

PROCEDURE PACKS

FOR THE MEDICAL PROFESSION

Vernacare

Clinical Excellence in Theatres, Hospital Wards and Community.

For over 40 years, Vernacare has supplied healthcare providers with sterile and non-sterile consumable items, vital to patient care. During that time Vernacare has become widely regarded by both clinical and commercial specialists as a reliable partner, sharing the objectives of improved patient experience, cost reduction and the focus of resources on patient care.

OUR PRODUCTS

Our products promote good practice in the operating theatre and hospital ward to minimise the risk of infection and to enable clinicians to comply with government guidelines concerning infection control. Procedure packs also help to reduce waste, set up time and storage needs to deliver cost efficiencies within the hospital. The introduction of procedure packs has been proven to reduce procurement costs by 76%⁽¹⁾, and releases time that would otherwise be spent setting up the procedure, to time spent with the patient.

SURGICAL SOLUTIONS

THE BENEFITS

- Components are presented in a single, sealed, sterile pack.
- Storage needs, set up time and waste are all reduced by use of one pack instead of several items
- Our procedure packs design promotes the use of aseptic technique in non-sterile environments.
- Procedures and working practices can be standardised throughout the trust.

THE RANGE

1. IV Cannulation
2. Wound Cleansing
3. Suture
4. Delivery
5. Gynaecology
6. Catheter
7. Bowl Packs
8. Epidural Packs

Vernacare's single use instruments are packed in a medical clean room and sterilised ready for use. Vernacare instruments are made from medical grade stainless steel with a satin finish.

Single use surgical instruments help protect patients from infection, and are also cost effective, especially when compared to the total cost of using reusable instruments.

LAPAROSCOPIC RANGE

Introduced to the market in 1992, the BERT® range of tissue retrieval bags were developed alongside the advance of minimally invasive surgery; providing a safe, strong and cost-effective solution for the removal of tissue during a wide range of laparoscopic procedures. The range is manufactured in the UK and has been used in over 1 million procedures worldwide.

Tissue Retrieval Bags

GAUZE AND NON-WOVENS

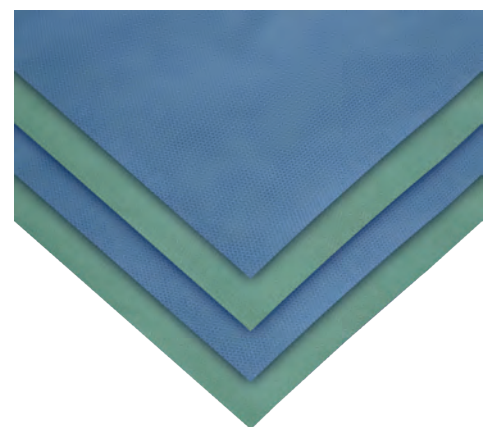

Vernacare brings you a comprehensive range of sterile and non-sterile products to cover all your needs. The Pro-Gauze range consists of Elementa plain woven gauze, Detex X-Ray detectable gauze and Sofsorb non-woven swabs. Our specialist ranges, include: pledgets, throat packs, gauze packing rolls and dressing swabs.

X-Ray Detectable Gauze

STERILE SERVICE CONSUMABLES

The delivery of sterile surgical instruments to the operating theatre not only depends on the quality of the sterilisation process but also upon the efficacy of the packaging material used. Our sterile service consumables range consists of: sterilization wrap, medical packaging (pouches and bags) and surgical disinfectant.

Sterilisation Wrap
