ABOUT US

MERE Supplies was born out of frontline experience and a bold vision for change. Founded by dedicated Paramedics who saw firsthand the limitations of outdated first aid kits, we set out on a mission: to modernise, optimise, and elevate emergency preparedness for everyone.

We are not just suppliers, we are innovators. At MERE Supplies, we specialise in cutting-edge, high-performance first aid and medical kits designed for the real world. Whether you're in a corporate office, deep in the wilderness, or navigating high-risk environments, our equipment is built to perform when it matters most.

Every kit we offer is the result of rigorous curation, tested insight, and collaboration with expedition medics and emergency experts. We understand that no two situations, or users are the same, which is why our products are tailored for diverse needs and lifestyles, from everyday use to extreme conditions.

But what truly sets us apart isn't just the gear, it's the purpose behind it. We're driven by a commitment to empower individuals, families, and organisations with the confidence and capability to act fast and effectively in a crisis. That means more than just selling supplies. It means delivering trust, innovation, and unwavering support to every customer.

With a relentless focus on quality, reliability, and user-friendly design, MERE Supplies is proud to be a trusted partner in preparedness. We're here to raise the standard, not just for first aid kits, but for what it means to be ready.

This is more than a business. It's a mission.

WHERE MODERN
CARE BEGINS**

M1 RESPONSE BAG

The M1 Response Bag by MERE, the ultimate lifesaving companion available in two stylish colours. Made from premium abrasion-proof and water-resistant fabric, this bag has been drop tested from a 20-meter height, ensuring its durability in any situation. The fabric's laser-cut design allows easy attachment of your other MERE products, keeping everything in one place.

NAME: M1 RESPONSE BAG	CAPACITY: 40L
CODE: MS-1000	SIZE: 54X36X20CM (LXWXD)
WARRANTY: 2 YEARS	COLOUR OPTIONS:  

MOLLE COMPATIBLE

The 500d MERE fabric, custom heat-treated and laminated, guarantees strength and durability, giving you confidence that your equipment is securely attached to the laser-cut MOLLE system.

COLOUR OPTIONS

The M1 Response Bag is available in both Rescue Red and Tactical Black, ensuring professionals across various industries have the appropriate gear for the job.

QUICK ACCESS PANEL

The M1 Response Bag features a quick-access panel that enables you to treat a priority 1 patient swiftly without needing to open the entire bag, aligning perfectly with the new NHS 10-second triage protocol.

TREAT HOW YOU TRAIN

Effortlessly find the medical equipment you need with the help of our smart, easy-to-read labels and intuitive colour-coding system.

STEP WISE APPROACH

Deliver medical care in a structured, step-by-step manner to reduce human error and accelerate patient treatment.

FREC 3 RESPONSE BAG

INTENDED USE: FREC LEVEL 3 QUALIFIED RESPONDERS

The FREC 3 Response Bag is designed to support responders trained to First Response Emergency Care (FREC) Level 3. It enables the delivery of structured pre-hospital care across a range of emergency and event settings.

The bag is organised to support efficient access to equipment during patient assessment and treatment.

W1 RESPONSE BAG

The W1 Response Bag by MERE is a durable, IPC-friendly lifesaving essential with oxygen-carrying capability and a 100kg winch-tested D-ring for secure aircraft loading. Made from wipeable PVC material, it features a quick access front panel and colour-coded pouches for rapid, organised emergency response. Available in four stylish colours, the W1 Response Bag combines functionality and sleek design, ready for any critical situation.

NAME: W1 RESPONSE BAG	CAPACITY: 40L
CODE: MS-1100	SIZE: 54X36X20CM (LXWXD)
WARRANTY: 2 YEARS	COLOUR OPTIONS: 

IPC FRIENDLY

The W1 Response Bag is IPC-friendly, designed with integrated bio-repellent properties to minimise cross-contamination. Its advanced material ensures superior infection prevention control, making it ideal for safe and efficient medical response.

CYLINDER CAPABILITY

The W1 Response Bag features secure oxygen cylinder straps, allowing for the safe and stable transport of gases during emergency response. Designed for convenience and safety, it ensures reliable oxygen management on the go.

QUICK ACCESS PANEL

The W1 Response Bag features a quick-access panel that enables you to treat a priority 1 patient swiftly without needing to open the entire bag, aligning perfectly with the new NHS 10-second triage protocol.

TREAT HOW YOU TRAIN

Effortlessly find the medical equipment you need with the help of our smart, easy-to-read labels and intuitive colour-coding system.

STEP WISE APPROACH

Deliver medical care in a structured, step-by-step manner to reduce human error and accelerate patient treatment.

FREC 3 RESPONSE BAG

INTENDED USE: FREC LEVEL 3 QUALIFIED RESPONDERS

The FREC 3 Response Bag is designed to support responders trained to First Response Emergency Care (FREC) Level 3. It enables the delivery of structured pre-hospital care across a range of emergency and event settings.

The bag is organised to support efficient access to equipment during patient assessment and treatment.

S1 RESPONSE BAG

Built for speed, designed for discretion, the S1 Response Bag is a 38L professional-grade medical and utility bag engineered for both covert tactical operations and high-visibility rescue response. Whether you're blending into the background or leading the front line, the S1 adapts to your mission.

NAME: S1 RESPONSE BAG	CAPACITY: 23L
CODE: MS-1200	SIZE: 44X28X19CM (LXWXD)
WARRANTY: 2 YEARS	COLOUR OPTIONS:  

TEXTILES

Crafted from abrasion-proof, water-resistant fabric, this bag offers maximum durability in the field without sacrificing speed or access. Available in black for low-profile tactical use and red for high-visibility rescue environments, the S1 meets the demands of modern responders across disciplines.

CARRY ON

Sized to fit most major airline carry on requirements. Whether you're moving through airports for work or deployment, the S1 keeps your load out discreet, secure, and ready to go from ground to air without compromise.

LAPTOP STORAGE

Featuring a dedicated padded laptop compartment, it keeps your tech safe and secure while maintaining the bag's discreet profile. Whether you're on shift, travelling, or moving between environments, the S1 blends professional function with real-world capability.

TREAT HOW YOU TRAIN

Effortlessly find the medical equipment you need with the help of our smart, easy-to-read labels and intuitive colour-coding system.

STEP WISE APPROACH

Deliver medical care in a structured, step-by-step manner to reduce human error and accelerate patient treatment.

PAEDIATRIC RESPONSE BAG

INTENDED USE: PAEDIATRIC EMERGENCY CARE

The Paediatric Response Bag is a compact emergency kit configured within the S1 Response Bag system. It focuses on airway management, major haemorrhage control, and diagnostic support using child-specific equipment.

The colour-coded layout supports rapid identification of equipment and efficient deployment in paediatric emergencies.

RPP RESPONDER POUCH PRO

The MERE Responder Pouch Pro is a lightweight, durable pouch made from 500D MERE fabric, treated to enhance water-repellent properties for added protection. This treatment ensures exceptional strength and long-term reliability. Available in four colours, the pouch meets diverse needs and preferences. It also features external MOLLE loops, allowing for easy attachment of additional accessories and gear, further enhancing its versatility and convenience for organized storage.

NAME: RPP RESPONDER POUCH PRO	CAPACITY: 3.3L
CODE: MS-3000	SIZE: 21X16X10CM (LXWXD)
WARRANTY: 2 YEARS	COLOUR OPTIONS:    

STRENGTH & DURABILITY

The 500D MERE fabric undergoes a custom treatment that enhances its water-repellent properties, providing an added layer of protection. This treatment ensures the fabric maintains exceptional strength and durability, making it highly reliable for long-term use.

COLOUR OPTIONS

The MERE Responder Pouch Pro is available in four distinct colours: Rescue Red, Tactical Black, Ash Grey, and SOS Orange, ensuring that you can find the perfect pouch to match your specific needs and preferences.

EXTERNAL MOLLE

Containing external MOLLE loops, allowing you to attach additional accessories and gear with ease. This feature enhances the pouch's versatility, making it even more convenient to store and organise your essential equipment.

ORGANISATION

Like all MERE products, the Responder Pouch Pro is engineered to ensure nothing falls out. It stands out in the market with its exceptional organisational features, including a removable inner pouch and elasticated straps that keep essential equipment secure and readily accessible.

CAR FIRST AID KIT

INTENDED USE: ROADSIDE FIRST AID AND MINOR INJURY TREATMENT

The Car First Aid Kit contains essential supplies for the treatment of minor injuries at the roadside. It is intended to provide immediate and temporary care until professional medical assistance is available or where further treatment is not required.

The compact format allows for convenient storage within a vehicle.

P1 SOLO POUCH

The MERE SOLO Pouch is a tactical, low-profile medical kit designed for harsh environments. Made from premium abrasion-proof fabric, it offers durability and reliability. Inside, intricately stitched elastic loops securely hold essential medical supplies, ensuring they are both safely stowed and easily accessible during emergencies. Available in tactical black and coyote tan, the MERE SOLO Pouch is the perfect choice for professionals who need quick access to life-saving tools.

NAME: SOLO POUCH	CAPACITY: 2L
CODE: MS-2000	SIZE: 20X14X8CM (LXWXD)
WARRANTY: 2 YEARS	COLOUR OPTIONS:   

BUILT TACTICAL

The MERE SOLO Pouch is a tactical medical kit crafted for those who operate in harsh environments. This pouch is designed to be low profile, ensuring it doesn't impede movement while providing essential medical supplies. Constructed from premium abrasion-proof fabric, it is built to withstand tough conditions and rough handling. The MERE SOLO Pouch is available in two colours: tactical black and coyote tan, catering to different operational needs and preferences. Its durability and discreet design make it an ideal choice for professionals in demanding situations.

ORGANISATION

The MERE SOLO Pouch features a series of intricately stitched elastic loops, designed to securely hold essential medical supplies in place. These elastics ensure that the contents are both safely stowed and easily accessible in times of emergency. The thoughtful design allows users to quickly grab what they need, providing reliable organisation and quick access during critical situations.

IFAK ADVANCED

INTENDED USE:
**TACTICAL AND HIGH-RISK
OPERATIONAL ENVIRONMENTS**

The IFAK Advanced is a compact Individual First Aid Kit intended for use in tactical and hostile environments. It is suitable for military personnel, law enforcement officers, and other users operating in settings where there is a foreseeable risk of serious traumatic injury.

The kit is configured to support the immediate management of life-threatening injuries, including catastrophic haemorrhage and trauma, until definitive medical care is available.

 [CLICK HERE

RF RESCUE FLEX

Introducing the MERE Rescue Flex Pouch – our lightest and most versatile pouch. Made from ripstop waterproof fabric with a waterproof zip, it keeps your gear protected in any condition. The laser-cut rubber back allows it to mount easily on various belt sizes, adding functionality to its modern design. Inside, two see-through sections help you quickly locate essential medical supplies during emergencies. Plus, it's compatible with customisable patches, allowing you to personalise it to your needs. Lightweight, durable, and adaptable, the Rescue Flex Pouch is the perfect companion for every responder.

NAME: RESCUE FLEX POUCH	CAPACITY: 1.4L
CODE: MS-6001R	SIZE: 17X12X7CM (LXWXD)
WARRANTY: 2 YEARS	COLOUR OPTIONS:  

ERGONOMIC

The MERE Rescue Flex Pouch is designed with ergonomics in mind, offering lightweight comfort without sacrificing durability. Its slim profile and ripstop waterproof fabric ensure easy handling, while the waterproof zip keeps contents secure in any environment. The laser-cut rubber back provides versatile mounting options, fitting a variety of belt sizes for quick access.

ORGANISATION

Inside, two clear compartments enhance visibility, allowing you to efficiently locate vital supplies during critical moments. Its adaptability, including compatibility with customisable patches, ensures that the Rescue Flex Pouch meets the specific needs of every responder, combining convenience and functionality.

EMERGENCY TRAUMA FIRST AID KIT

INTENDED USE: IMMEDIATE RESPONSE TO LIFE- THREATENING INJURY

The Emergency Trauma First Aid Kit, supplied in the MERE Rescue Flex Pouch, is intended for the initial management of serious injuries. Its compact and lightweight design allows it to be carried in vehicles, backpacks, or personal equipment.

The kit supports early intervention and casualty stabilisation until further medical assistance is available.
