJay Foundation

ACCESSIBLE DEFIBRILLATORS

OurJay Foundation was set up in memory of our precious Jamie, who suffered a cardiac arrest at New Year 2022, aged just 18. Sadly, no accessible defibrillator was nearby to help save Jamies life.

COMMON QUESTIONS

Q. HOW DO I GET THE CODE TO ACCESS THE DEFIB?

A. YOU DIAL 999 AND GIVE THE DEFIB LOCATION, YOU WILL THEN BE GIVEN THE ACCESS PIN CODE.

Q. WHEN WILL THE PADS NEED REPLACING?

A. APPROXIMATELY EVERY 3 YEARS (OR AFTER USE).

Q. DO YOU HAVE TO CHARGE A DEFIBRILLATOR?

A. NO, THE BATTERY DOES NOT REQUIRE A CHARGE AND LASTS APPROXIMATELY 3-4 YEARS (IF STORED AS ADVISED).

Q. IS THE ELECTRICITY NEEDED FOR THE CABINET EXPENSIVE?

A. THE COST OF THE ELECTRICITY FOR THE CABINET COSTS APPROXIMATELY £10 PER YEAR.
