

DIGITAL EVIDENCE. RECORDS. OPERATIONAL MEDIA.

One trusted platform for managing critical digital content.

Public sector organisations manage growing volumes of digital evidence, records and operational media every day.

From CCTV and body worn video to images, audio and documents, information needs to be secure, accessible and ready when it matters most.

Aetopia helps organisations manage, protect and share digital content with confidence.

Managing digital content is no longer just about storage.

Across policing, emergency services and the public sector, teams need faster access to information while maintaining control, compliance and accountability.

COMMON CHALLENGES

- 01** Content spread across multiple systems and locations
- 02** Manual processes slowing investigations and reviews
- 03** Growing volumes of video, audio and digital content
- 04** Increasing disclosure and compliance requirements
- 05** Delays locating information when it is needed most

OPERATIONAL CONTENT OFTEN INCLUDES

CCTV and body worn video

Interview and call recordings

Images and photographs

Case files and documents

Operational records

FOI and Subject Access Requests

THE COST OF SCATTERED CONTENT

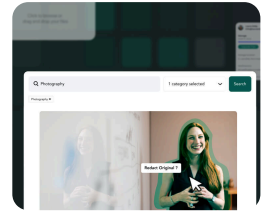

When information is difficult to find, review and share, productivity falls, costs increase and risk grows.

Aetopia DAM for Law Enforcement

A comprehensive digital asset and evidence management platform designed specifically for policing organisations.

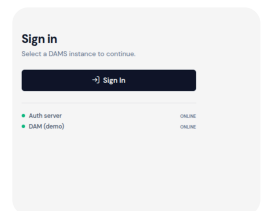

Manage CCTV, body worn video, interview recordings, photographs, documents and other evidential content throughout the evidential lifecycle.

Aetopia Evidence

A streamlined evidence management platform for emergency services and public sector organisations.

Securely manage operational media, incident footage and evidential content from a single location.

AI Redact

AI-assisted redaction for video, audio and documents.

Integrated with both Aetopia DAM for Law Enforcement and Aetopia Evidence to help teams prepare information for disclosure more efficiently.

- ✓ Faster access to critical information
- ✓ Reduced manual preparation effort
- ✓ Improved disclosure processes
- ✓ Secure collaboration with courts and partner agencies
- ✓ Less time spent searching for content
- ✓ AI-assisted redaction across video, audio and documents
- ✓ Stronger governance and accountability
- ✓ Reduced operational costs

FROM CAPTURE TO DISCLOSURE

01

Manage digital evidence and operational media within a secure environment.

02

Prepare content for disclosure faster with AI-assisted redaction.

03

Maintain evidential integrity through controlled access, complete audit trails and secure sharing.

Helping organisations respond faster while keeping sensitive information protected.

LET'S TALK

Book a 30-minute walkthrough and see how Aetopia helps public sector organisations manage digital evidence, records and operational media more effectively.
