DOCUMENT

IMAGE

## A simpler way to manage digital evidence.

Aetopia Evidence brings the proven investigation and digital evidence management capabilities of Aetopia's Law Enforcement platform to fire, ambulance and specialist response organisations.

Manage investigations, digital evidence and sensitive information from a single trusted platform, with complete visibility, control and accountability throughout the lifecycle.

### DETECT

Collect and organise incident files, images, video, audio, documents and public submissions into structured investigations.

### REVIEW

Search, review and prepare evidence for investigations, incident reviews and disclosure requests, with every action recorded.

### DISCLOSE

Release evidence to partner agencies and authorised third parties through managed permissions and expiring links.

## 1 Platform

For investigations, digital evidence, operational content and public submissions.

## 100% Audit trail

Complete visibility of access, sharing and activity.

## UK Hosted

ISO 27001:2022 certified, with full governance and retention controls.

# One platform, from first collection through to disclosure.

## Secure evidence storage

Evidence and operational files held together, organised by incident or investigation.

## Search and retrieval

Metadata-driven search and filtering across every case file.

## Controlled disclosure

MyDAM external portal with case-level permissions and expiring links. No email attachments, no physical media.

### BENEFITS

- ✓ Less administrative effort
- ✓ Stronger governance and compliance
- ✓ Support for UK GDPR and retention
- ✓ A single source of truth for evidence
- ✓ Simplicity

## Case and incident management

Structured review workflows with full audit trails and activity tracking.

## Public upload portal

Members of the public submit footage and files directly into an investigation.

## Retention and governance

Retention, disposal and auto-weeding policies, with chain of custody preserved.

### TYPICAL USE CASES

CCTV & incident footage

Incident reviews

Professional standards

Multi-agency sharing

FOI and SARs

Records management

Control rooms

## Need to prepare digital evidence for disclosure?

**AI REDACT  
INCLUDED**

Aetopia Evidence integrates with **Aetopia AI Redact** to automate detection of faces, vehicle registration plates, voices and sensitive content. Every redaction remains subject to human review and approval before information is disclosed.

## Let's talk about your investigations and digital evidence.

Book a walkthrough using your own workflows and governance requirements.
