

PETER JONES

CARRY IT, PROTECT IT

Who are we?

In 1967, the handheld calculator was invented, Aretha Franklin scored her first number 1 hit with “Respect” and Peter Jones (ILG) Ltd was established.

Founded on the craftsmanship of our namesake and founder, Peter Jones, the business has developed and grown to become a leading designer and manufacturer of accessories for the emergency services, security and worker safety sectors. A Welsh-based family business, Peter Jones is a pioneering force in UK manufacturing with clients across the globe.

Quality and Sustainability

We're committed to quality, sustainability and doing right by the environment.

ISO 9001: 2015 Quality Management System

Customer satisfaction is maintained by strict adherence to ISO 9001: 2015 Quality Management System.

ISO 14001: 2015 Environmental Management System

We're certified to ISO 14001: 2015 Environmental Standard. This helps us improve our environmental performance through a more efficient use of resources and the reduction of waste, while managing our environmental obligations, and reducing our overall environmental impact.

Bespoke Service

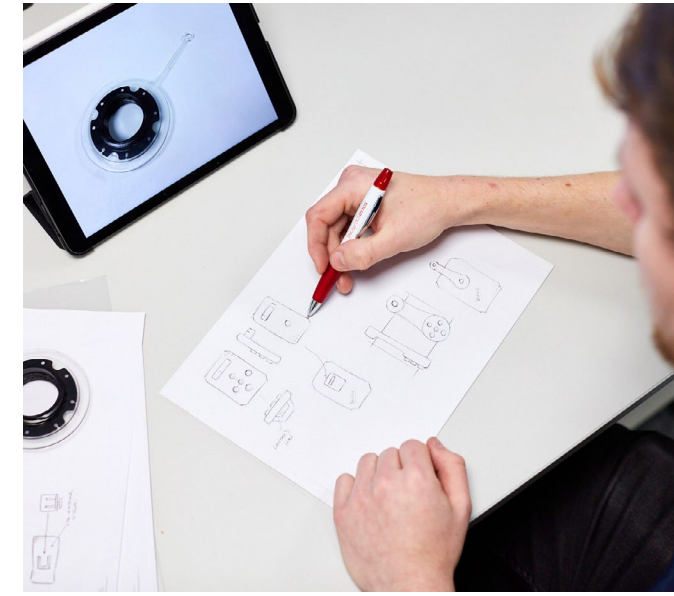

Combining experience with innovation and technical ability, our skilled Design and production departments can develop bespoke solutions for our customers' carrying and protection needs. We have the in-house tooling capabilities to create prototypes at speed and with accuracy.

Manufacturing Service

We've been manufacturing with leather, textiles and moulded parts from our factory in the UK for over 55 years, overseeing every stage of production from design to delivery.

It's Klick Fast when it says Klick Fast

Klick Fast by Peter Jones is guaranteed for 50,000 uses.

How? Our exclusive polymeric formula and unique manufacturing process make it that way. And it's always made in the UK.

How Klick Fast works

The Klick Fast System sets the standard for carrying radios, body cameras and other portable equipment.

It provides a versatile, reliable & easy to use carrying system that will not let users down.

At the heart of the Klick Fast System is the Connector.

Whether built into gear or retrofitted, the Connector can be fixed to a wide range of holders, cases and devices.

It clicks effortlessly into any Klick Fast Dock, locking devices firmly in place. Rotate it to one of seven fixed positions for the perfect angle, then get on with the job.

And when it's time to undock? Just rotate and slide it free.

**Wear what you need,
where you need it.**

Have your device with a Klick Fast Connector securely on the back.

Slide the Connector into the Dock until you hear the click.

Rotate for comfort and convenience, 7 secure positions.

To remove, rotate the device until it is upside down.

The device can then be undocked.

Klick Fast Connectors

When attached to a device or holder, the connector slides and locks easily into any Klick Fast Dock. Made from our unique polymeric formula which ensures a reliable & secure attachment time after time.

Seven Ratcheted Positions

Once docked, the device can be rotated to any of seven ratcheted positions ensuring comfort for any situation, from walking, sitting the in the car, or preferred holding positions. It is undocked quickly and easily by rotating to its inverted position and sliding it free.

Klick Fast Standard Connector

FG-41-000006

Tried, tested & trusted

Klick Fast LT Connector

FG-44-000003

The Klick Fast LT Connector is only compatible with Klick Fast LT Docks (please see pages 32-35). This robust Connector is made to bring your devices 60% closer to your body compared to standard Klick Fast.

Klick Fast Ultra-Lock Connector

FG-41-000075

A Klick Fast Connector with a double-lock for extra security. The Klick Fast Ultra-Lock Connector requires an additional action to remove the device or equipment from the Klick Fast Dock. Extra security makes this Connector ideal for the most physically challenging situations.

Klick Fast Go Connector

FG-41-000074

A Klick Fast Connector that doesn't need to be inverted to release devices and equipment – just grab and go. Ideal where immediate release is more important than high security. Suitable for RSMs or tethered devices.

RSTUDKFTORCH

FG-17-000001

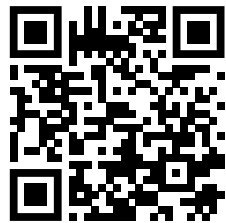

Adjustable Torch Holder with Klick Fast Connector to Fit Torches with 20mm - 30mm Diameter.

Klick Fast Stick-On Connector

FG-41-000076

Klick Fast Stick-On Connector with Affixed Self-Adhesive Pad for Attaching to Device. Suitable for light to medium use, the Stick-On Connector means Klick Fast can be compatible for mobile devices.

Need an adapter plate for your device?

We have hundreds of options and would love to discuss any bespoke requirement at sales@peterjonesilg.co.uk

Klick Fast Castellation

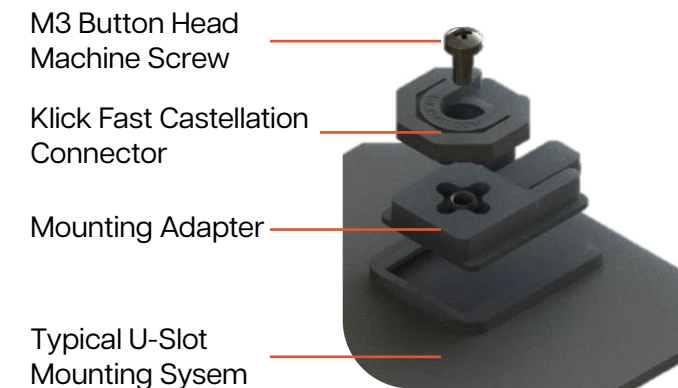

The Klick Fast Castellation Connector is the lowest-profile connector in the range, designed to integrate directly into the back of devices such as body-worn cameras, gas detectors, and radios. It enables secure, hands-free use when paired with Klick Fast docks, while keeping device bulk to a minimum.

Key Benefits

- Reduced cost and environmental impact
- Smaller device footprint with simpler integration
- Reliable, secure docking performance

Castellation Clover

The Castellation Clover is the dedicated receiver for the connector, offering a highly compact solution (under 662 mm³) with minimal spatial impact, even in small devices.

Klick Fast Castellation Connector with Device supplied with Clover System

Klick Fast Docks

Thanks to its wide range of Docks, the Klick Fast System can mount virtually any portable or wearable item. Docks are designed for flexible installation on garments, belts, lockers, vehicle dashboards, rucksacks, and even bicycle handlebars. They can be attached non-invasively or fixed using threading, sewing, adhesive, screws, or magnets.

Made from our unique plastic formula developed specifically for Klick Fast, it's the reason Klick Fast can be used repeatedly & reliably, resisting wear & tear to retain a secure, tight, and dependable hold.

**Wear what you need,
where you need it.**

Moulded Belt Docks

Convenient, lightweight & recyclable, our single piece Klick Fast Docks thread onto a trouser or duty belt—ideal for securely carrying PAVA spray, radios, handcuffs, and more. Two lower loops allow lanyard attachment, helping prevent devices from dropping when disconnected.

DOCK01

FG-42-000002

Klick Fast Belt Dock to suit 32mm belt width.

DOCK02

FG-42-000005

Klick Fast Belt Dock to suit 38mm belt width.

DOCK03

FG-42-000007

Klick Fast Belt Dock to suit 50mm belt width.

DOCK07

FG-42-000046

Klick Fast Belt Dock to suit 60mm belt width.

DOCK11

FG-42-000054

The Klick Fast Clip-On Dock clips onto the edge of the belt

Moulded & Leather Belt Docks

Our leather belt loops feature a Klick Fast Dock, through which a belt can be threaded before being worn on the waist. Allows the carrying of devices on belts.

DOCK05BL

FG-42-000018

Klick Fast Dock on leather belt loop - to suit 50mm belt width. Wider and press-studded options available.

DOCK05BLDROP

FG-42-000024

Klick Fast Dock on leather belt loop that sits 50mm below belt level – to suit 50mm belt width.

DOCK05BVELCRO

FG-42-000034

Soft leather belt loop, featuring a Velcro hook and loop inner lining and a Klick Fast Dock on the front. It can be quickly unfolded, wrapped around a belt and secured in place with the Velcro.

DOCK05BC

FG-42-000014

The Klick Fast Dock with a leather-covered metal belt clip on its rear can quickly and easily be mounted to belts and waistbands.

Permanent Fix Option

DOCK08

FG-42-000049

Easily retrofit any garment with the Screw-to-Fit Klick Fast Dock. The front and rear mouldings secure in place using four stainless steel screws, creating a sturdy mounting point.

DOCK06ES

FG-42-000163

The Klick Fast Easy-Sew Dock has been designed for garment manufacturers and converters who need to attach Klick Fast Docks without specialist machinery or needles.

Non-Permanent Fixing Options

DOCKBUTTONM

FG-42-000056

The Klick Fast Shirt Button Dock is designed for use on button-down shirts and is particularly useful for carrying devices that need to be located right in the centre of the chest e.g. body cameras. This version is for male shirts.

DOCKBUTTONF

FG-42-000055

Klick Fast Shirt Button Dock for mounting to female shirts (left-hand side shirt buttons)

DOCKCROCCLIP

FG-42-000063

Klick Fast Crocodile Garment Clip with a spring-loaded clip for secure attachment to shirts, belts, pockets, and waistbands. Serrated teeth and strong tension ensure a firm grip on fabric, keeping devices securely in place.

DOCKCROCCLAT

FG-42-000061

Klick Fast Crocodile Garment Clip assembled with anti-tilt attachment.

DOCKCLAMP

FG-42-000057

Klick Fast Clamp Dock perfect for mounting to shirt pockets

DOCKRSMTAG

FG-42-000101

The Klick Fast Dock for RSM Tag attaches securely to shirt or clothing loops using a 41mm rear leather tongue (other version available) and a heavy-duty press stud for a firm hold.

DOCKRSMTAGLONG02

FG-42-000110

Klick Fast Dock for Remote Speaker Mic Tag with full moulded front - extended length (rear tongue width: 35mm).

DOCKRSMTAGBTP

FG-42-000105

The Klick Fast Dock for RSM Tag with Double Leather Tongues offers a versatile fit for garments with loops or tags of varying widths. It features 39mm and 48mm leather tongue (other version available) that slides behind loops and secures with a heavy-duty press stud.

DOCKRUCKSACK

FG-42-000125

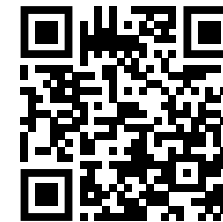

The Klick Fast Rucksack Dock allows a Klick Fast-enabled device to be attached anywhere on padded rucksack and backpack straps.

DOCKEPAULETTE

FG-42-000064

The Klick Fast Epaulette Dock allows a Klick Fast-enabled device such as a radio or body camera to be hung from most standard epaulettes.

Cant' see what you need?

We have hundreds of options and would love to discuss any bespoke requirement at sales@peterjonesilg.co.uk

MOLLE Options

DOCKQUADMV

FG-42-000176

The Klick Fast Quad MOLLE Dock securely attaches to any MOLLE system using four vertical slots across two PALS rows—ideal for hands-free use of body cameras, radios, and mobile devices.

DELTAMOLLEDOCK

FG-59-000020

A secure, stable Dock for MOLLE webbing. With no springs or pins, it's free from metal parts that can fail or corrode. It's easy to attach, adjust, and reposition for maximum flexibility.

DOCKMV

FG-42-000092

Klick Fast MOLLE System Dock securely attaches to any MOLLE loop system on vests, bags, and gear. Dual webbing straps allow vertical or horizontal mounting, fastened with a heavy-duty press stud for reliable hold.

Which MOLLE option is right for you?

Magnet Mounts

DOCKMAG02

FG-42-000075

The Klick Fast Magnetic Mount offers instant, non-permanent attachment of Klick Fast-enabled devices to any garment. Using 8 high-strength magnets, it securely holds in place without sewing or screws, with an upper Dock option.

DOCKMAG06

FG-42-000080

The Klick Fast Magnetic Mount offers instant, non-permanent attachment of Klick Fast-enabled devices to any garment. Using 8 high-strength magnets, it securely holds in place without sewing or screws, with a central Dock option.

DOCKMAGNET

FG-42-000085

The Klick Fast Magnetic Mount delivers effortless, on-the-spot attachment for any Klick Fast-enabled device. Powered by eight ultra-strong magnets, it locks securely onto your clothing—no sewing, no screws, no hassle.

DOCKMAGPLUS

FG-59-000002

The back plate slips behind the garment or pocket, while the front plate, featuring a Klick Fast Dock, snaps securely on the outside. Achieves a pull force through fabric materials up to 4.5mm thick making it a durable option.

Harness Options

DELTAHARNESS4P

FG-59-000003

Ideal for mounting body cameras. Available in both three- and four-point versions, this model features the four-point design for added stability.

DELTAHARNESS3PRH

FG-59-000004

Delta Harens with three points, right hand side.

DELTAHARNESS3PLH

FG-59-000005

Delta Harens with three points, left hand side.

SSHLDER17KF

FG-31-000004

Four-point nylon webbing harness with a Klick Fast Dock centrally located on the chest for mounting devices such as body cameras.

SSHLDER999ADJKF

FG-31-000021

Length-adjustable, nylon webbing harness with a height-adjustable Klick Fast Dock for chest area mounting of a device.

SSHLDER18KF

FG-31-000007

Shoulder harness with Klick Fast Dock mounted on a comfortable, leather strap just below the left shoulder. Suitable for high mounting of devices.

SSHLDER21KF

FG-31-000010

Four-point elasticated harness with Klick Fast Dock centrally located on the chest for mounting devices such as body cameras.

DELTA

BY PETER JONES

Make the difference, Delta range provides lightweight, cost-effective and sustainable carrying solutions. With every Delta product sold Peter Jones contributes directly to Mind in Gwent.

From left to right: Delta MOLLE Dock, Delta Clamp Dock, Quad MOLLE Dock..

Cost-effective

Lightweight

Recyclable

No leather

Quality-assured

DOCKMCLIP

FG-42-000195

The crocodile-style teeth grip to securely hold body-worn cameras, radios, and lone worker devices. Lightweight, metal-free, and magnet-free, it's a safe, cost-effective, and sustainable choice from the Delta range.

DOCKMCLIPAT

FG-42-000232

Anti-tilt version is also available for added stability.

DELTA CLAMP

FG-59-00009

A lightweight, cost-effective Klick Fast Dock. No magnets, straps, or permanent fixings needed. It offers a secure, comfortable fit without damaging clothing. Simply place the rear plate inside the garment, clip the front plate through, and lock it in place.

Ideal for lightweight garments, the Delta Clamp delivers stable, reliable attachment.

Klick Fast LT

Our Closest Ever Fit

Low Threshold

Sits 60% closer to the body

Improved safety: harder to snag, harder to grab

Improved comfort

Larger Template

Increase in surface area provides
a more stable platform

Better suited for loose fitting garments

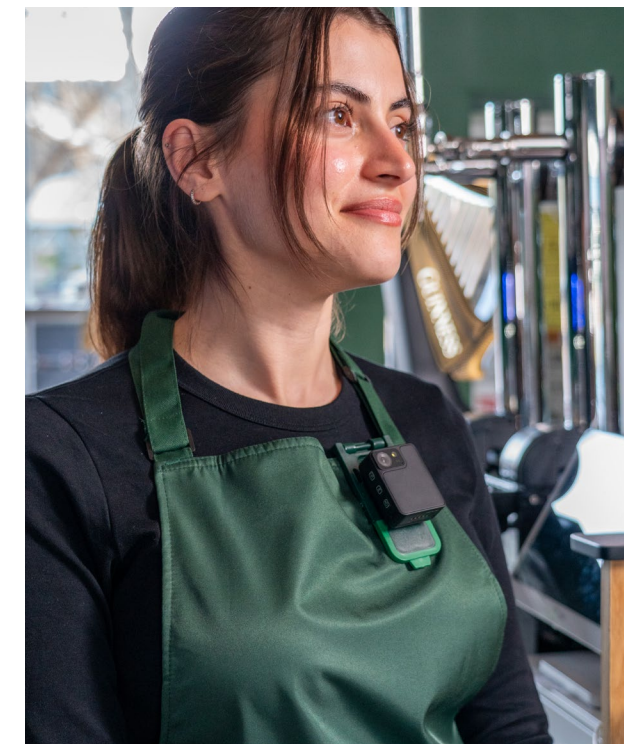

Larger footprint reduces 'sag' or 'drop'

Light Touch

Easier to use

Improved accessibility for elderly or disabled users

Better suited for 'enterprise' users

LTHARNESS4P

FG-45-000001

The Delta Chest Harness is sustainable, lightweight and cost effective, and features a Klick Fast Dock for mounting devices such as body-worn cameras.

LPHMAGMOUNT

FG-45-000005

The Hinge Mag Dock is a simple, effective and secure mounting option. Designed to be fitted onto a pocket, between buttons or on a fabric loop the Klick Fast LT Hinge Mag Dock works best on thinner garments.

LTQUADMOLLE

FG-45-000002

The Quad MOLLE Dock allows secure and easy attachment to any MOLLE loop system found on utility vests, kit bags and other applications.

DELTAMOLLEDOCKLT

FG-45-000008

Gives you the convenience and versatility you need when customising how you carry your gear. Engineered for stability and quick access, it performs reliably even in the toughest conditions.

LTSEW

FG-45-000003

The Klick Fast LT Sew-On Dock has been designed for garment manufacturers and converters who need to attach Klick Fast LT Docks without specialist machinery or needles.

DELTA CLAMPLT

FG-45-000009

The Delta Clamp provides lightweight, cost-effective attachment without the need for magnets, straps, or permanent fixings. It provides a comfortable, secure fit without damaging clothing.

FORTiS

FORTiS par Peter Jones offre une solution pratique de port mains libres pour les appareils mobiles, alliant accessibilité immédiate et protection supérieure.

Conçus pour les utilisateurs de technologies modernes, les étuis robustes intègrent un connecteur Klick Fast permettant une fixation sécurisée aux ceintures ou aux vêtements.

Les appareils sont maintenus fermement par des « griffes » d'angle, restant bien en place même en mouvement.

FORTiS peut être porté face vers l'avant pour une visibilité optimale ou replié vers le bas pour plus de discrétion.

FORTiS Leather Fold-Down

Your device is securely held by the plastic claw and further protected by an all-around leather cover, which folds down for easy discreet access on the go. With a Klick Fast Connector on the back. Pictured on the previous page.

FORTiS Cradle

The fully plastic FORTiS with a Klick Fast Connector on the back allows your device to be securely protected while giving you the flexibility to position it wherever you need.

Bespoke Carry Cases, Holsters & Pouches

Whatever the device, we can provide a way to carry and protect it.

With over 40 years of expertise, Peter Jones is a trusted global leader in crafting high-quality radio cases. Designed and manufactured in South Wales, our cases combine cutting-edge technology with traditional craftsmanship to deliver unmatched durability and reliability.

Whether for light use or extreme field conditions, our leather and nylon cases offer secure, hands-free protection for TETRA, digital mobile, Push-to-Talk, and hybrid devices.

Choose from a range of materials and styles to suit your needs—and personalise your case for a perfect fit.

Body Camera Privacy Cases

Our Privacy Tab Case for body cameras offer a simple, effective way to safeguard both staff and customer privacy. The camera lens is covered by a privacy tab which can be quickly and easily opened for recording. Non privacy tab version also available to protect device.

Radio Cases

Our best-selling radio cases are built for durability, a secure fit, and everyday reliability across major radio manufacturers. Alongside our core range, we also produce bespoke cases. Every case can be configured with a variety of carrying options, belt clips, loops or Klick Fast giving you a perfect fit for any workflow.

Every case is designed to suit the radio's features, with the following pages showcasing a selection of the available options.

Klick Fast cases can be supplied with a 32mm, 38mm, 50mm or 60mm Plastic Belt Dock or with no Dock depending on preference.

We design & manufacture cases for all leading radio manufacture's, including:

Baton Holders

Made from a combination of high-quality, firm leather and robust, nylon-moulded components, Peter Jones' range of Rotatable Baton Holders offers secure hands-free carrying of most major brands of expandable batons e.g. ASP, Monadnock, Bonowi, and CASCO.

Different models are available for various baton lengths (e.g. 406mm (16"), 540mm (21"), 560mm (22"), 610mm (24"), 650mm (26")) and for various types of expandable batons including AutoLock, Friction Lock and button-release. Models are available for Monadnock, Casco, ASP, Arnold, Nextorch and Bonowi brands of batons.

P174BCAM24

Rotatable Baton Holder for 610mm Bonowi Camlock Baton with belt loop to suit 50mm belt width and reinforced ratchet assembly.

P174LKMV

Rotatable Baton Holder for 540mm Monadnock AutoLock Baton with press-studded webbing straps on ratchet assembly for MOLLE system mounting.

P174FBKFNOD

Rotatable Baton Holder for 650mm Bonowi Camlock Baton with Klick Fast Connector.

Speedcuff Holders

Our Rotatable Speed Cuff Holder offers hands-free quick release carrying of most brands of rigid handcuffs including Hiatt and TCH.

Also available are open-topped, leather pouches for rigid handcuffs which can be attached to belts with a leather belt loop positioned centrally or at the top of the pouch, for high or low carrying of handcuffs.

P200

Rotatable Speedcuff Holder with moulded nylon inserts and ratcheted leather belt loop to suit 50mm and 55m belt width.

P200KF

Speedcuff Holder with moulded nylon inserts, Klick Fast Connector and belt dock to suit 50mm belt width.

P200MV

Rotatable Speedcuff Holder with moulded nylon inserts and press-studded webbing straps on ratchet assembly for MOLLE system mounting.

Incapacitant Spray Holders

The Peter Jones Incapacitant Spray Holder range offers hands-free carrying of a variety of incapacitant sprays, including PAVA and CS. Most models rotate for ease of access and comfort and can be mounted with a Klick Fast Connector, a belt loop or a MOLLE attachment.

The model comes with a pot for a 35 mm spray canister, and the pots can be swapped for others that fit different diameters (e.g., 38 mm) and lengths (e.g., 135 mm).

Secure & quick easy-to-use, while ensuring that the PAVA spray is always attached. The Peter Jones PAVA spray holder has become a firm favourite amongst Law Enforcement professionals.

P175

TechReady

**Be Safer.
Be Smarter.
Be TechReady.**

 Auto-trigger body-cams for non-lethal deployments

Empower officers, improve safety, and streamline operational processes in policing.

*TechReady is a carrying system that facilitates third party technologies. Patent pending.

Ensuring Evidence Capture in Critical Situations

Operational Efficiency

When deploying the baton, incapacitant spray, or handcuffs, the body camera can be automatically activated.

Compatibility

Utilises Yardarm technology
Axon Technology
Reveal Technology

Advantages of TechReady

- ▶ Officers can focus on managing situations without the distraction of manually activating cameras
- ▶ Guarantees critical evidence capture during high-stakes encounters

What TechReady Could Mean for You

- ▶ Activate bodycam to record when equipment is withdrawn
- ▶ Utilise auto-trigger benefits for non-lethal actions
- ▶ Improve rate of evidence captured
