PROVEN IN LAW ENFORCEMENT

Aetopia Evidence

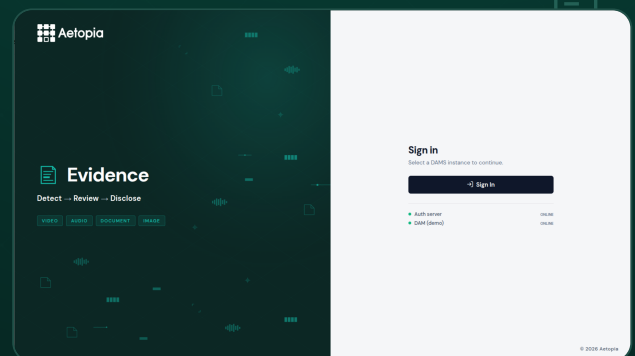

Investigation and Digital Evidence Management for Emergency Services

DETECT → REVIEW → DISCLOSE

A simpler way to manage digital evidence.

Aetopia Evidence brings the proven investigation and digital evidence management capabilities of Aetopia's Law Enforcement platform to fire, ambulance and specialist response organisations.

Manage investigations, digital evidence and sensitive information from a single trusted platform, with complete visibility, control and accountability throughout the lifecycle.

DETECT

Collect and organise digital evidence, incident files, images, video, audio, documents and public submissions into structured investigations.

REVIEW

Search, review and prepare digital evidence for investigations, incident reviews and disclosure requests, with every action recorded.

DISCLOSE

Release digital evidence to partner agencies, authorised third parties and external stakeholders through managed permissions and expiring links.

1 Platform

For investigations, digital evidence, operational content and public submissions.

100% Audit trail

Complete visibility of access, sharing and activity.

UK Hosted

ISO 27001:2022 certified, with full governance and retention controls.

Aetopia Evidence brings together the capabilities emergency services need most for managing investigations, digital evidence and operational information, from first collection through to disclosure.

DETECT

- ✓ Secure storage of digital evidence and operational files
- ✓ Organise content by incident, investigation or operational activity
- ✓ Metadata-driven search and retrieval
- ✓ Public upload portal for digital evidence and submissions

REVIEW

- ✓ Structured digital evidence review workflows
- ✓ Investigation, case and incident management
- ✓ Intelligent search and filtering
- ✓ Full audit trails and activity tracking

DISCLOSE

- ✓ MyDAM secure external portal with no email attachments and no physical media
- ✓ Controlled access permissions at case and file level
- ✓ Disclosure preparation workflows and expiring links
- ✓ Retention, disposal and auto-weeding policies

BENEFITS FOR EMERGENCY SERVICES TEAMS

A trusted digital evidence repository with governance built in.

- ✓ Reduce administrative effort
- ✓ Support UK GDPR and retention requirements
- ✓ Create a single source of truth for digital evidence
- ✓ Improve information governance and compliance
- ✓ Enable secure collaboration across organisations
- ✓ Maintain chain of custody and evidential integrity

TYPICAL USE CASES

Digital Evidence Management

CCTV & Incident Footage

Public Evidence Submission

Incident Reviews

Professional Standards Investigations

Multi-Agency Information Sharing

FOI Requests

Subject Access Requests

Operational Records Management

Need to prepare digital evidence for disclosure?

Aetopia Evidence integrates with **Aetopia AI Redact** to automate detection of faces, vehicle registration plates, voices and sensitive content. Every redaction remains subject to human review and approval before information is disclosed.

**AI REDACT
INCLUDED**
