## XR TRAUMA SIMULATOR FOR TCCC TRAINING

EXONICUS

# MiLExTS

TCCC-Ready  
Trauma Training

Immersive XR  
Under Stress

Scenario Library  
& Variability

Scalable Training  
Across Units

## DESCRIPTION

**MilExTS®** enables Tactical Combat Casualty Care (TCCC) training aligned with the **MARCH algorithm**: Massive Hemorrhage, Airway, Respiration, Circulation, Hypothermia/Head Injury.

## DESIGNED FOR

- ASM – All Service Members
- CLS – Combat Lifesaver
- CMC – Combat Medic / Corpsman
- CPP – Combat Paramedics

## ALSO SUITABLE FOR

Law enforcement tactical units, first responders (EMS/fire), national guard, and medical simulation centres.

## OPERATIONAL CAPABILITY

- Fully offline operation (works in disconnected environments)
- Rapid deployment across units and training sites
- Scenario-based repetition and skill retention
- Performance grading for After-Action Review (AAR)
- Standardized training outcomes across trainees
