ATTENTI OFFENDER MANAGEMENT SYSTEM (OMS)

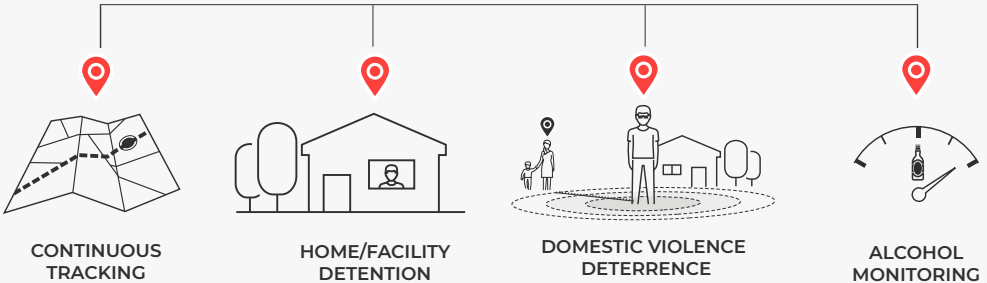

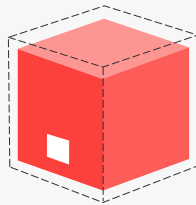

The Attenti Offender Management System (OMS) is the brain of the Attenti solution. Designed to enhance effectiveness and efficiency in managing electronic monitoring programs and streamline operations. The Attenti Offender Management System provides a 360° view of the offender, by encapsulating all required tools and modules needed to address your exact operational and regulatory needs.

The OMS gathers data from monitored individuals and presents it to various EM system users, enabling them to create a safer society.

ATTENTI OFFENDER MANAGEMENT SYSTEM

THE MAIN SOLUTIONS PROVIDED BY OUR OMS:

CONTINUOUS TRACKING

Attenti's Continuous Tracking solution provides precision location tracking designed to constantly monitor the outdoor and indoor location of the offender, at varying levels of intensity.

Relevant Programs: Pre-Trial & Bail, Temporarily Release, Early and Post-Release, Illegal Immigration Control, Juvenile Delinquency and Preventive Detention.

HOME/ FACILITY DETENTION

Attenti's Home/Facility Detention solution enables agencies to verify the presence of individuals in a specific perimeter at any given time. The solution allows the remote supervision of offenders' compliance with a restrictive pre-defined schedule.

Relevant Programs: Home Curfew, Halfway Houses, Juvenile Delinquency, Pre-Trial & Bail, Temporarily Release, Early and Post-Release, Illegal Immigration Control and Preventive Detention.

DOMESTIC VIOLENCE DETERRENCE

Attenti's Domestic Violence Deterrence solution increases the sense of security of victims, while providing enhanced supervision over aggressors' compliance with restraining orders.

The Domestic Violence Deterrence system provides protection of victims at home and on the move, enables victims to remain within the community and continue with their daily routines while providing evidence to support breach claims while facilitating prosecution processes.

SUBSTANCE ABUSE MONITORING

Attenti's Substance Abuse solution is a highly accurate method of remotely testing alcohol consumption levels, while verifying the identity of the individual taking the test. To better comply with court orders, the substance abuse solution can be integrated with the Home/Facility Detention solution.

The Substance Abuse Monitoring solution aids addiction rehabilitation while enhancing public safety.
