

Beyond Driving offer RoSPA accredited specialist driver training nationally. We specialise in 4x4, UTV, ATV and winch training for both operator and instructor courses, as well as advanced, defensive on road training. Our instructors have extensive experience in all aspects of this training and are considered experts in their field. Their knowledge and skill sets have enabled many emergency services teams to operate safely in the workplace and create professional in house training programs.

Beyond Driving regularly deliver bespoke training to all divisions of the emergency services across the UK and Ireland. All of our courses are approached with the goal of providing the correct and relevant legislative information, and tailoring the practical elements to the individual requirements of the clients. Be it search and rescue, casualty recovery, firefighting, crime scene investigation, or vehicle recovery, we will work with your teams to ensure that Beyond Driving provides the best possible training environment.
