

RESPOND, RECORD, REDUCE RISK WITH PDRPRO

Your Foundation for Safer, Smarter Operations

pdrPro Core is a purpose-built training and competence management system for Fire Services. By integrating formal training, real-world experience, and national standards into one intuitive platform, it empowers Fire Services to manage complex training and compliance needs with confidence across the organisation.

With role-based tracking, built-in reporting, and real-time dashboards, pdrPro ensures teams stay certified, compliant, and ready to respond – while providing clear insights and audit trails for inspections.

30+ UK FRSs use pdrPro

3000+ e-learning courses

ISO27001 certified
